Unlocking Orthodoxies for Inclusive Theologies

Robert E. Shore-Goss, Joseph N. Goh, 2019-11-28 This book enters a new liminal space between the LGBTQ and denominational Christian communities It simultaneously explores how those who identify as queer can find a home in church and how those leading welcoming or indeed unwelcoming congregations can better serve both communities The primary argument is that queer inclusion must not merely mean an assimilation into existing heteronormative respectability and approval Chapters are written by a diverse collection of Asian Latin American and U S theologians religious studies scholars and activists Each of them writes from their own social context to address the notion of LGBTQ alternative orthodoxies and praxes pertaining to God the saints failure of the church queer eschatologies and erotic economies Engaging with issues that are not only faced by those in the theological academy but also by clergy and congregants the book addresses those impacted by a history of Christian hostility and violence who have become suspicious of attempts at acceptance It also sets out an encouragement for queer theologians and clergy think deeply about how they form communities where queer perspectives are proactively included This is a forward looking and positive vision of a more inclusive theology and ecclesiology It will therefore appeal to scholars of Queer Theology and Religious Studies as well as practitioners seeking a fresh perspective on church and the LGBTQ community
