illustration she presents a detailed examination of a simple Grimm's tale The Three Feathers followed by a comprehensive discussion of motifs related to Jung's concept of the shadow the anima and the animus This revised edition has been corrected and updated by the author

Fairytales—A World between the Imaginary Carmela Scala, 2015-02-05 This book investigates Basile's contribution to the establishment of fairytales as a literary genre the focus is on his masterpiece *Lo cunto de li Cunti* The volume examines Basile's work's debt to tradition and its influence on posterity while also studying the author's unique use of metaphors in the rich Neapolitan dialect As this study reveals metaphors in *Lo cunto de li cunti* are not used simply as a mean of embellishment rather they are employed as a way to inform the reader of the rich folkloric tradition of Naples during the baroque times as well as of Basile's discontent with the socio-political situation of his times The use of metaphors is so pervasive that one could argue that the book is itself a metaphor through which Basile conveys his ideals and his utopia of a liberated Naples and a more just society as well as the importance of the Neapolitan dialect and its linguistic registers Furthermore the book also proposes a new interpretation of the female characters of the tales and it instigates a discussion on gender roles in both modern and past societies

A Midsummer Night's Dream: Shakespeare's Syzygy of Meaning, **Volume 3 of the Collected Works of Marie-Louise von Franz: Archetypal Symbols in Fairytales** Marie-Louise von Franz, 2022-02-28 The Collected Works of Marie-Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology Volume 3 turns to the Maiden's Quest within fairytales The maiden heroine navigates a complicated maze of inner and outer relationships as she builds a bridge to the unconscious The heroine contends with the animus in many forms like a devouring and incestuous father demonic groom the beautiful prince an androgenous mother a cold dark tower and through conflict with the evil stepmother Dangers and pitfalls await her as the conscious feminine strives to make connections with the unconscious masculine The maiden is the undeveloped feminine and the promised fruit of her struggle with the animus is the coniunctio Volume 3 is a masterwork of cross-cultural scholarship penetrating psychological insight and a strikingly illuminating treatise With her usual perspicacity and thoroughness von Franz gathers countless fairytale motifs revealing a myriad of facets to the maiden's quest

Volume 1 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz, 2021-09-20 This newly translated volume of the Collected Works of Marie-Louise von Franz one of the most renowned authorities on fairytales presents a systematic and wide-ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life She was one of Analytical Psychology's most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life's events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that

a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung's lectures at the ETH Eidgenössische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in classical philology and begun seeing her first analysands She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribi MD in Fountain of the Love of Wisdom Chiron 2006
