Rediscoveries In Art Some Aspects Of Taste Fashion And Collecting In England And France:

Rediscoveries in Art Francis Haskell, 1976 Critical Readings in Impressionism and Post-Impressionism Mary Tompkins Lewis, 2023-12-22 The essays in this wide ranging beautifully illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet Manet Pissarro Degas C zanne Morisot Seurat Van Gogh and Gauguin The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts They explore these painters pictorial and market strategies the critical reception and modern criteria the paintings engendered and the movement s historic role in the formation of an avant garde tradition Their research reflects the wealth of new documents critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism These essays several of which have previously been familiar only to scholars provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field Contributors Carol Armstrong T J Clark Stephen F Eisenman Tamar Garb Nicholas Green Robert L Herbert John House Mary Tompkins Lewis Michel Melot Linda Nochlin Richard Schiff Debora Silverman Paul Tucker Martha Ward *Survival of the fittest?* Henri Zerner, **Art and Religion in Eighteenth-Century Europe** Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study Art and Religion in Eighteenth Century Europe will be essential for art history and religious studies scholars alike The House of Fragile Things James McAuley, 2021-03-01 A powerful history of Jewish art collectors in France and how an embrace of art and beauty was met with hatred and destruction In the dramatic years between 1870 and the end of World War II a number of prominent French Jews pillars of an embattled community invested their fortunes in France s cultural artifacts sacrificed their sons to the country s army and were ultimately rewarded by seeing their collections plundered and their families deported to Nazi

concentration camps In this rich evocative account James McAuley explores the central role that art and material culture played in the assimilation and identity of French Jews in the fin de siècle Weaving together narratives of various figures some familiar from the works of Marcel Proust and the diaries of Jules and Edmond Goncourt the Camondos the Rothschilds the Ephrussis the Cahens d Anvers McAuley shows how Jewish art collectors contended with a powerful strain of anti-Semitism they were often accused of invading France's cultural patrimony The collections these families left behind many ultimately donated to the French state were their response tragic attempts to celebrate a nation that later betrayed them **The Brothers Le Nain** Esther Susan Bell, Claude Douglas Dickerson, Nicolas Milavanovic, Alain Tallon, 2016-01-01 A beautiful volume that brings to light the forgotten Le Nain brothers a trio of 17th century French master painters who specialized in portraiture religious subjects and scenes of everyday peasant life In France in the 17th century the brothers Antoine c 1598 1648 Louis c 1600 1605 1648 and Mathieu 1607 1677 Le Nain painted images of everyday life for which they became posthumously famous They are celebrated for their depictions of middle class leisure activities and particularly for their representations of peasant families who gaze out at the viewer The uncompromising naturalism of these compositions along with their oddly suspended action imparts a sense of dignity to their subjects Featuring more than sixty paintings highlighting the artists full range of production including altarpieces private devotional paintings portraits and the poignant images of peasants for which the brothers are best known this generously illustrated volume presents new research concerning the authorship dating and meaning of the works by well known scholars in the field Also groundbreaking are the results of a technical study of the paintings which constitutes a major contribution to the scholarship on the Le Nain brothers

Female Portraiture and Patronage in Marie Antoinette's Court Sarah Grant, 2018-09-03 This comprehensive book brings to light the portraits private collections and public patronage of the princesse de Lamballe a pivotal member of Marie Antoinette's inner circle Drawing extensively on unpublished archival sources Sarah Grant examines the princess's many portrait commissions and the rich character of her private collections which included works by some of the period's leading artists and artisans The book sheds new light on the agency sorority and taste of Marie Antoinette and her friends a group of female patrons and model of courtly collecting that would be extinguished by the coming revolution The Aesthetic Relation Gérard Genette, 1999 One of the best known continental theorists writing today Gérard Genette here explores our aesthetic relation to works of art Through an analysis of the views of thinkers ranging from David Hume and Immanuel Kant to Monroe C Beardsley Arthur Danto and Nelson Goodman Genette seeks to identify the place of the aesthetic in a theory of artistic appreciation His discussion is rich in detailed examples drawn from all of the arts The Aesthetic Relation is a companion volume to *The Work of Art Immanence and Transcendence* published by Cornell in 1997 Taken together the two books offer a comprehensive theory of art which addresses the work of art as at once object and action Genette maintains that our aesthetic relation to all types of objects presupposes that special attention is paid to their outward aspect rather

than to their usefulness when appraising them. Such appraisals while wholly subjective and temporary are expressed as objective and universal judgments about the items in question. Further he asserts that our aesthetic relation to works of art in particular is based on an awareness of an aesthetic intention that defines an object as a work of art as well as on an awareness of a work's position in its historical and generic field.

Civilizing Rituals Carol Duncan, 2005-06-20 Illustrated with over fifty photos. *Civilizing Rituals* merges contemporary debates with lively discussion and explores central issues involved in the making and displaying of art as industry and how it is presented to the community. Carol Duncan looks at how nations, institutions and private individuals present art and how art museums are shaped by cultural, social and political determinants. *Civilizing Rituals* is ideal reading for students of art history and museum studies and professionals in the field will also find much of interest here.

Painting the Cannon's Roar Thomas Tolley, 2017-07-05. From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences. The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound, allowing music and the visual arts to be defined more closely in relation to one another. This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts, an audience which potentially included all social strata. The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation. Nowhere is this better illustrated than in the career of Joseph Haydn. Although this phenomenon defies conventional modes of study, the book shows how musical pictorialism became a major creative force in popular culture. Haydn, the most popular living cultural personality of the period, proved to be the key figure in advancing the new relationship. The connections between the composer and his audiences and leading contemporary artists including Tiepolo, Mengs, Kauffman, Goya, David, Messerschmidt, Louthenbourg, Canova, Copley, Fuseli, Reynolds, Gillray and West are examined here for the first time. By the early nineteenth century populism was beginning to be regarded with scepticism and disdain. Mozart was the modern Raphael, Beethoven the modern Michelangelo. Haydn, however, had no clear parallel in the accepted canon of Renaissance art. Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost, finding future exponents in Wagner and later still in the cinematic arts.
