The Radical Tradition Richard Henry Tawney,1966 **The Radical Tradition** Richard H. Tawney,1984 **The Radical Tradition** Richard Gombin,1978 *The Radical Tradition. Twelve Essays on Politics, Education and Literature. Ed. by R. Hinden. With an Appreciation by H. Gaitskell ,1964* *Why Did We Choose to Industrialize?* Robert C.H. Sweeny,2015-07-01 The choice to industrialize has changed the world more than any other decision in human history And yet the three prevailing explanations the technical new energy sources the Marxist new social relations and the neo liberal people became more industrious are inadequate in making sense of this fundamental change In mid nineteenth century Montreal as in other early industrializing societies change occurred as a result of the choices people made when faced with unprecedented opportunities and constraints Montreal was the first colonial city to industrialize Its overlapping French and English legal traditions mean that people s actions were exceptionally well documented for a North American city Robert Sweeny s novel reading of sources like city directories ordinance surveys monetary protests and apprenticeship contracts leads him to develop important critiques of both mainstream and progressive historiography He shows how the choice to industrialize was tied to the development of completely new ways of thinking about the world on three inter related levels how should we relate to each other to property and to nature In Montreal as in all the other early industrializing societies thought preceded action Sweeny illuminates the personal and familial decisions that tens of thousands of people made by the mid nineteenth century which already prefigured much of what industrialized Montreal would look like in 1880 At a moment when global conflict is tied to resources and climate change Sweeny shows how fundamental decision making can determine widespread social change Informed by four decades of scholarship *Why Did We Choose to Industrialize* Is a politically engaged argument about history a sustained reflection on sources and method in historical practice and a singular vantage point on the ideas that have shaped historical understandings of industrialization Social Science Quotations Robert Merton,2018-04-27 *Social Science Quotations* has been prepared to meet an evident unmet need in the literature of the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute the historical core of the social sciences and social thought those works with staying power often described as the classical texts Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably expressed Both consequential and memorable these words have been quoted over the generations entering into the collective memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book

is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and social theories It is particularly useful for graduate students taking courses that examine the history of their discipline

Alasdair MacIntyre's Engagement with Marxism ,2008-03-31 Although Alasdair MacIntyre is best known today as the author of *After Virtue* 1981 he was in the 1950s and 1960s one of the most erudite members of Britain's Marxist Left being a militant within first the Communist Party then the New Left and finally the heterodox Trotskyist International Socialism group This selection of his essays on Marxism from that period aims to show that his youthful thought profoundly informed his mature ethics and that in the wake of the collapse of the state capitalist regimes in Russia and Eastern Europe the powerful and optimistic revolutionary Marxist ethics of liberation he articulated in that period is arguably as salient to anti capitalist activists today as it was half a century ago
