Redeemed Creation Sacramentals Today:

Redeemed Creation Laurence Brett, 1984-09-01 *Redeemed Creation* Laurence F.X. Brett, 1984 **Blessing the World** Derek A. Rivard, 2009

Blessings were an integral and vital element of medieval Christian life and worship. Benedictions for homes and workplaces, the knight and the pilgrim, the city under siege and the fetus in the womb are but a small sample of the multitudinous and fascinating extra sacramental blessings that fill the leaves of the liturgical books of the medieval Latin Church. While commonly acknowledged as a crucial element in the life of medieval people, the meaning and importance of these blessings for their authors and audiences have been frequently overlooked by liturgical and historical scholarship which has focused instead on the textual transmission and long term changes in the blessings and the rituals surrounding them. This present work corrects this omission by examining these blessings with modern eyes and a new methodology. In *Blessing the World*, Derek A. Rivard studies liturgical blessing and its role in the religious life of Christians during the central and later Middle Ages with a particular focus on the blessings of the Franco-Roman liturgical tradition from the tenth to late thirteenth centuries. Through a careful and extensive study of more than ninety such blessings, many of them translated for the first time and accessible to a readership beyond specialists in medieval liturgy, the author argues that medieval blessings were composed as a direct response to the needs, anxieties, beliefs, and fears of the laity and therefore these texts represent a rich and largely untapped source for the study of lay piety and of ritual in medieval Europe. Effectively drawing upon anthropology, ritual studies, the phenomenology of religion, and traditional textual study, Rivard explores the rich themes of medieval piety that flow throughout the blessings in order to produce a new understanding of the blessing as an attempt to tap the power of the sacred for use in daily life. Benedictions for spaces, places, persons, items, and events are each studied in turn to produce this new understanding of these blessings, and in the process these petitions and rituals reveal much about larger issues of medieval people's cosmology, their perceived role in their cosmos, their conceptions of God, and their connections to the divine and to the spiritual powers of God's creation.

ABOUT THE AUTHOR Derek A. Rivard is associate professor of history at Cottey College.

PRAISE FOR THE BOOK *Blessing the World* analyzes the texts of dozens of these blessings in order to explore how medieval Christians conceived of God and their own place within sacred history. This textual focus is the book's strength, and the author provides English translations of blessings from the tenth to the sixteenth centuries, including the original Latin in footnotes, thereby making available to readers a rich source of these materials.

Kathleen Kamerick *The Medieval Review* Rivard's study of medieval blessing rituals sheds helpful light on the ways that medieval churchmen and their flocks viewed their relationship to God, to nature, and to their society.

James A. Brundage *Church History* *Sacramental Theology* Bruce T. Morrill, 2019-11-18

Throughout the second half of the twentieth century, sacramental theology has evolved as a discipline advancing comprehensive theories of sacraments and sacramentality as integral to the Christian faith while also studying the history and theology of the particular rites. Now in the twenty-first

century the need for attention to the actual performance and specific social settings of sacramental worship has become well established This makes the work of sacramental theology necessarily engaged with multiple cross disciplinary theories attentive to particular contexts whether local national or global Still the divine human encounter at the heart of Christian symbol and ritual likewise beckons to philosophical theological reflection The essays in this volume begin with profound philosophical perspectives on the personal and communal sacramental experience expanding from traditional cosmology to evolutionary and chaos theories of our planetary existence continuing with shifts especially among youth to interreligious and non institutional perspectives consideration of change in popular notions of guilt and social ethical issues in relation to liturgical theology and practice so as finally to return to fundamental theological reflection on human sacramentality and divine revelation

Sacramental Streams Richard Davenport,2025-02-04 The church has long seen baptism as one of the means by which God delivers his grace to his people Many passages in the New Testament detail the value of baptism and indicate its status as one of the primary gifts God gives At the same time Jesus conversation with Nicodemus indicates the benefits of baptism should already be evident The early church understood this and saw that God had been preparing his people for the sacrament from the very beginning This book goes back through the Old Testament to draw on the various themes God has presented to inform and instruct his people about the sacrament he would later institute By examining these themes in detail it is shown that though baptism is a one time event in the life of the Christian the baptized continue to receive its benefits Baptism not only functions as an ongoing means of God s grace but as the means by which God shapes his people into the holy nation he has called them to be
