^ANew Conscientious Objection Charles C. Moskos, John Whiteclay Chambers II, 1993-04-08 Although conscientious objection is a long standing phenomenon it has only recently become a major factor affecting armed forces and society The only comprehensive comparative scholarly study of conscientious objection to military service this book examines the history of the practice in the Western world and state policies that have grown up in response to it It shows how the contemporary refusal to bear arms is likely to be secular and widespread rather than religious and marginal now including service people as seen in the 1991 War in the Persian Gulf as well as conscription resisters No account of civil military relations or peace movements in advanced industrial countries is complete without reference to conscientious objection and this book will be the standard text on the subject International Human Right to Conscientious Objection to Military Service and Individual Duties to Disobey Manifestly Illegal Orders Hitomi Takemura, 2008-12-14 International human rights law grants individuals both rights and responsibilities In this respect international criminal and international humanitarian law are no different As members of the public international law family they are charged with the regulation maintenance and protection of human dignity The right and duty to disobey manifestly illegal orders traverses these three schools of public international law This book is the first systematic study of the right to conscientious objection under international human rights law Understanding that rights and duties are not mutually exclusive but complementary this study analyses the right to conscientious objection and the duties of individuals under international law from various perspectives of public international law Conscientious Objection to Military Service in International Human Rights Law Ö. Ç?nar, 2013-12-17 This book examines the right to conscientious objection in international human rights law It begins with an exploration of the concept of conscience and its evolution Ozgur Heval o inar analyzes human rights law at both the international and regional level considering UN European and inter American mechanisms **Ethics of Conviction and Civic Responsibility** Yuichi Moroi, 2008 Despite a long history and tradition in the United States conscientious objectors to war have always been in the minority Only a handful of objectors dissented against World War I and II and their voices were never influential in respect to the state s war policy or public opinion This book examines the challenges posed by conscientious objectors during World Wars by focusing on two main themes ethic of conviction and ethic of civic responsibility In this groundbreaking study author Yuichi Moroi asks How did conscientious objectors express their conviction in the case of the state s imperative for war On what basis could conscientious objectors define their civic responsibility and act upon it Ethics of Conviction and Civic Responsibility asserts that despite the tension between the individual and society as experienced by conscientious objectors there is a connection between them that holds a unique combination of conviction and civic responsibility **Preventing War and Promoting**

Post-conflict Reconstruction and Development in Africa Theo Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army's strategy for PCRD in Africa which was developed with the African Union's 2006 Post Conflict Reconstruction and Development Needs

Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa s policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment
