The GWR Handbook David Wragg, 2017-08-01 For many the GWR was synonymous with holidays by the sea in the West Country but it was built to serve as a fast railway line to London especially for the merchants and financiers of Bristol Its operations stretched as far as Merseyside it provided most services in Wales and it was the main line to Cardiff Bristol Cornwall and Birmingham This book a classic first published in 2006 reveals the equipment stations network shipping and air services bus operations including Western National and overall reach and history of the GWR Forming part of a series along with The LMS Handbook The LNER Handbook and The Southern Railway Handbook this new edition provides an authoritative and highly detailed reference of information about the GWR

Railways and Culture in Britain Ian Carter, 2001 The 19th century steam railway epitomized modernity's relentlessly onrushing advance Ian Carter delves into the cultural impact of the train Why for example did Britain possess no great railway novel He compares fiction and images by canonical British figures Turner Dickens Arnold Bennett with selected French and Russian competitors Tolstoy Zola Monet Manet He argues that while high cultural work on the British steam railway is thin British popular culture did not ignore it Detailed discussions of comic fiction crime fiction and cartoons reveal a popular fascination with railways tumbling from vast and hitherto unexplored stores of critically overlooked genres

[*The Railway Haters*](#) David L. Brandon, Alan Brooke, 2019-04-30 This unique social history examines 200 years of controversy surrounding British Railways from the dawn of industrialization to contemporary light rail During the Industrial Revolution the power of landowning aristocrats was challenged by the emergent wealth and influence of the urban middle class There was no greater symbol of this seismic shift in society than the British Railways Companies Railways with their powers of compulsory purchase intruded brutally into the previously sacrosanct estates and pleasure grounds of Britain's traditional ruling elite Aesthetes like Ruskin and poets like Wordsworth ranted against railways Sabbatarians attacked them for providing employment on the Lord's Day antiquarians accused them of vandalism by destroying ancient buildings others claimed their noise would make cows abort and chickens cease laying And while the complaints have certainly changed railways have continued to provoke debate ever since Arguments have

raged over railway nationalization and privatization about the Beeching Plan to increase efficiency and around urban light rail systems Examining railways from their beginnings to the present this book provides insights into social economic and political attitudes and emphasizes both change and continuity over 200 years **Dictionary of Twentieth-Century British Cartoonists and Caricaturists** Mark Bryant,2022-07-08 British cartoonists and caricaturists are renowned worldwide Originally published in 2000 this indispensable handbook offers a unique who's who of all the major artists working in Britain in the twentieth century and contains nearly 500 entries Extensively illustrated the book provides information on the work of artists such as Steve Bell Gerald Scarfe Posy Simmonds Ronald Searle Trog mac and Larry as well as such past masters as David Low Vicky H M Bateman Illingworth Heath Robinson and more The dictionary concentrates primarily on political cartoonists caricaturists and joke or gag cartoonists actively working for the main Fleet Street national dailies and weeklies from 1900 to 1995 Each entry is cross referenced and provides a concise biographical outline with an account of the artist's style influences and preferred medium Where relevant the entry includes suggestions for further reading and notes solo exhibitions books illustrated and works held in public collections The Dictionary of Twentieth Century British Cartoonists and Caricaturists offers an insight into the lives of satirical artists working during a century that provoked cartoonists and caricaturists to a pitch of comic and artistic invention that has rarely been matched *Heath Robinson's Railway Ribaldry* W. H. Robinson,2015-05-19 Famous for his fantastical and absurd contraptions illustrator Heath Robinson produced this volume of irreverent drawings to celebrate the centenary of the Great Western Railway in 1935 *Night Mail* Scott Anthony,2019-07-25 Night Mail 1936 is one of the best loved and best known films in the canon of British documentary cinema Bringing together the creative talents of Harry Watt Basil Wright W H Auden and Benjamin Britten the film gave John Grierson's documentary school its first popular success Its collectivist politics and its peculiarly modest brand of modernism is as redolent of the inter war age as Agatha Christie Penguin Books or The Shell Guides But it was also a corporate promo part of a publicity campaign initiated by Clement Attlee to stave off Post Office part privatisation and to improve the morale of postal workers Scott Anthony's study provides a lively appreciation of this vivid witty and often just plain eccentric masterpiece In doing so he uncovers the remarkable stories of civic minded idealism creative intrigue and political trickery that underpin this classic documentary **The GWR Story** Rosa Matheson,2012-02-29 The Great Western Railway quickly coming to be known as God's Wonderful Railway was once regarded as the most advanced in the world Engineered by Isambard Kingdom Brunel it was initially designed to connect Bristol to London and came to develop a distinct character all of its own one of the many reasons why it remains a much loved and popular area of interest This book traces its history covering topics such as the company its engines and carriages its engineers including Gooch Dean Armstrong Collett Churchward and of course Brunel as well as the battle of the gauges Full of little known facts and figures and with numerous photographs and memorabilia as well as a timeline it is a tale full of record breakers and mighty achievements waiting to be

