Real Ebonics Debate:

The Real Ebonics Debate Theresa Perry, Lisa Delpit, 1998-06-17 In the winter of 1996 the Oakland school board's resolution recognizing Ebonics as a valid linguistic system generated a brief firestorm of hostile criticism and misinformation then faded from public consciousness. But in the classrooms of America the question of how to engage the distinctive language of many African American children remains urgent. In *The Real Ebonics Debate* some of our most important educators, linguists, and writers, as well as teachers and students reporting from the field, examine the lessons of the Ebonics controversy and unravel the complex issues at the heart of how America educates its children. *Language Ideological Debates* Jan Blommaert, 2010-12-14 No detailed description available for *Language Ideological Debates*. Language in the Real World Susan J. Behrens, Judith A. Parker, 2010-05-13 *Language in the Real World* challenges traditional approaches to linguistics to provide an innovative introduction to the subject. By first examining the real world applications of core areas of linguistics and then addressing the theory behind these applications, this text offers an inductive, illustrative, and interactive overview for students. Key areas covered include animal communication, phonology, language variation, gender and power, lexicography, translation, forensic linguistics, language acquisition, ASL, and language disorders. Each chapter, written by an expert in the field, is introduced by boxed notes listing the key points covered and features an author's note to readers that situates the chapter in its real world context. Activities and pointers for further study and reading are also integrated into the chapters, and an end-of-text glossary is provided to aid study. Professors and students will benefit from the interactive Companion Website that includes a student section featuring comments and hints on the chapter exercises, within the book a series of flash cards to test knowledge and further reading, and links to key resources. Material for professors includes essay and multiple choice questions based on each chapter and additional general discussion topics. *Language in the Real World* shows that linguistics can be appreciated, studied, and enjoyed by actively engaging real world applications of linguistic knowledge and principles and will be essential reading for students with an interest in language. Visit the Companion Website at www.routledge.com/textbooks/languageintherealworld. **Educating African American Students** Gloria Swindler Boutte, 2015-08-20 Focused on preparing educators to teach African American students, this straightforward and teacher-friendly text features a careful balance of published scholarship, a framework for culturally relevant and critical pedagogy, research-based case studies of model teachers, and tested, culturally relevant, practical strategies and actionable steps teachers can adopt. Its premise is that teachers who understand Black culture as an asset rather than a liability and utilize teaching techniques that have been shown to work can and do have specific positive impacts on the educational experiences of African American children. **Language and Power in the Modern World** Mary Talbot, 2019-08-07 This book explores key areas of modern society in which language is used to form power and social relations. These are presented in five sections: Language and the Media, Language and Organisations, Language and Gender, Language and Youth, Multilingualism, Identity, and

Ethnicity With a unique combination of selected readings and student centred tasks in a single volume the book covers contemporary issues in language and power ranging from the global to the interpersonal Each area and each reading chosen to explore it is substantially contextualised and discussed through a detailed introduction and then followed up with related activities Each section comprises a substantial specific introduction which draws students attention to key themes and issues relevant to its topic a set of four or five selected readings which encourages students to locate critically these issues in context a task or set of tasks obliging students to undertake hands on linguistic analysis of data and engage in more sophisticated discussion of pertinent issues In depth exploration of a variety of approaches to the study of language and power Unique combination of advanced readings student centred tasks and editorial guidance Hands on activities at the end of each chapter
