Redeemed?, Then Unredeemed? Gail Long, 1990-01-01 *To Redeem One Person is to Redeem the World* Gail A. Hornstein, 2021-05-04 A fascinating and dramatic account of a controversial figure in twentieth century psychiatry In this dazzling and provocative biography Gail Hornstein brings back to life the maverick psychiatrist Frieda Fromm Reichmann To Redeem One Person Is to Redeem the World tells the extraordinary life story of the German Jewish refugee analyst who accomplished what Freud and almost everyone else thought impossible she successfully treated schizophrenics and other seriously disturbed mental patients with intensive psychotherapy rather than medication lobotomy or shock treatment Written with unprecedented access to a rich archive of clinical materials and newly discovered records and documents from across Europe and the United States Hornstein s meticulous and delightfully lucid biography definitively reclaims the life of Fromm Reichmann The therapist at the core of Joanne Greenberg s I Never Promised You a Rose Garden is also the analyst who had an affair with and later married her patient Erich Fromm A pioneer in her field she made history as the pivotal figure of the unique and legendary mental hospital Chestnut Lodge A lively well written account of a charismatic leader in an important period of psychiatry s history Psychology Today At a time when little pills are seen as a quick fix for almost everything this book is well worth taking time to read and contemplate Philadelphia Inquirer Publishers Weekly Kirkus Reviews **Courageous Grace** Gayle Haggard, 2013-04-19 As a Bible teacher Gayle had taught for decades about the amazing power of grace in a person s life Yet it took a crisis in her husband s life and the crumbling of her own life around her for her to have an epiphany about the true nature of grace In Courageous Grace Gayle chronicles and explains her newfound insights Despite common misperceptions grace is not safe It s not easy Frankly it takes courage to show grace to those who deserve less Oftentimes the person showing God s grace gets counted among the sinners just as Jesus experienced centuries ago Gayle explores the story of Jesus forgiving the adulterous woman to reveal the courageous side of showing grace We live in a society that vacillates between glorifying sin and crucifying those who fall Gayle encourages us to take the road less traveled daring to do the hard work of showing God s grace to the sinners among us It s what followers of Christ are called to do **Women, Culture, and Community : Religion and Reform in Galveston, 1880-1920** Elizabeth Hayes Turner Associate Professor of History University of Houston, 1997-11-17 In this work Elizabeth Turner addresses a central question in post Reconstruction social history why did middle class women expand their activities from the private to the public sphere and begin in the years just before World War I an unprecedented activism Using Galveston as a case study Turner examines how a generally conservative traditional environment could produce important women s organizations for Progressive reform She concludes that the women of Galveston though slow to respond to national movements were stirred to action on behalf of their local community Local organizations particularly Episcopal and Presbyterian churches and traditional everyday social activities provided a nurturing environment for budding reformers and a foundation for activist

organizations and programs such as poor relief and progressive reform. Ultimately women became politicized even as they continued their roles as guardians of traditional domestic values. Women Culture and Community will appeal to scholars and students of the post Reconstruction South women's history, activist history, and religious history.

Viking Colonialism: Contact and Interaction Between Viking/Medieval Norway and the Northern Isles Barbara Gail Scott, 1993. In this thesis I use an interdisciplinary approach to study the relationship between the native Norwegian society of the Viking Age and the Middle Ages up to the Black Death c AD 800-1050 and 1050-1350 respectively on the one hand and the native Pictish society and Norse colonizers of Orkney and Shetland on the other. This involves the application of social theory, particularly Anthony Giddens's structuration theory and John Barrett's concept of fields of discourse to the available archaeological and written evidence. These concepts provide a justification for using the house sites in Norway and the Northern Isles from this period as a key into questions of social relations and interaction. House layout does change slowly over time, for example in the placement of the hearth benches and high seat, supporting and supported by concomitant changes in political structure and social organization, e.g. increasing segmentation and bureaucratization, decreased importance of kinship bonds. The evidence presented in this thesis indicates that there was not a marked time-space edge where contradictions could build up between Norse and Pictish society and that interaction between the Norse and native Picts in the Northern Isles was more extensive and complicated than previously believed. Here a common class identity among the elites may have been a more important structuring relation than ethnic identity. In contrast, ethnic identity was an important structuring relation between the Norse and the Saami in Northern Norway where there was a distinct time-space edge between two structurally different societies. In Norse Greenland little interaction is evident between the Norse and Inuit populations, perhaps because the conservative Norse colony lay on two time-spaces edges: one with the Inuit and the other with High Medieval Norwegian society. In resisting the demands of the Church, Norse Greenland may have erected very successful barriers to even beneficial social change, leading to the eventual disappearance of the colony. These comparisons demonstrate the importance of context of the specific historical chain of events which play out in different ways in different circumstances rather than the search for a single overarching explanation.