retold to a modern age **Public relations and the making of modern Britain** Scott Anthony, 2018-04-30 Public relations was established in Britain by a group of liberal intellectuals in the aftermath of the slump Central to the startling story of Britain's early public relations pioneers is Sir Stephen Tallents the inaugural President of the Institute of Public Relations Tallents was a public sector entrepreneur who lent his patronage to John Grierson's documentary film movement the BBC Overseas Service the development of Listener Research and the staging of the Festival of Britain A compelling portrait of how the social economic and media revolutions of early twentieth century reshaped national life Public relations and the making of modern Britain reveals a country struggling to cope with austerity and crisis that is at once very different from and yet surprisingly similar to our own This book includes the first reprint of Tallents influential *The Projection of England* for over fifty years It will interest students and scholars of media studies and modern British culture history and politics **Railway Gazette** ,1935 **Computer Control and Human Error** Trevor Kletz, 1995-09-18 Computer Control and Human Error presents accounts of various incidents at computer controlled plants These incidents include equipment and software faults treating the computer as a black box misjudging the way operators respond to the computer errors in the data entry failure to inform operators of changes in data or programs and unauthorized interference with peripheral equipment The discussion then turns to the use of hazard and operability studies Hazops to prevent or reduce errors in computer controlled plants The book describes the conventional Hazop as used in the process industry and an overview of the different Chazop frameworks guidelines suggested by engineers and researchers It then presents new Chazop methodology which is based on incident analysis The final chapter presents reasons for failures in computerized systems each of which is illustrated with an example Most of the examples did not cause an actual safety problem simply because they occurred within systems that are not safety related Some of these examples appear in the literature others are from personal experience or from private communications **The Railway Magazine** ,1904 *It's All a Bit Heath Robinson* Lucinda Gosling, Mary Evans Picture Library, 2017-07-07 William Heath Robinson remains one of Britain's best loved illustrators and has embedded himself into English vernacular inspiring the phrase it's all a bit Heath Robinson to describe any precarious or unnecessarily complex contraption Born in London he originally had ambitions to be a landscape painter but would establish his artistic reputation as a book illustrator during the genre's so called golden age It was his association with weekly illustrated magazine *The Sketch* that was to launch and cement his legacy as a humorous artist Combining a distinctive draughtsmanship with a curious and ingenious mind the advent of the First World War inspired Heath Robinson to dream up a series of increasingly outlandish and bizarre military inventions with which the opposing armies would try to outwit each other From the kaiser's campaigning car or a suggestion for an armoured bayonet curler to post war unbullying of beef his cartoons are a fantastically absurd take on wartime technology and home front life Sadly his inventions were rejected by a fictitious Inventions Board but the charm and eccentricity of his ideas was loved by the public and he remains to this day one

of the finest exponents of humorous British art
