Essays on Northeastern North America, Seventeenth and Eighteenth Centuries John G. Reid, 2008-01-01 The essays in this volume deal with topics such as colonial habitation imperial exchange and aboriginal engagement all of which were pervasive phenomena of the time

The Greater Gulf Claire Elizabeth Campbell, Edward MacDonald, Brian Payne, 2020-02-13 The largest estuary in the world the Gulf of St Lawrence is defined broadly by an ecology that stretches from the upper reaches of the St Lawrence River to the Gulf Stream and by a web of influences that reach from the heart of the continent to northern Europe For more than a millennium the gulf's strategic location and rich marine resources have made it a destination and a gateway a cockpit and a crossroads and a highway and a home From Vinland the Good to the novels of Lucy Maud Montgomery the Gulf has haunted the Western imagination A transborder collaboration between Canadian and American scholars The Greater Gulf represents the first concerted exploration of the environmental history marine and terrestrial of the Gulf of St Lawrence Contributors tell many histories of a place that has been fished fought over explored and exploited The essays defining themes resonate in today's charged atmosphere of quickening climate change as they recount stories of resilience played against ecological fragility resistance at odds with accommodation considered versus reckless exploitation and real imagined and imposed identities Reconsidering perceptions about borders and the spaces between and across land

and sea The Greater Gulf draws attention to a central place and part of North Atlantic and North American history Contributors include Rainer Baehre Memorial University of Newfoundland Jack Bouchard Folger Institute Claire Campbell Bucknell University Caitlin Charman Memorial University of Newfoundland Jack Little Simon Fraser University Edward MacDonald University of Prince Edward Island Matthew McKenzie University of Connecticut Suzanne Morton McGill University Brian Payne Bridgewater State University John G Reid St Mary's University and Daniel Soucier University of Maine Essays on Northeastern North America, 17th & 18th Centuries John G. Reid, 2008-11-14 In examining the history of northeastern North America in the seventeenth and eighteenth centuries it is important to take into account diverse influences and experiences Not only was the relationship between native inhabitants and colonial settlers a defining characteristic of Acadia Nova Scotia and New England in this era but it was also a relationship shaped by wider continental and oceanic connections The essays in this volume deal with topics such as colonial habitation imperial exchange and aboriginal engagement all of which were pervasive phenomena of the time John G Reid argues that these were complicated processes that interacted freely with one another shaping the human experience at different times and places Northeastern North America was an arena of distinctive complexities in the early modern period and this collection uses it as an example of a manageable and logical basis for historical study Reid also explores the significance of anniversary observances and commemorations that have served as vehicles of reflection on the lasting implications of historical developments in the early modern period These and other insights amount to a fresh perspective on the region and offer a deeper understanding of North American history *Transnationalism* Michael Derek Behiels, Reginald C. Stuart, 2010 Original essays that argue the significance of the shared North American history of Canada and the United States rather than Canadian American relations

At the Ocean's Edge Margaret Conrad, 2020-06-16 At the Ocean's Edge offers a vibrant account of Nova Scotia's colonial history situating it in an early and dramatic chapter in the expansion of Europe Between 1450 and 1850 various processes sometimes violent often judicial rarely conclusive transferred power first from Indigenous societies to the French and British empires and then to European settlers and their descendants who claimed the land as their own This book not only brings Nova Scotia's struggles into sharp focus but also unpacks the intellectual and social values that took root in the region By the time that Nova Scotia became a province of the Dominion of Canada in 1867 its multicultural peoples including Mi'kmaq Acadian African and British had come to a grudging unequal and often contested accommodation among themselves Written in accessible and spirited prose the narrative follows larger trends through the experiences of colourful individuals who grappled with expulsion genocide and war to establish the institutions relationships and values that still shape Nova Scotia's identity **The Fence and the Bridge** Heather N. Nicol, 2015-10-19 The Fence and the Bridge is about the development of the Canada US border security relationship as an outgrowth of the much lengthier Canada US relationship It suggests that this relationship has been both highly reflexive and hegemonic over time and that such realities are embodied

in the metaphorical images and texts that describe the Canada US border over its history Nicol argues that prominent security motifs such as themes of free trade illegal immigration cross border crime terrorism and territorial sovereignty are not new nor are they limited to the post 9 11 era They have developed and evolved at different times and become part of a larger quilt whose patches are stitched together to create a new fabric and design Each of the security motifs that now characterize Canada US border perceptions and relations has a precedent in border management strategies and border relations in earlier periods In some cases these have deep historical roots that date back not just years or decades but centuries They are part of an evolving North American geopolitical logic that inscribes how borders are perceived how they function and what they mean

A Biography of a Map in Motion Christian J. Koot, 2017-12-26 Reveals the little known history of one of history's most famous maps and its maker Tucked away in a near forgotten collection Virginia and Maryland as it is Planted and Inhabited is one of the most extraordinary maps of colonial British America Created by a colonial merchant planter and diplomat named Augustine Herrman the map pictures the Mid Atlantic in breathtaking detail capturing its waterways coastlines and communities Herrman spent three decades travelling between Dutch New Amsterdam and the English Chesapeake before eventually settling in Maryland and making this map Although the map has been reproduced widely the history of how it became one of the most famous images of the Chesapeake has never been told A Biography of a Map in Motion uncovers the intertwined stories of the map and its maker offering new insights into the creation of empire in North America The book follows the map from the waterways of the Chesapeake to the workshops of London where it was turned into a print and sold Transported into coffee houses private rooms and government offices Virginia and Maryland became an apparatus of empire that allowed English elites to imaginatively possess and accurately manage their Atlantic colonies Investigating this map offers the rare opportunity to recapture the complementary and occasionally conflicting forces that created the British Empire From the colonial and the metropolitan to the economic and the political to the local and the Atlantic this is a fascinating exploration of the many meanings of a map and how what some saw as establishing a sense of local place could translate to forging an empire
