Radicals Conservatives:

Conservative Criminology John Wright, Matt DeLisi, 2015-11-06 Conservative Criminology serves as an important counterpoint to virtually every other academic text on crime. Hundreds of books have been written about crime and criminal justice policy from a variety of perspectives including Marxist, liberal, progressive, feminist, radical, and post-modernist. To date, however, no book has been written outlining a conservative perspective on crime and criminal justice policy. Not a polemic against liberalism, Conservative Criminology nonetheless focuses on how liberal ideology affects the study of crime and criminals and the policies that criminologists advocate. Wright and DeLisi, both senior scholars, give a voice to a major political philosophy, a philosophy often demonized by academics and to conservatives in the academic world. In the end, Conservative Criminology calls for an investment in intellectual diversity, a respect for varying political philosophies, and a renewed commitment to honesty in scholarship. The authors encourage debate in the profession about the proper role of ideology in the academy and in public policies on crime and justice. Conservative Criminology is for the criminal justice professional and student. It serves as a stimulating supplement to courses in criminology and criminal justice as well as a primary text for special issues or capstone courses. This book supports the reader in recognizing ideological biases, whatever they might be, and in considering their own convictions. Why Conservatives Should Support the Free Market Hannes H.

Gissurarson, 2018-10-04 In the report, the author first briefly discusses the ideas of Burke, Hume, and Menger, moving on to Hayek and his ambivalent attitude towards conservatism, and then turning to the ideas and arguments of two conservative British philosophers, Michael Oakeshott and Sir Roger Scruton. In the chapters that follow, he analyses the most relevant conservative objections to economic liberalism and tries to show how they can be met and accommodated by conservative liberalism. The main conclusion of this study is that it is perfectly coherent to be both a social conservative in favour of stability, family values, and patriotism, and an economic liberal supporting free trade and the market process. Varieties of Seventeenth- and Early Eighteenth-Century English Radicalism in Context David Finnegan, 2016-02-17 The essays in this collection explore a number of significant questions regarding the terms radical and radicalism in early modern English contexts. They investigate whether we can speak of a radical tradition and whether radicalism was a local, national, or transnational phenomenon. In so doing, this volume examines the exchange of ideas and texts in the history of supposedly radical events, ideologies, and movements or moments. Once at the cutting edge of academic debate, radicalism had until very recently fallen prey to historiographical trends as scholars increasingly turned their attention to more mainstream experiences or reactionary forces. While acknowledging the importance of those perspectives, Varieties of seventeenth and early eighteenth century English radicalism in context offers a reconsideration of the place of radicalism within the early modern period. It sets out to examine the subject in original and exciting ways by adopting distinctively new and broader perspectives. Among the crucial issues addressed are problems of definition and how meanings can evolve. Context print

culture language and interpretative techniques literary forms and rhetorical strategies that conveyed or deliberately disguised subversive meanings and the existence of a single continuous English radical tradition Taken together the essays in this collection offer a timely reassessment of the subject reflecting the latest research on the theme of seventeenth century English radicalism as well as offering some indications of the phenomenon s transnational contexts Indeed there is a sense here of the complexity and variety of the subject although much work still remains to be done on radicals and radicalism both in early modern England and especially beyond

Conservatism, Radicalism, and Scientific Method Albert Benedict Wolfe,1923

Dictionary of Untranslatables Barbara Cassin,Emily Apter,Jacques Lezra,Michael Wood,2014-02-09

Kent State: An American Tragedy Brian VanDeMark,2024-08-13 Longlisted for the 2024 National Book Critics Circle Award for Nonfiction A Kirkus Reviews and New Yorker Best Book of 2024 A definitive history of the fatal clash between Vietnam War protestors and the National Guard illuminating its causes and lasting consequences On May 4 1970 at Kent State University in Ohio

political fires that had been burning across America during the 1960s exploded Antiwar protesters wearing bell bottom jeans and long hair hurled taunts and rocks at another group of young Americans National Guardsmen sporting gas masks and rifles At half past noon violence unfolded with chaotic speed as guardsmen many of whom had joined the Guard to escape the draft opened fire on the students Two reductive narratives ensued one that lethal state violence targeted Americans who spoke their minds the other that law enforcement gave troublemakers the comeuppance they deserved For over fifty years little middle ground has been found due to incomplete and sometimes contradictory evidence Kent State meticulously re creates the divided cultural landscape of America during the Vietnam War and heightened popular anxieties around the country On college campuses teach ins sit down strikes and demonstrations exposed the growing rift between the left and the right Many students opposed the war as unnecessary and unjust and were uneasy over poor and working class kids drafted and sent to Vietnam in their place Some developed a hatred for the military the police and everything associated with authority while others resolved to uphold law and order at any cost Focusing on the thirteen victims of the Kent State shooting and a painstaking reconstruction of the days surrounding it historian Brian VanDeMark draws on crucial new research and interviews including for the first time the perspective of guardsmen who were there The result is a complete reckoning with the tragedy that marked the end of the sixties

