Reflected Evil:

The Real and the Reflected: Heroes and Villains in Existent and Imagined Worlds ,2020-09-25 The Real and the Reflected Heroes and Villains in Existent and Imagined Worlds unpacks many of the issues that surround heroes and villains It explores the shadows that fall between the traditional black and white definitions of good and evil Evil and Human Agency Arne Johan Vetlesen,2005-12-01 Evil is a poorly understood phenomenon In this provocative 2005 book Professor Vetlesen argues that to do evil is to intentionally inflict pain on another human being against his or her will and causing serious and foreseeable harm Vetlesen investigates why and in what sort of circumstances such a desire arises and how it is channeled or exploited into collective evildoing He argues that such evildoing pitting whole groups against each other springs from a combination of character situation and social structure By combining a philosophical approach inspired by Hannah Arendt a psychological approach inspired by C Fred Alford and a sociological approach inspired by Zygmunt Bauman and bringing these to bear on the Holocaust and ethnic cleansing in the former Yugoslavia Vetlesen shows how closely perpetrators victims and bystanders interact and how aspects of human agency are recognized denied and projected by different agents

The Path to Mass Evil Michael Hardiman,2022-07-19 On the Southern border of the United States in 2018 the decision was made to implement a separation policy among refugees and migrant families arriving at the border and so a group of government employees left their homes bidding farewell to their families as they went to work and began to separate hundreds of children from their families forcefully taking them to holding centres Developing Hannah Arendt s analysis of the banality of evil The Path to Mass Evil demonstrates how the most educated sophisticated and advanced societies in human history have the potential to descend into profound inhumanity and in the extreme can turn into enormous killing machines implementing mass murder on a vast scale Suitable for undergraduates and graduates in philosophy sociology psychology and religion Michael Hardiman reveals how traditional understandings of morality fail to grasp how ordinary citizens become collaborators and engage in a range of levels of evildoing He also highlights the necessity of confronting this evil in the increasingly divided and antagonistic world in which we find ourselves today

The Connected Discourses of the Buddha ,2005-06-10 This volume offers a complete translation of the Samyutta Nikaya The Connected Discourses of the Buddha the third of the four great collections in the Sutta Pitaka of the Pali Canon The Samyutta Nikaya consists of fifty six chapters each governed by a unifying theme that binds together the Buddha s suttas or discourses The chapters are organized into five major parts The first The Book with Verses is a compilation of suttas composed largely in verse This book ranks as one of the most inspiring compilations in the Buddhist canon showing the Buddha in his full grandeur as the peerless teacher of gods and humans The other four books deal in depth with the philosophical principles and meditative structures of early Buddhism They combine into orderly chapters all the important short discourses of the Buddha on such major topics as dependent origination the five aggregates the six sense bases the seven factors of

enlightenment the Noble Eightfold Path and the Four Noble Truths Among the four large Nikayas belonging to the Pali Canon the Samyutta Nikaya serves as the repository for the many shorter suttas of the Buddha where he discloses his radical insights into the nature of reality and his unique path to spiritual emancipation This collection it seems was directed mainly at those disciples who were capable of grasping the deepest dimensions of wisdom and of clarifying them for others and also provided guidance to meditators intent on consummating their efforts with the direct realization of the ultimate truth The present work begins with an insightful general introduction to the Samyutta Nikaya as a whole Each of the five parts is also provided with its own introduction intended to guide the reader through this vast ocean like collection of suttas To further assist the reader the translator has provided an extensive body of notes clarifying various problems concerning both the language and the meaning

The Liberator ... James W. McClellan,1915

Human Subjectivity 'in Christ' in Dietrich Bonhoeffer's Theology Jacob Phillips,2019-09-19 Jacob Phillips presents a critical study of a neglected aspect of Dietrich Bonhoeffer's theology his writing on human subjectivity self reflection and individual identity in Christ In response to the rise of chronic self representation through digital technology Phillips argues that Bonhoeffer presents a radical challenge maintaining that from the perspective of Christian theology there is something deeply negative about beholding representations of oneself Bonhoeffer instead holds that discipleship means adopting a posture of radical agnosticism toward one's own identity Phillips focuses on the interrelation of simplicity and reflection in theological cognition and ethical deliberation showing a wider significance in contemporary theological anthropology soteriology and ethics By following the tradition of reading Bonhoeffer in relation to the philosophical sources such as W. Steiner, Hans Janz, Whitson Floyd Marsh, Zimmermann, Gregor Phillips highlights the ways in which Bonhoeffer's work relates to modern debates in epistemology and ethics generally and that of Wilhelm Dilthey and hermeneutical phenomenology in particular This volume offers a detailed theological analysis of the themes of self identity human subjectivity and self understanding which are highly pertinent for contemporary society

Innocent Asouzu,2005 Questions relating to types of philosophical trends within African philosophy can be very decisive for any idea of African philosophy In this strikingly novel approach to African Philosophy the author explores a complementary philosophical trend that goes back to those he calls anonymous traditional African philosophers Based on their thoughts he articulates a distinctive variant of the principles method and imperative of complementarity Ibu anyi danda around which he builds his system He anchors his reflection on such ambient concepts as the joy of being jide k iji fragmentation wholeness and future reference
