Fashion Illustration Tony Glenville, 2013-03-21 Fashion illustration is and always has been about far more than pretty drawings of pretty dresses. This lavish celebration of today's leading artists in the field showcases the timeless craft and amazing diversity that characterize the genre. From David Downton to Cecilia Carlstedt and from Jason Brooks to Jordi Labanda, 28 masters of fashion illustration from across the world are featured one by one in a grand tour of the best work currently produced. While some illustrators create daringly bold graphics, others prefer delicate watercolours and ink drawings. Throughout the volume, both hi-tech multimedia effects and traditional drawing skills are given pride of place, with many of the artists using a mixture of techniques. Lively commentary accompanies the images, while interviews with each illustrator provide further insight into their influences and methods. A source of inspiration for aspiring illustrators, designers, and advertising creatives, this gorgeous volume will also catch the eye of fashion lovers and all those who have an interest in contemporary figurative art and visual communication.
