Hinnells, 1997 The New Penguin Handbook of Living Religions John R. Hinnells, 1998 *The New Penguin Handbook of Living Religions* John Hinnells, 2004-05-24 *The Penguin Handbook of the World's Living Religions* John R. Hinnells, 2010-03-25 Comprehensive informative and authoritative The Penguin Handbook of the World's Living Religions is compiled by a team of leading international scholars and is the definitive guide to the religious belief systems and practices of the world today This in depth survey of active religions has now been fully updated to include modern developments and the most recent scholarship It explains the sources and history of the world's religions includes material on the phenomenon of Black African and Asian diaspora religions around the world and explores the role of gender in modern religion A Handbook of Living Religions John R. Hinnells, 1985 **From Primitive to Indigenous** James L. Cox, 2016-04-22 The academic study of Indigenous Religions developed historically from missiological and anthropological sources but little analysis has been devoted to this classification within departments of religious studies Evaluating this assumption in the light of case studies drawn from Zimbabwe Alaska and shamanic traditions and in view of current debates over primitivism James Cox mounts a defence for the scholarly use of the category Indigenous Religions **World Religions and Multiculturalism**, 2010-10-05 This book is about new forms of religiosity and religious activity emerging in the context of their dialectic relations with contemporary multicultural realities World religions are effectively a major agent of the multiculturalization of contemporary societies However multiculturalism pushes them not only toward change and reforms but also toward new conflicts between and within them This process should remind us of the Jewish legend of the Golem an animated being created by man which finally challenges the latter's control over it a dialectic relation indeed World religions today greatly contribute to a world dis order that is multicultural both when viewed as a whole and from within most societies that compose it It is a development that contrasts both with the assumption that globalization implies one way homogenization and convergence to Western modernity and the expectation that globalization would be bound to polarize homogeneous civilizations *Religion, Spirituality and the Social Sciences* Basia Spalek, Alia Imtoul, 2008-09-03 This edited

collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research Divided into three sections the book examines the notion of secularism in relation to contemporary Western society including a focus upon secularisation explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality BOOK JACKET      *The Routledge Companion to the Study of Religion* John Hinnells, 2009-09-10 The Routledge Companion to the Study of Religion is a major resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today's world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning
