Radical Enlightenments Of Benjamin Franklin

Douglas Anderson

Radical Enlightenments Of Benjamin Franklin:

The Radical Enlightenment of Benjamin Franklin Douglas Anderson, 2000-12-26 The Radical Enlightenment of Benjamin Franklin brings us a much fuller understanding of Franklin's intellectual and literary roots and his later influence among common readers

[Benjamin Franklin](#) Walter Isaacson, 2004-05-04 During his 84 year life Benjamin Franklin was America's best scientist inventor publisher business strategist diplomat and writer He was also one of its most practical political thinkers America's first great publicist he carefully crafted his own persona portrayed it in public and polished it for posterity In this riveting new biography Walter Isaacson provides readers with a full portrait of Franklin's public and private life his loyal but neglected wife his bastard son with whom he broke over going to war with England his endless replacement families and his many amorous but probably unconsummated liaisons But this is not just a biography of Benjamin Franklin but rather a fascinating look at American and European political history at that time Isaacson examines the run up to the Revolutionary War the intimate relations between Britain France and the colonies and the decisive events that led to America's independence Just as David McCullough brought life to the historic figure of John Adams Isaacson portrays Franklin in the flesh showing readers how this radical man helped define America's national character and personality

Benjamin Franklin, Natural Right, and the Art of Virtue Kevin Slack, 2017 A thorough examination of Benjamin Franklin's works on philosophy and politics arguing that Franklin was a philosopher of natural right

The Enlightenment Paul Hyland, Olga Gomez, Francesca Greensides, 2003 The Enlightenment brings together the work of major Enlightenment thinkers such as Hobbes Rousseau Diderot and Kant to illustrate the full importance and achievements of this period in history Extracts are gathered thematically into sections on such aspects of the Enlightenment as political theory religion and belief art and nature All essays are introduced and a final section on critical reflections provides a selection of modern critical opinions on the period by writers including Foucault Habermas and Lyotard Containing illustrations from the work of artists such as Hogarth and Gainsborough a chronology of the Enlightenment and a detailed bibliography The Enlightenment is a rich source of information and inspiration for all those studying this great period of change

The Cambridge Companion to Benjamin Franklin Carla Mulford, 2008 Comprehensive and accessible this Companion addresses several well known themes in the study of Franklin and his writings while also showing Franklin in conversation with his British and European counterparts in science philosophy and social theory Specially commissioned chapters written by scholars well known in their respective fields examine Franklin's writings and his life with a new sophistication placing Franklin in his cultural milieu while revealing the complexities of his intellectual literary social and political views Individual chapters take up several traditional topics such as Franklin and the American dream Franklin and capitalism and Franklin's views of American national character Other chapters delve into Franklin's library and his philosophical views on morality religion science and the Enlightenment and explore his continuing influence in American culture This Companion will be essential reading for students and scholars of

American literature history and culture **The Secular Enlightenment** Margaret Jacob, 2021-04-20 Provides a panoramic account of the radical ways that life began to change for ordinary people in the age of Locke Voltaire and Rousseau In this book familiar Enlightenment figures share places with voices that have remained largely unheard until now from freethinkers and freemasons to French materialists anticlerical Catholics pantheists pornographers readers and travelers Jacob reveals how this newly secular outlook was not a wholesale rejection of Christianity but rather a new mental space in which to encounter the world on its own terms She takes readers from London and Amsterdam to Berlin Vienna Turin and Naples drawing on rare archival materials to show how ideas central to the emergence of secular democracy touched all facets of daily life Jacob demonstrates how secular values and pursuits took hold of eighteenth century Europe spilled into the American colonies and left their lasting imprint on the Western world for generations to come Adapted from publisher description Benjamin Franklin Christopher J. Murrey, 2002 Benjamin Franklin is generally considered one of America's most versatile and talented statesmen scientists and philosophers His achievements include publisher of Poor Richard's Almanac and many articles on political economic religious philosophical and scientific subjects He was the inventor of bifocals the Franklin stove lightening rod he was one of the signers of the Declaration of Independence and the founder of what is now the University of Pennsylvania This book presents a detailed and riveting review of Franklin's life based on excerpts from the renowned 1899 book on Franklin by Sydney George Fisher This overview is augmented by a substantial selective bibliography which features access through title subject and author indexes Benjamin Franklin Kevin J. Hayes, 2022-04-18 An action packed retelling of the life and work of the polymath and so called First American Benjamin Franklin All Benjamin Franklin biographers face a major challenge they must compete with their subject In one of the greatest autobiographies in world literature Franklin has already told his own story and subsequent biographers have often taken Franklin at his word In this exciting new account Kevin J Hayes takes a different approach Hayes begins when Franklin is eighteen and stranded in London describing how the collection of curiosities he viewed there fundamentally shaped Franklin's intellectual and personal outlook Subsequent chapters take in Franklin's career as a printer his scientific activities his role as a colonial agent his participation in the American Revolution his service as a diplomat and his participation in the Constitutional Convention Containing much new information about Franklin's life and achievements Hayes's critical biography situates Franklin within his literary and cultural milieu **Benjamin Franklin Unmasked** Jerry Weinberger, 2005-09-07 Moral paragon public servant founding father scoundrel opportunist womanizing phony There are many Benjamin Franklins Now as we celebrate the tercentenary of Franklin's birth Jerry Weinberger reveals the Franklin behind the many masks and shows that the real Franklin was far more remarkable than anyone has yet discovered Taking the Autobiography as the key to Franklin's thought Weinberger argues that previous assessments have not yet probed to the bottom of Ben's famous irony and elusiveness While others take the self portrait as an elder statesman's relaxed and playful

retrospection Weinberger unveils it as the window to Franklin's deepest reflections on God, virtue, justice, equality, natural rights, love, the good life, the modern technological project, and the place and limits of reason in politics and human experience. Along the way Weinberger explores Franklin's ribald humor, usually ignored or toned down by historians and critics, and shows it to be charming and philosophic. Following Franklin's rhetorical twists and turns, Weinberger discovers a serious thinker who was profoundly critical of religion, moral virtue, and political ideals, and whose grasp of human folly constrained his hopes for enlightenment and political reform. This close and amusing reading of Franklin portrays a scrupulous dialectical philosopher, humane and wise but more provocative and disturbing than even the most hardboiled interpreters have taken Franklin to be, a freethinking critic of Enlightenment freethinking who played his moral and theological cards very close to the vest. Written for general readers who want to delve more deeply into the mind of a great man and great American, Benjamin Franklin Unmasked shows us a massively powerful intellect lurking behind the leather apron countenance. This lively, witty, and revelatory book is indispensable for those who want to meet the real Franklin. Benjamin Franklin's Vision of American Community Lester C. Olson, 2004 Olson contends that attention to the visual images created in each of these roles dramatizes fundamental changes in Franklin's sensibility concerning British America. In 1754 Franklin was an American Whig supporter of the British Empire's constitutional monarchy. During the late 1750s and early 1760s he veered toward increasing the power of the Crown over Pennsylvania by changing the colony's form of government, before ultimately rejecting constitutional monarchy and advocating republican politics during the 1770s and 1780s. The shifts in Franklin's fundamental political commitments are among the most arresting aspects of his life. Benjamin Franklin's Vision of American Community highlights these changes as it examines his pictorial representations of British America through several decades. **BOOK JACKET** Benjamin Franklin and the Politics of Improvement Alan Craig Houston, 2008-11-18 This fascinating book explores Benjamin Franklin's social and political thought. Although Franklin is often considered the first American, his intellectual world was cosmopolitan. An active participant in eighteenth-century Atlantic debates over the modern commercial republic, Franklin combined abstract analyses with practical proposals. Houston treats Franklin as shrewd, creative, and engaged, a lively thinker who joined both learned controversies and political conflicts at home and abroad. Drawing on meticulous archival research, Houston examines such tantalizing themes as trade and commerce, voluntary associations, and civic militias, population growth and immigration, policy, political union, and electoral institutions, freedom and slavery. In each case he shows how Franklin urged the improvement of self and society. Engagingly written and richly illustrated, this book provides a compelling portrait of Franklin, a fresh perspective on American identity, and a vital account of what it means to be practical. Reassessing the Radical Enlightenment Steffen Ducheyne, 2017-02-21 Reassessing the Radical Enlightenment comprises fifteen new essays written by a team of international scholars. The collection re-evaluates the characteristics, meaning, and impact of the Radical Enlightenment between 1660 and 1825, spanning England, Ireland, the Dutch Republic,

France Germany and the Americas In addition to dealing with canonical authors and celebrated texts such as Spinoza and his *Tractus theologico politicus* the authors discuss many less well known figures and debates from the period Divided into three parts this book Considers the Radical Enlightenment movement as a whole including its defining features and characteristics and the history of the term itself Traces the origins and events of the Radical Enlightenment including in depth analyses of key figures including Spinoza Toland Meslier and d Holbach Examines the outcomes and consequences of the Radical Enlightenment in Europe and the Americas in the eighteenth century Chapters in this section examine later figures whose ideas can be traced to the Radical Enlightenment and examine the role of the period in the emergence of egalitarianism This collection of essays is the first stand alone collection of studies in English on the Radical Enlightenment It is a timely and comprehensive overview of current research in the field which also presents new studies and research on the Radical Enlightenment

Historical Dictionary of the Enlightenment Jonathan Israel,2023-01-30 Given the huge advances achieved by research regarding many aspects of the Enlightenment over the past several decades there is certainly a crying need for a one volume dictionary to serve as guide to the main Enlightenment writers thinkers publicists and educators the Enlightenment s key labels conceptual terms categories and currents of thought and to the titles of the most important projects enactments and initiatives Historical Dictionary of the Enlightenment Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 300 cross referenced entries This book is an excellent resource for students researchers and anyone wanting to know more about the Enlightenment

Sacred Borders David Holland,2011-02-02 Why an exasperated Jonathan Edwards asked can t we be contented with the canon of Scripture Edwards posed this query to the religious enthusiasts of his own generation but he could have just as appropriately put it to people across the full expanse of early American history In the minds of her critics Anne Hutchinson s heresies threatened to produce a new Bible Ethan Allen insisted that a revelation which spoke to every circumstance of life would require a Bible of monstrous size When the African American prophetess Rebecca Jackson embarked on a spiritual journey toward Shakerism she dreamt of a home in which she could find multiple books of scripture Orestes Brownson explained to his skeptical contemporaries that the idea drawing him to Catholicism was the prospect of an ever enlarging volume of inspiration Early Americans of every color and creed repeatedly confronted the boundaries of scripture Some fought to open the canon Some worked to keep it closed *Sacred Borders* vividly depicts the boundaries of the biblical canon as a battleground on which a diverse group of early Americans contended over their differing versions of divine truth Puritans deists evangelicals liberals Shakers Mormons Catholics Seventh day Adventists and Transcendentalists defended widely varying positions on how to define the borders of scripture Carefully exploring the history of these scriptural boundary wars Holland offers an important new take on the religious cultures of early America He presents a colorful cast of characters including the likes of Franklin and Emerson along with more obscure figures who confronted the intellectual tensions surrounding the canon question such

as that between cultural authority and democratic freedom and between timeless truth and historical change To reconstruct these sacred borders is to gain a new understanding of the mental world in which early Americans went about their lives and created their nation *Handbook of Freemasonry*, 2014-06-12 Freemasonry is the largest oldest and most influential secret society in the world The Brill Handbook of Freemasonry is a pioneering work that brings together for the first time leading scholars on Freemasonry The first section covers historical perspectives such as the origins and early history of Freemasonry The second deals with the relationship between Freemasonry and specific religious traditions such as the Catholic Church Judaism and Islam In the third section organisational themes such as the use of rituals are explored while the fourth section deals with issues related to society and politics women blacks colonialism nationalism and war The fifth and final section is devoted to Freemasonry and culture including music literature modern art architecture and material culture **The Faiths of Our Fathers** Alf Johnson Mapp (Jr.), 2005-07-07 In this book the author cuts through historical uncertainty to accurately portray the religious beliefs of 11 of America's founding fathers Motivation *Transatlantic Insurrections* Paul Giles, 2001 Paul Giles describes episodes of literary exchange between Britain and America not as case studies in reproduction or disavowal but as moments of transnational convergence A rich and reasoned understanding of what these influences may be and of the often inspired anxiety they produce *Modern Language Quarterly* **The Claims of Experience** Nolan Bennett, 2019 Autobiography from Frederick Douglass's Narrative of the Life to J D Vance's Hillbilly Elegy has long been a popular genre that both authors and readers have utilized to understand particular political moments As this book argues such narratives have also contributed to the development of American political thought despite the fact that the field has not taken autobiography seriously as political theory in its own right This book considers the political contexts in which Benjamin Franklin Frederick Douglass Henry Adams Emma Goldman and Whittaker Chambers wrote their autobiographies to better understand not only the political problems to which autobiographical works can be a solution but the broader appeal of such claims of experience to the everyday life of democratic politics *The Enlightenment* Roy Porter, 2019-08-22 The eighteenth century Enlightenment was one of the most exciting and significant currents of European culture Battling against tyranny ignorance and superstition it formulated the ideals which still inform our society today a belief in reason criticism freedom of thought religion and expression the value of science the pursuit of progress Enlightenment thinkers undermined the ancien regime and provided the ideas for the French Revolution Modern scholarship however has shown it was a more complex and ambiguous movement than commonly recognized This book now in a fully updated second edition sympathetically explores the complexities of the Enlightenment Synthesizing and evaluating the latest scholarship it offers a new and comprehensive vision of this many faceted movement **The Faiths of the Founding Fathers** David L. Holmes, 2006-05-01 It is not uncommon to hear Christians argue that America was founded as a Christian nation But how true is this claim In this compact book David L Holmes offers a clear concise and illuminating look at the spiritual beliefs of our founding fathers He

begins with an informative account of the religious culture of the late colonial era surveying the religious groups in each colony In particular he sheds light on the various forms of Deism that flourished in America highlighting the profound influence this intellectual movement had on the founding generation Holmes then examines the individual beliefs of a variety of men and women who loom large in our national history He finds that some like Martha Washington Samuel Adams John Jay Patrick Henry and Thomas Jefferson s daughters held orthodox Christian views But many of the most influential figures including Benjamin Franklin George Washington John and Abigail Adams Jefferson James and Dolley Madison and James Monroe were believers of a different stripe Respectful of Christianity they admired the ethics of Jesus and believed that religion could play a beneficial role in society But they tended to deny the divinity of Christ and a few seem to have been agnostic about the very existence of God Although the founding fathers were religious men Holmes shows that it was a faith quite unlike the Christianity of today s evangelicals Holmes concludes by examining the role of religion in the lives of the presidents since World War II and by reflecting on the evangelical resurgence that helped fuel the reelection of George W Bush An intriguing look at a neglected aspect of our history the book will appeal to American history buffs as well as to anyone concerned about the role of religion in American culture

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Radical Enlightenments Of Benjamin Franklin**. In a downloadable PDF format (*), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
