Orientalism a Reader Harlow, **Reading Orientalism** Daniel Martin Varisco, 2017-04-11 The late Edward Said remains one of the most influential critics and public intellectuals of our time with lasting contributions to many disciplines Much of his reputation derives from the phenomenal multidisciplinary influence of his 1978 book *Orientalism* Said's seminal polemic analyzes novels travelogues and academic texts to argue that a dominant discourse of West over East has warped virtually all past European and American representation of the Near East But despite the book's wide acclaim no systematic critical survey of the rhetoric in Said's representation of Orientalism and the resulting impact on intellectual culture has appeared until today Drawing on the extensive discussion of Said's work in more than 600 bibliographic entries Daniel Martin Varisco has written an ambitious intellectual history of the debates that Said's work has sparked in several disciplines highlighting in particular its reception among Arab and European scholars While pointing out Said's tendency to essentialize and privilege certain texts at the expense of those that do not comfortably fit his theoretical framework Varisco analyzes the extensive commentary the book has engendered in Oriental studies literary and cultural studies feminist scholarship history political science and anthropology He employs critical satire to parody the exaggerated and pedantic aspects of post colonial discourse including Said's profound underappreciation of the role of irony and reform in many of the texts he cites The end result is a companion volume to *Orientalism* and the vast research it inspired Rather than contribute to dueling essentialisms Varisco provides a path to move beyond the binary of East versus West and the polemics of blame *Reading Orientalism* is the most comprehensive survey of Said's writing and thinking to date It will be of strong interest to scholars of Middle East

romanticized the mysterious East but it has also judged its traditions as uncivilized Our notions about Eastern spirituality have been formed by a succession of travellers scientists artists intellectuals poets philosophers and missionaries as well as by Eastern travellers who have spent time in the West This book helps us to recognize the influence of Eastern ideas upon modern Western thought by tracing the history of engagements between East and West up until the present day It concludes with a section that helps us to perceive the timeless value of the many Eastern contributions to the West s current intellectual and spiritual state *Dismantling Orientalist Representations in US Education* Daniel Osborn,2024-09-30 This book examines the evolving role played by the social studies classroom in shaping national identity and contributing to Orientalism which depicts the peoples of the Middle East as the Other relative to those of the United States and Europe Building upon the momentum of critical approaches to examining the nature of knowledge the role of schools in society and the trends within social studies education and its hidden curriculum the volume crucially shifts the focus toward a more global emphasis examining the nature of Orientalism and the school as a setting where Orientalist logic and assumptions about the Middle East and its inhabitants are reified Focusing on the ecosystem of social studies knowledge production and working within the sociology of knowledge it traces this evolution across the 19th 20th and 21st centuries A novel and unique exploration of knowledge construction and presenting a vision for a more nuanced and multifaceted portrayal of the Middle East that corrects for the deleterious aspects of Orientalism while avoiding a romanticized apologetic it will appeal to scholars researchers and educators with interests in decolonizing education social studies education the history of education and race and ethnicity studies **The Postcolonial Studies Reader** Bill Ashcroft,Gareth Griffiths,Helen Tiffin,2024-07-11 The most comprehensive collection of postcolonial writing theory and criticism this third edition has been thoroughly revised and updated to include 125 extracts from key works in the field Leading as well as lesser known figures in the fields of writing theory and criticism contribute to this inspiring body of work that includes sections on nationalism hybridity diaspora and globalisation As in the first two editions this new edition of The Postcolonial Studies Reader ranges as widely as possible to reflect the remarkable diversity of work in the discipline and the vibrancy of anti imperialist and decolonising writing both within and without the metropolitan centres This volume includes new work in the field over the decade and a half since the second edition was published Covering more debates topics and critics than any comparable book in its field The Postcolonial Studies Reader provides the ideal starting point for students and issues a potent challenge to the ways in which we think and write about literature and culture *A Reader's Guide to Contemporary Literary Theory* Raman Selden,Peter Widdowson,Peter Brooker,2016-12-19 A Reader s Guide to Contemporary Literary Theory is a classic introduction to the complex yet crucial area of literary theory This book is known for its clear accessible style and its thorough logical approach guiding the reader through the essentials of literary theory It includes two new chapters New Materialisms which incorporates ecocriticism animal studies posthumanism and thing theory 21st Century and Future Developments which

Edward Said and the Question of Subjectivity Pannian

Prasad,2016-04-08 Edward Said and the Question of Subjectivity explores the notion of subjectivity implicated in and articulated by Said in his writings Analyzing several of his major works Pannian argues that there is a shift in Said s intellectual trajectory that takes place after the composition of *Orientalism* In so doing Said forthrightly attempts to retrieve a theoretical and political humanism as Pannian identifies despite the difficult and sanguinary aspects of its past He elaborates upon Said s understanding that only after recognising the structures of violence and coming to discern strategies of interpellation may the individual subject effectively resist them Pannian also explores Said s ideas on exilic subjectivity the role of intellectuals acts of memory critical secularism affiliation and solidarity before dwelling on his interface with Marxist thinkers such as Antonio Gramsci Theodor Adorno and Raymond Williams This engagement marks Said s own subject formation and shapes his self reflexive mode of knowledge production
