Lazarsfeld, 2018-02-14 Excerpt from *Radio Listening in America The People Look at Radio Again* During the last war Frank Stanton conceived the idea of a periodic survey of the public's attitudes toward radio Although much was known about specific listening habits he felt that an important industry like radio should keep itself informed of what people know and feel about its general policies the way it is organized and operated Immediately after the armistice in the fall of 1945 a committee headed by Dr Stanton developed a questionnaire and sent it into the field The study was sponsored by the

National Association of Broadcasters and conducted by the National Opinion Research Center then at the University of Denver By the end of 1946 the final report appeared under the title *The People Look At Radio* The co author of that text Harry Field contributed greatly to the first study His death in an airplane accident in Europe was a great shock and loss to all of his associates About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Bureau of Applied Social Research,1948 **Radio Listening in America** Paul Felix Lazarsfeld,Patricia L. Kendall,1948 [Radio's America](#) Bruce Lenthall,2008-11-15 Orson Welles s greatest breakthrough into the popular consciousness occurred in 1938 three years before *Citizen Kane* when his *War of the Worlds* radio broadcast succeeded so spectacularly that terrified listeners believed they were hearing a genuine report of an alien invasion a landmark in the history of radio s powerful relationship with its audience In *Radio s America* Bruce Lenthall

documents the enormous impact radio had on the lives of Depression era Americans and charts the formative years of our modern mass culture Many Americans became alienated from their government and economy in the twentieth century and Lenthall explains that radio s appeal came from its capability to personalize an increasingly impersonal public arena His depictions of such figures as proto Fascist Charles Coughlin and medical quack John Brinkley offer penetrating insight into radio s use as a persuasive tool and Lenthall s book is unique in its exploration of how ordinary Americans made radio a part of their lives Television inherited radio s cultural role and as the voting tallies for American Idol attest broadcasting continues to occupy a powerfully intimate place in American life Radio s America reveals how the connections between power and mass media began Radio Listening in America Paul Felix Lazarsfeld,Patricia Kendall,1948 *Listening In* Susan J.
