

trial, the victim's voices—underrepresented in his source, which is by no means a complete trial transcript—are amplified through ingenious speculation. Those of the persecutors remain faint and stereotypical.

Apparently assuming that readers will have total recall of *The Myth of Ritual Murder* (a dubious expectation, for part of his intended audience is non-specialists), Hsia alludes to numerous features of the antisemitic discourse without adequately explaining them. Worse, he does very little to contextualize this case. Why Trent? Why 1475? How did antisemitism of the *longue durée*, rumors about trials conducted further to the north in previous decades, and factors (about which he says almost nothing) in their socioeconomic and judicial milieu combine to shape the actions of the Trentini, Bishop Johannes Hinderbach, and his agent? To what extent was the prosecution triggered by that notorious Jew-baiter Bernardino da Feltre, Lenten preacher in the city during the weeks preceding little Simon's death? Though Hsia mentions some of these background phenomena, he fails to marshal them in a well-constructed causal argument.

Contrary to what this book suggests, historians who endorse "the revival of narrative" and "the linguistic turn" are not absolved of their traditional responsibility to mediate and elucidate the past. *Trent 1475*, an opaque protest against antisemitism in general, is far from being a persuasive attempt to account for one specific instance thereof.

This greatly expanded edition of the standard survey of the Radical Reformation incorporates the results of other scholars' extensive research as well as Williams' own further studies in the field from the last thirty years.
