Radicalism and Social Change in Jamaica, 1960-1972 Obika Gray, 1991 In August 1962 the island nation of Jamaica achieved independence from Great Britain In this provocative social and political history of the first decade of independence Obika Gray explores the impact of radical social movements on political change in Jamaica during a turbulent formative era Led by a minority elite and a middle class of mixed racial origins two parties each with its associated workers union emerged to dominate the postcolonial political scene Gray argues that party leaders representing the dominant social class felt vulnerable to attack and resorted to dictatorial measures to consolidate their power These measures domestic social crises and the worldwide rise of Black Power and other Third World ideologies provoked persistent challenges to the established parties political and moral authority With students radical intellectuals and the militant urban poor in the vanguard the protest movement took many forms Rastafarian religious symbolism rebel youth s cultural innovations efforts to organize independent labor unions and the intelligentsia s varied attempts to use mass media to reach broader audiences all influenced the course of political events in this period Grounding his tale in relevant theory Gray persuasively contends that despite its narrow social and geographical base of support this urban protest movement succeeded in moving the major parties toward broader and more progressive agendas

Higglers in Kingston Winnifred Brown-Glaude, 2011-08-08 Making a living in the Caribbean requires resourcefulness and even a willingness to circumvent the law Women of color in Jamaica encounter bureaucratic mazes neighborhood territoriality and ingrained racial and cultural prejudices For them it requires nothing less than a herculean effort to realize their entrepreneurial dreams In *Higglers in Kingston* Winnifred Brown Glaude puts the reader on the ground in frenetic urban Kingston the capital and largest city in Jamaica She explores the lives of informal market laborers called higglers across the city as they navigate a corrupt and inaccessible official Jamaican economy But rather than focus merely on the present day situation she contextualizes how Jamaica arrived at this point delving deep into the island s history as a former colony a home to slaves and masters alike and an eventual nation of competing and conflicted racial sectors *Higglers in Kingston* weaves together contemporary ethnography economic history and sociology of race to address a broad audience of readers on a crucial economic and cultural center

Ontiveros,1986 Organized by geographical area Subject and author indexes Chronology **Fueling Development** Zophia Edwards,2025-08-15 Zophia Edwards traces Trinidad and Tobago s democratic and redistributive development success to a specific form of Black radical working class mobilization she calls liberation unionism **Geography** ,1974 **The End of Empires and a World Remade** Martin Thomas,2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal empire and the acceleration of global integration market reorganization cultural exchange and migration

The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade Thomas offers a masterful analysis of the greatest process of state making and empire unmaking in modern history

Guyana: from Slavery to the Present Ramesh Gampat, 2015-04-15 It is common knowledge that slavery and indenture were characterized by long hours of physical labor restriction of movement and other basic human freedoms and severe punishment for violations of draconian labor laws Less well known is the fact that nutrition was very deficient and a range of infectious diseases maimed debilitated and killed on a large scale In trying to narrow the knowledge gap with respect to Guyana Ramesh Gampat shows that extremely poor sanitary conditions hygiene and nutrition hastened infections and created a vicious cycle The British protected its own soldiers officials and colonists by establishing a medical enclave that lasted until Emancipation in 1838 Former slaves were quarantined to neglected and decaying villages and Indians to plantations Concern with health conditions appeared only during periods of epidemics and even then it was essentially for the protection of Europeans Colonial medicine opened the way for stereotyping labeling racialization of disease neutralization of potential leaders in the struggle for justice and crystallization of the view that Europeans were superior to Blacks and Indians Shorter stature and life expectancy are good indications that slaves and indentured immigrants fared considerably less well than Europeans Several infectious diseases sickened and fell Blacks and Indians including malaria and undefined fevers pneumonia and bronchitis diarrhea and enteritis tuberculosis pneumonia and hookworm The conquest of malaria in the early 1950s initiated the epidemiological transition from communicable to chronic diseases and today NCDs account for some three quarters of all deaths in Guyana Malaria has reemerged fueled by a gold boom that consumes huge amount of mercury The potentially adverse public health consequences of the trio have been neglected
