The New Deal at Home and Abroad, 1929-1945 Clarke A. Chambers, 1965 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1968 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June **Storm of the Century** Willie Drye, 2019-08-01 In 1934 hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West The Roosevelt Administration was making a genuine effort to help these down and out vets many of whom suffered from what is known today as post traumatic stress disorder But the attempt to help them turned into a tragedy The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low lying Florida Keys In late August 1935 a small stealthy tropical storm crossed the Bahamas causing little damage When it entered the Straits of Florida however it exploded into one of the most powerful hurricanes on record But US Weather Bureau forecasters could only guess at its exact position and their calculations were well off the mark The hurricane that struck the Upper Florida Keys on the evening of September 2 1935 is still the most powerful hurricane to make landfall in the US Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm s way The train was slammed by the storm surge soon after it reached Islamorada Only the 160 ton locomotive was left upright on the tracks About 400 veterans were left unprotected in flimsy work camps Around 260 of them were killed This is their story with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity **The New Deal at Home and Abroad, 1929-1945** Clarke A. Chambers, 1967 **Science, Politics And The Pharmaceutical Industry** John Abraham, 0 John Abraham University of Reading., 2023-05-31 Drug disasters from Thalidomide to Opren and other less dramatic cases of drug injury raise questions about whether the testing and control of medicines provides satisfactory protection for the public In this revealing study John Abraham develops a theoretically challenging realist approach in order to probe deeply into the work of scientists in the pharmaceutical industry and governmental drug regulatory authorities on both sides of the Atlantic Through the examination of contemporary controversial case studies he exposes how the commercial interest of drug manufacturers are consistently given the benefit of the scientific doubts about medicine safety and effectiveness over and above the best interests of patients A highly original combination of philosophical rigour historical sensitivity and empirical depth enables the black box of industrial and government science to be opened up to critical scrutiny much more than in previous social scientific study All major aspects of drug testing and regulation are considered including pre clinical animal tests clinical trials and postmarketing surveillance of adverse drug reactions The author argues that drug regulators are too dependent on pharmaceutical industry resources and expertise and too divorced from public accountability The problem of corporate bias is particularly severe in the UK where regulatory decisions about medicine safety are shrouded in greater secrecy than in the US Since the purpose of drug regulation should be to maximize the safety and effectiveness of medicines for patients the public needs and deserves

policies to counteract corporate bias in drug testing and evaluation John Abraham's realist analysis provides a robust basis for policy interventions at the institutional and legislative levels He proposes that corporate bias could be reduced by more extensive freedom of information greater autonomy of government scientists from pharmaceutical industry the development of independent drug testing by the regulatory authority increased patient representation on regulatory committees and more frequent and thorough oversight of regulatory performance by the legislature This book should be of interest to anyone who cares about how medicines should be controlled in modern society It should prove particularly rewarding for students and researchers in the sociology of science and technology science and medicines policy medical sociologists the medical and pharmaceutical professions and consumer organizations *The Bonus Army* Paul Dickson, Thomas B. Kinckle Jones Felix L. Armfield, 2011-02-14 A leading African American intellectual Eugene Kinckle Jones 1885-1954 was instrumental in professionalizing black social work in America Jones used his position as executive secretary of the National Urban League to work with social reformers advocating on behalf of African Americans and against racial discrimination He also led the Urban League's efforts at campaigning for equal hiring practices and the inclusion of black workers in labor unions and promoted the importance of vocational training and social work Drawing on interviews with Jones's colleagues and associates as well as recently opened family and Urban League archives Felix L. Armfield blends biography with an in-depth discussion of the roles of black institutions and organizations The result is a work that offers new details on the growth of African American communities the evolution of African American life and the role of black social workers in the years before the civil rights era *Wilderness and the American Mind* Roderick Frazier Nash, 2014-01-28

Wilderness and the American Mind Roderick Frazier Nash, 2014-01-28 DIV Roderick Nash's classic study of changing attitudes toward wilderness during American history as well as the origins of the environmental and conservation movements has received wide acclaim since its initial publication in 1967 The Los Angeles Times listed it among the one hundred most influential books published in the last quarter century Outside Magazine included it in a survey of books that changed our world and it has been called the Book of Genesis for environmentalists For the fifth edition Nash has written a new preface and epilogue that brings *Wilderness and the American Mind* into dialogue with contemporary debates about wilderness Char Miller's foreword provides a twenty-first century perspective on how the environmental movement has changed including the ways in which contemporary scholars are reimagining the dynamic relationship between the natural world and the built environment div **Fracture** Philipp Blom, 2015-04-14

When the Great War ended in 1918 the West was broken Religious faith patriotism and the belief in human progress had all been called into question by the mass carnage

experienced by both sides. Shell shocked and traumatized, the West faced a world it no longer recognized. The old order had collapsed, replaced by an age of machines. The world hurtled forward on gears and crankshafts, and terrifying new ideologies arose from the wreckage of past belief. In *Fracture*, critically acclaimed historian Philipp Blom argues that in the aftermath of World War I, citizens of the West directed their energies inwards, launching into hedonistic, aesthetic, and intellectual adventures of self-discovery. It was a period of both bitter disillusionment and visionary progress. From Surrealism to Oswald Spengler's *The Decline of the West*, from Fritz Lang's *Metropolis* to theoretical physics, and from Art Deco to Jazz and the Charleston dance, artists, scientists, and philosophers grappled with the question of how to live and what to believe in a broken age. Morbid symptoms emerged simultaneously from the decay of World War I; progress and innovation were everywhere, met with increasing racism and xenophobia. America closed its borders to European refugees and turned away from the desperate poverty caused by the Great Depression. On both sides of the Atlantic, disenchanted voters flocked to Communism and fascism, forming political parties based on violence and revenge that presaged the horror of a new World War. Vividly recreating this era of unparalleled ambition, artistry, and innovation, Blom captures the seismic shifts that defined the interwar period and continue to shape our world today.
