New Deal For Southeastern Archaeology:

A New Deal for Southeastern Archaeology Edwin A. Lyon, 1996 Utilizing primary sources that include correspondence and unpublished reports Lyon demonstrates the great importance of the New Deal projects in the history of southeastern and North American archaeology New Deal archaeology transformed the practice of archaeology in the Southeast and created the basis for the discipline that exists today **Recent Developments in Southeastern Archaeology** David G.

Anderson, Kenneth E. Sassaman, 2012-04-03 This book in the SAA Press Current Perspectives Series represents a period by period synthesis of southeastern prehistory designed for high school and college students avocational archaeologists and interested members of the general public It also serves as a basic reference for professional archaeologists worldwide on the record of a remarkable region The Southern and Central Alabama Expeditions of Clarence Bloomfield Moore Clarence

Bloomfield Moore, 2001-04-09 The works by Clarence B Moore reproduced in this volume were published originally in 1899 1901 1903 1904 1905 1907 and 1918 **Heritage Studies** Marie Louise Stig Sørensen, John Carman, 2009-09-18 This is the first volume specifically dedicated to the consolidation and clarification of Heritage Studies as a distinct field with its own means of investigation It presents the range of methods that can be used and illustrates their application through case studies from different parts of the world including the UK and USA The challenge that the collection makes explicit is that Heritage Studies must develop a stronger recognition of the scope and nature of its data and a concise yet explorative understanding of its analytical methods The methods considered fall within three broad categories textual discourse analysis methods for investigating people s attitudes and behaviour and methods for exploring the material qualities of heritage The methods discussed and illustrated range from techniques such as text analysis interviews participant observation to semiotic analysis of heritage sites and the use of GIS Each paper discusses the ways in which methods used in social analysis generally are explored and adapted to the specific demands that arise when applied to the investigation of heritage in its many forms Heritage Studies is a seminal volume that will help to define the field The global perspective and the shared focus upon the development of reflexive methodologies ensure that the volume explores these central issues in a manner that is simultaneously case specific and of general relevance **Ocmulgee National Monument** Matthew Jennings, 2015

People have called the land near the Ocmulgee River in present day central Georgia home for a long time perhaps as many as 17 000 years and each successive group has left its mark on the landscape Mississippian era people erected the towering Great Temple Mound and other large earthworks around 1 000 years ago In the late 17th century Ocmulgee flourished as a center of trade between the Creek Indians and their English neighbors In the 19th century railroads did irreparable damage to the site in the name of progress and profit slicing through it twice Preservation efforts bore fruit in the 1930s when Ocmulgee National Monument was created Since then people from all over the world have visited Ocmulgee They come for many reasons but they invariably leave with a reverence for the place and the people who built it hundreds of years ago and

those who have maintained it in recent decades **Bioarchaeology** Jane E Buikstra, Lane A Beck, 2017-03-02 The core subject matter of bioarchaeology is the lives of past peoples interpreted anthropologically Human remains contextualized archaeologically and historically form the unit of study Integrative and frequently interdisciplinary bioarchaeology draws methods and theoretical perspectives from across the sciences and the humanities Bioarchaeology The Contextual Study of Human Remains focuses upon the contemporary practice of bioarchaeology in North American contexts its accomplishments and challenges Appendixes a glossary and 150 page bibliography make the volume extremely useful for research and teaching **Mound Sites of the Ancient South** Eric E. Bowne, 2013-06-01 From approximately AD 900 to 1600 ancient Mississippian culture dominated today's southeastern United States These Native American societies known more popularly as moundbuilders had populations that numbered in the thousands produced vast surpluses of food engaged in longdistance trading and were ruled by powerful leaders who raised large armies Mississippian chiefdoms built fortified towns with massive earthen structures used as astrological monuments and burial grounds The remnants of these cities scattered throughout the Southeast from Florida north to Wisconsin and as far west as Texas are still visible and awe inspiring today This heavily illustrated guide brings these settlements to life with maps artists reconstructions photos of artifacts and historic and modern photos of sites connecting our archaeological knowledge with what is visible when visiting the sites today Anthropologist Eric E Bowne discusses specific structures at each location and highlights noteworthy museums artifacts and cultural features He also provides an introduction to Mississippian culture offering background on subsistence and settlement practices political and social organization warfare and belief systems that will help readers better understand these complex and remarkable places Sites include Cahokia Moundville Etowah and many more A Friends Fund Publication **The Rise and Fall of Culture History** R. Lee Lyman, Michael J. O'Brien, Robert C. Dunnell, 2007-07-27 This volume presents an insightful critical analysis of the culture history approach to Americanist anthropology Reasons for the acceptance and incorporation of important concepts as well as the paradigm's strengths and weaknesses are discussed in detail The framework for this analysis is founded on the contrast between two metaphysics used by evolutionary biologists in discussing their own discipline materialistic populational thinking and essentialistic typological thinking Employing this framework the authors show not only why the culture history paradigm lost favor in the 1960s but also which of its aspects need to be retained if archaeology is ever to produce a viable theory of culture change **Dam Projects and the Growth of American Archaeology** Kimball M Banks, Jon S Czaplicki, 2016-06-16 The Smithsonian Institution's River Basin Surveys and the Interagency Archeological Salvage Program were the most ambitious archaeological projects ever undertaken in the United States Administered by the National Park Service from 1945-1969 the programs had profound effects methodological theoretical and historical on American archaeology many of which are still being felt today They stimulated the public's interest in heritage preservation led to the passage of the National Historic Preservation Act served as the model for rescue

archaeology in other countries and helped launch the New Archaeology This book examines the impacts of these two programs on the development of American archaeology **The Ritual Landscape of Late Precontact Eastern Oklahoma** Amanda L. Regnier, Scott W. Hammerstedt, Sheila Bobalik Savage, 2019-08-27 Revisits and updates WPA funded archaeological research on key Oklahoma mound sites As part of Great Depression relief projects started in the 1930s the Works Progress Administration WPA sponsored massive archaeological projects across Oklahoma The WPA crews excavated eight mound sites and dozens of nonmound residential sites in the Arkansas River Valley that date between AD 1000 and 1450 These sites are considered the westernmost representations of Mississippian culture in the Southeast The results of these excavations were documented in field journals and photographs prepared by the field supervisors and submitted in a series of quarterly reports to WPA headquarters These reports contain a wealth of unpublished information summarizing excavations at the mound sites and residential sites including mound profiles burial descriptions house maps artifact tables and artifact sketches Of the excavated mound sites results from only one Spiro have been extensively studied and synthesized in academic literature The seven additional WPA excavated mound sites Norman Hughes Brackett Eufaula Skidgel Reed and Lillie Creek are known to archaeologists outside of Oklahoma only as unlabeled points on maps of mound sites in the Southeast The Ritual Landscape of Late Precontact Eastern Oklahoma curates and contextualizes the results of the WPA excavations showing how they inform archaeological understanding of Mississippian occupation in the Arkansas Valley Regnier Hammerstedt and Savage also relate the history and experiences of practicing archaeology in the 1930s incorporating colorful excerpts from field journals of the young inexperienced archaeologists Finally the authors update current knowledge of mound and nonmound sites in the region providing an excellent example of historical archaeology
