Reflections On Priestly Formation:

Reflections on Priestly Formation George Vanchipurackal, 1993 **Models of Priestly Formation** Declan Marmion, Michael Mullaney, Salvador Ryan, 2019-08-12 2020 Catholic Press Association honorable mention award church professional The preparation of new priests for ministry currently faces closer scrutiny than at any time since the Reformation and the importance of effective priestly formation has perhaps never been clearer in the entire history of the church In *Models of Priestly Formation* some of the world's leading experts on the topic consider priestly formation since Vatican II explore current best practices internationally and imagine what the future of such formation might look like The book promises to become an essential reference for every person involved in priestly formation and for anyone interested in understanding better how it is carried out and how those who do it think about their task The eBook edition includes four additional essays **Let God Shape Them** Antony Valungal, 2016 *Nothing But You, Lord* John P. Cush, 2024-07-15 In 1990 Pope John Paul II spoke of a crisis of priestly identity Decades later the crisis is not over and the lack of a clear sense of priestly identity is the single greatest obstacle to the proper formation of priests today In *Nothing But You Lord* longtime seminary professor and formation advisor Fr John Cush draws on the thought of Bishop Robert Barron to recover the fundamentals of what it means to be a Catholic priest Fr Cush explores the qualities and character of the priest the role of hope amidst priestly abuses and failures and the four dimensions of priestly formation human intellectual spiritual and pastoral outlined by Pope John Paul II Featuring a foreword by Bishop John Barres *Nothing But You Lord* is an encouraging return to the basics of the Catholic priesthood **The Priestly Office** Avery Dulles, 1997 The past three decades have witnessed a decline in the number of Roman Catholic priests in Europe and North America the result of resignations from the priesthood and of fewer people entering seminaries A major cause contributing to this situation has been the ambiguity surrounding the role and identity of the priest in light of new theological paradigms This book attempts to restore clarity to that matter by drawing primarily although not exclusively on the teachings of the Second Vatican Council postconciliar theology and the pronouncements of Pope John Paul II The first chapter probes the relationship of the priest to Christ and the church This is the basic theme of the book since the manner in which the relationship is perceived colors all aspects of priestly life The following three chapters examine the three forms of ministry the priest renders to the community the ministry of the word of worship and of pastoral care The book ends with a consideration of the most fundamental role of the priest a disciple of Jesus So the book comes full circle returning to the primary relationship of the priest to Christ and to the church as a community of disciples BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Priestly Formation Revisited Jose Varickasseril, Abraham M. Irish and British Reflections on Catholic Education Sean Whittle, 2021-02-20 This volume presents an interdisciplinary and systematic review of Catholic Education Studies across Ireland and Britain Taken together the chapters drill down to the foundations identity and leadership matters in Catholic education and schools It is in reading the complete volume that a more precise picture of Catholic education in Ireland and Britain develops into sharper focus This is important because it reflects and crystallises the complexity which has almost organically developed within the field of Catholic Education Studies It also provides a powerful antidote to the na ve reductionism that would boil Catholic education down to just one or two fundamental issues or principles Contemporary Catholic education perhaps globally but certainly in Ireland and Britain is best depicted in terms of being a colourful kaleidoscope of differing perspectives However this diversity is ultimately grounded in the underlying unity of purpose because each of the contributors to this volume is a committed advocate of Catholic education The volume brings together a rich range of scholars into one place so that these voices can be listened to as a whole It includes contributions from leading scholars blended with a plethora of other voices who are emerging to become the next generation of leading researchers in Catholic education It also introduces a number of newer voices to the academic context They present fresh perspectives and thinking about matters relating to Catholic education and each of them confidently stand alongside the other contributors Moreover these reflections on Catholic education are important fruits to have emerged from the collaboration made possible through the creation of the Network for Researchers in Catholic Education which was established in 2016 under the auspices of Heythrop College University of London
