Rahner Reader:

A Rahner Reader Karl Rahner, 1975 **Rahner Reader** Karl Rahner, 1975-05 Theological Method: A Guide for the Perplexed Paul L. Allen, 2012-06-28 An upper level undergraduate introduction to how to do theology in an academic context

Divine Revolution Dean Brackley, 2004-09-27 A compelling exploration of one of the central issues if not the central issue facing theology in our time the relation between transcendent salvation and temporal liberation What does the salvation that the church proclaims mean for the poor of the world In *Divine Revolution* Dean Brackley presents in a comprehensive yet manageable way what Catholic theology has to say about this complex and urgent topic He addresses the historical as well as the systematic dimensions of the question providing insights that point toward an understanding of the issues that challenge conservative and liberal interpretations alike In a work of great daring and clarity Brackley surveys the confusion surrounding the social historical dimension of salvation in Catholic thought He shows the irony of the fact that after 2 000 years what salvation means for the poor in relationship to their concrete plight remains a *quaestio disputata* for official Magisterial teaching Going deeply into the relationship of salvation and liberation Brackley explores the thought of Maritain Rahner and Gutierrez to demonstrate how the synbolon of the Reign of God that Jesus announces transcends the tired theological distinctions of all sides in the debate Drawing from developments in feminist and Protestant theology as well as contemporary social theory *Divine Revolution* offers a fresh understanding of what it means to participate in God s revolutionary reign Catholic tradition Brackley argues has great potential to articulate a hope which responds to the suffering of the poor in our time When conventional wisdom says compassion fatigued Americans are tired of hearing about the poor Brackley responds The poor are far more tired of being poor They too would like to move on to other things but they cannot

A Sacred Look: Becoming Cultural Mystics Nancy Usselman, 2018-04-18 How should a follower of Christ engage the popular media culture By becoming a mystic Sr Nancy challenges Christians today to delve deep into the rich theological tradition of the church as the root and foundation for recognizing the beauty of God present in all that is truly human The artists of popular culture sometimes unwittingly seek transcendence while grappling with some of humanity s most profound existential longings The cultural mystics of today point out those needs of humanity in the culture s artifacts in order to enter into dialogue with those who seek something beyond what this world satisfies The anthropological sacramental incarnational paradigm presented gives us this ability to take a sacred look of the culture and offer the joy of the Gospel Christ who is the answer of all humanity s yearnings

The Vows of Religious Life in a Secular Society

Judith A. Merkle, 2025-08-21 This book investigates religious vows shedding light on the type of faith that can sustain humanity in secular times It examines the personal impact of religious life as well as its potential to foster a sense of completeness within society at large Unbelief in today's society can be partially rooted in the shallowness of the sort of religion that the secular can abandon Such a religion characterized as magical shallow illusory or rooted solely in external rituals lacks the depth required to thrive in a secular society It fails to address the profound aspects of human existence the authentic freedom of the spirit and the enduring obedience of faith This study of religious vows uncovers their deeper meanings in light of these challenges It invites us to consider whether religious life despite contemporary criticisms can be seen as touching wholeness This book does not only delve into the theological foundations of these vows but also key areas which impact their understanding and living in new contexts It surveys sociological landscapes and goes beyond to encompass shifts in science psychology theology Religious life in this sense is part of the renewal of the church as well as an agent in it By focusing briefly on each vow Judith A Merkle illustrates how religious life serves as a bridge connecting the secular and the sacred It is a life focused on love of God and service of others which is a witness to the coming of Kingdom of God and values which truly matter in contemporary society *Historical Dictionary of Catholicism* William J.

Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The *Historical Dictionary of Catholicism* Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism

Theological Perspectives on a Surveillance Society

Eric Stoddart, 2016-02-17 This book looks at contemporary surveillance practices and ideologies from a Christian theological perspective Surveillance studies is an emerging inter disciplinary field that brings together scholars from sociology criminology political studies computing and information studies cultural studies and other disciplines Although surveillance has been a feature of all societies since humans first co operated to watch over one another whilst hunting and gathering it is the convergence of information technologies within both commerce and the state that has ushered in a surveillance society There has been little if any theological consideration of this important dimension of social organisation this book fills the gap and offers a contribution to surveillance studies from a theological perspective broadening the horizon against which surveillance might be interpreted and evaluated This book is also an exercise in consciousness raising with respect to the Christian community in order that

they may critically engage with a surveillance society by drawing on biblical and theological resources Being the first major theological treatment in the field it sets the agenda for more detailed considerations **Communication Yearbooks Vols**

and challenges to theologies shaped by their locations In *Reimagining God and the Church in Australia* through an Adnyamathanha Lens Rev Dr Aunty Denise Champion from the Flinders Ranges argues for attending to ancient wisdom gifted by ancestors in Country as our primary resource for understanding the new thing that is Christ She explores some of her peoples experiences of and the ongoing implications therefore for church and Christology in this place Jesus Walking on Aboriginal Countries by Dr Labhaoise Upton a Catholic woman charts the surprising wisdom she encountered listening to Elders along the Dingo Songline as she took up Pope John Paul II s 1986 charge to joyfully receive the contribution to the Church of Aboriginal peoples And in *Locational Challenges for Second Generation Asian Australian Theology* Rev Cyrus Kung a second generation Hong Kong Chinese Australian presses by way of autobiographical theology into the locational challenges he perceives exist for him and others like him to theologise in Australia

Bibliographie Deutscher Veröffentlichungen in Englischer Übersetzung 1972-1976 ,1978 *Taste and See*

J.W. Olson,2023-09-25 J W Olson argues that recent Christian theologies of divine revelation though often centered on the irreducibility of the incarnation have not taken incarnality sufficiently into account as the mechanism for the knowledge of God in Christ Addressing this problem within a secular context in which the viability of religious truth is under increased scrutiny Olson engages with the phenomenology of Martin Heidegger to suggest that Christian language and belief are shaped at the precognitive level of embodied involvement long before they ever take mental conceptual form He then offers an original interpretation of the Eucharist as the material epicenter of Christian epistemology In the sacrament Christians are swept up into a dynamic world that reveals itself as the very person of Jesus Christ so that Christians come to know Christ most fundamentally through the movements of the body Recasting the parameters for identifying Christ s sacramental presence Olson reiterates the Christian focus on the incarnation as not just the medium of God s self revelation but as the very content of Christian faith Christ is known in act and so God is revealed where Christ lives in us