The Decline of Authority Ray Gunn, 2019-05-15 From the Revolution until the Panic of 1837 Americans accepted state intervention in the economy as a legitimate even an essential function of government The Decline of Authority examines the transformation of New York State government between 1800 and 1860 a critical period during which governmental authority diminished as most state governments withdrew from interventionist economic policies and relinquished their role in the allocation of resources to the private sector Exploring the relationship between socioeconomic change public economic policy and political development L Ray Gunn offers an innovative explanation for the new configuration of politics and governance in New York State that emerged during this era

Radical voices, radical ways Laurent Currelly, Nigel Smith, 2016-10-30 This collection of essays studies the expression and diffusion of radical ideas in Britain from the period of the English Revolution in the mid seventeenth century to the Romantic Revolution in the early nineteenth century The essays included in the volume explore the modes of articulation and dissemination of radical ideas in the period by focusing on actors radical voices and a variety of written texts and cultural practices radical ways ranging from fiction correspondence pamphlets and newspapers to petitions presented to Parliament and toasts raised in public They analyse the way these media interacted with their political religious social and literary context This volume provides an interdisciplinary outlook on the study of early modern radicalism with contributions from literary scholars and historians and uses case studies as insights into the global picture of radical ideas It will be of interest to students of seventeenth and eighteenth century literature and history

The Near East since the First World War Malcolm Yapp, 2014-10-17 This clear balanced and authoritative survey of the history of the region is now fully up to date

again The text contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp s new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990 91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east

Crucible of Reconstruction Ted Tunnell, 1992-07-01 In late April 1862 Union warships slipped past the Confederate river forts below New Orleans and blasted the Rebel fleet guarding the city Advancing overland General Benjamin F Butler occupied New Orleans on May Day and for the duration of the war the Stars and Stripes waved over the Confederacy s largest city The reconstruction of Louisiana began almost immediately In *Crucible of Reconstruction* Ted Tunnell examines the byzantine complexities of Louisiana s restoration to the Union from the capture of New Orleans to the downfall of the Radical Republicans a decade and a half later He writes with insight about wartime Reconstruction and the period of presidential Reconstruction under Andrew Johnson but his ultimate concern is with Radical Reconstruction and that uneasy coalition of Unionists free blacks and carpetbaggers that formed the Louisiana Republican party after Appomattox and struggled fitfully for a biracial society based on equality and justice One of the distinguishing features of *Crucible of Reconstruction* is its concern with the origins of Radicalism Tunnell finds that nearly two thirds of Louisiana Unionists were actually outsiders men who had come to Louisiana from the North or from abroad Of the remainder many had either been born in the border slave states that sided with the North in 1861 or had been deeply influenced by Northern culture The free blacks were the most radical element of the Republican party and for a brief but critical moment actually dominated the reconstruction process with a black majority in the constitutional convention of 1867 1868 they drafted a civil rights program that made Louisiana s Reconstruction constitution along with South Carolina s a model of Republican Radicalism In the end though the carpetbaggers dominated Republican Reconstruction Although few in number they controlled the immense federal bureaucracy centered in New Orleans and in a government that depended on support from Washington for its very survival they alone had influence on the Potomac For a generation historians have struggled to explain the destructive factionalism that crippled the Republican regimes in Louisiana and other Reconstruction states In a thesis of wide applicability Tunnell shows how Republican factionalism was actually rooted in a larger crisis of legitimacy Louisiana Republicans confronted enemies who challenged not merely their policies but their very right to exist enemies whose overriding goal was to expunge the Republican party from the polity Led by Governor Henry Clay Warmoth a carpetbagger from Illinois the Republicans responded to the crisis with a twofold strategy embodied in what Tunnell calls the policy of force and the policy of peace The policy of force while it partially deterred assaults on Republican voters undermined northern support for Reconstruction The policy of peace not only failed to conciliate white Louisianians it generated the vicious factionalism that destroyed the Republican party from within The Warmoth strategies were in fact

mutually contradictory they negated each other and demolished his government In his final chapter Tunnell recounts the career of Marshall Harvey Twitchell a Vermont carpetbagger who settled in north Louisiana in 1866 Twitchell s tragic story gleaned from his unpublished autobiography and government records provides a stunningly immediate reminder of the violent and unlawful conditions that existed during the final years of Reconstruction in Louisiana Tunnell s analyses of Unionism of black and white political leadership of Republican factionalism and of the brutal eradication of Republicanism in the state make this one of the most fascinating and provocative of recent books on Reconstruction

The Levellers Rachel Foxley,2016-05-16 The Leveller movement of the 1640s campaigned for religious toleration and a radical remaking of politics in post civil war England This book the first full length study of the Levellers for fifty years offers a fresh analysis of the originality and character of Leveller thought Challenging received ideas about the Levellers as social contract theorists and Leveller thought as a mere radicalisation of parliamentary thought Foxley shows that the Levellers originality lay in their subtle and unexpected combination of different strands within parliamentarianism The book takes full account of recent scholarship and contributes to historical debates on the development of radical and republican politics in the civil war period the nature of tolerationist thought the significance of the Leveller movement and the extent of the Levellers influence in the ranks of the New Model Army

Cobbett's Parliamentary Debates Great Britain. Parliament,1842

The World Tomorrow Norman Thomas,John Nevin Sayre,Devere Allen,Kirby Page,1923

Reparation and Reconciliation Christi M. Smith,2016-10-18 Reparation and Reconciliation is the first book to reveal the nineteenth century struggle for racial integration on U S college campuses As the Civil War ended the need to heal the scars of slavery expand the middle class and reunite the nation engendered a dramatic interest in higher education by policy makers voluntary associations and African Americans more broadly Formed in 1846 by Protestant abolitionists the American Missionary Association united a network of colleges open to all designed especially to educate African American and white students together both male and female The AMA and its affiliates envisioned integrated campuses as a training ground to produce a new leadership class for a racially integrated democracy Case studies at three colleges Berea College Oberlin College and Howard University reveal the strategies administrators used and the challenges they faced as higher education quickly developed as a competitive social field Through a detailed analysis of archival and press data Christi M Smith demonstrates that pressures between organizations including charities and foundations and the emergent field of competitive higher education led to the differentiation and exclusion of African Americans Appalachian whites and white women from coeducational higher education and illuminates the actors and the strategies that led to the persistent salience of race over other social boundaries

Shattered Consensus James Piereson,2016-11-08 The United States has been shaped by three sweeping political revolutions Jefferson s revolution of 1800 the Civil War and the New Deal Each of these upheavals concluded with lasting institutional and cultural adjustments that set the stage for a new phase of political and economic development Are we on the

verge of another upheaval a fourth revolution that will reshape U S politics for decades to come There are signs to suggest that we are James Piereson describes the inevitable political turmoil that will overtake the United States in the next decade as a consequence of economic stagnation the unsustainable growth of government and the exhaustion of postwar arrangements that formerly underpinned American prosperity and power The challenges of public debt the retirement of the baby boom generation and slow economic growth have reached a point where they require profound changes in the role of government in American life At the same time the widening gulf between the two political parties and the entrenched power of interest groups will make it difficult to negotiate the changes needed to renew the system Shattered Consensus places this impending upheaval in historical context reminding readers that Americans have faced and overcome similar trials in the past in relatively brief but intense periods of political conflict While others claim that the United States is in decline Piereson argues that Americans will rise to the challenge of forming a new governing coalition that can guide the nation on a path of dynamism and prosperity

Non-Policy Politics Ernesto Calvo, Maria Victoria Murillo, 2019-02-14 Explores how non policy resources including administrative competence patronage and activists networks shape both electoral results and which voters get what

Islam-Oriented Parties' Ideologies and Political Communication in the Quest for Power in Morocco Driss Bouyahya, 2015-10-28 The twentieth century saw the rapid rise of groups of Muslims who use Islam as an ideological weapon for their political ends This is commonly referred to in scholarly and media writings as Islamism and its proponents are designated as Islamists not Muslims in order to stress that they are attributing an ideological dimension to Islam There are many Islam oriented groups but as might be expected the use of scriptural language is a common characteristic of their rhetoric For instance they all use scriptural references as an immutable source of authority in the social ethical and political spheres While they do not always share the same strategies and goals these groups nevertheless resort to the same sources of authority and deploy similar terms of reference Unlike some Islam oriented parties the Party of Justice and Development PJD in Morocco does not focus on commonly used precepts such as madawiyya a return to Islamic principles shumuliyya a comprehensive application of Islam in all spheres of life and al da awa al nidaliyya a call for struggle to bring about the Islamization of both state and society Over recent decades there has been an increasing presence of mass Islam oriented movements and parties with an important role in national politics The PJD represents a good regional sample for measuring the impact of different internal politics and political contexts on Islam oriented political movements and parties ideological orientations and political communication in Morocco This book explores the PJD s political ideologies since its re emergence under its current name and investigates the factors which shape its political ideologies In addition it examines the party s political communication and uncovers its use of communication technology particularly the Internet in its political advertising strategies
