Reflections On Regionalism:

Reflections on Regionalism Bruce Katz, 2001-09-19 Academics community activists and politicians have rediscovered regionalism insisting that regions are critical functional units in a world wide economy and just as important critical functional units in individual American lives More and more of us travel across city county even state borders every morning on our way to work Our television radio and print media rely on a regional marketplace Our businesses large and small depend on suppliers workers and customers who rarely reside in a single jurisdiction The parks riverfronts stadiums and museums we visit draw from and provide an identity to an area much larger than a single city The fumes gases chemicals and run off that pollute our air and water have no regard for municipal boundaries This book lays out a variety of opinions on regionalism its history and its future While the essays do not comprise a debate pro and con about regionalism they do provide a wide array of perspectives based on the authors diverse backgrounds and experience Some contributors have made close academic studies of how regional action occurs in various states like Minnesota California and Oregon others give an historical account of a particular region like that surrounding New York City and yet others point out aspects of regionalism race especially that should not be ignored Why did past efforts at regional collaboration fall apart What did regionalist efforts of decades ago leave undone and what new goals should regionalists set Without an understanding of these questions policymakers and advocates may find themselves reinventing the region This book provides an important understanding of how regionalism has played out in the past how policies shape places and the possibilities and limits of regional action Bruce J Katz director of the Brookings Institution Center on Urban and Metropolitan Policy was formerly chief of staff at the U S Department of Hous

Reflections on Regionalism Bruce Katz, 2001-09-19 Academics community activists and politicians have rediscovered regionalism insisting that regions are critical functional units in a world wide economy and just as important critical functional units in individual American lives More and more of us travel across city county even state borders every morning on our way to work Our television radio and print media rely on a regional marketplace Our businesses large and small depend on suppliers workers and customers who rarely reside in a single jurisdiction The parks riverfronts stadiums and museums we visit draw from and provide an identity to an area much larger than a single city The fumes gases chemicals and run off that pollute our air and water have no regard for municipal boundaries This book lays out a variety of opinions on regionalism its history and its future While the essays do not comprise a debate pro and con about regionalism they do provide a wide array of perspectives based on the authors diverse backgrounds and experience Some contributors have made close academic studies of how regional action occurs in various states like Minnesota California and Oregon others give an historical account of a particular region like that surrounding New York City and yet others point out aspects of regionalism race especially that should not be ignored Why did past efforts at regional collaboration fall apart What did regionalist efforts of decades ago leave undone and what new goals should regionalists set Without an

understanding of these questions policymakers and advocates may find themselves reinventing the region This book provides an important understanding of how regionalism has played out in the past how policies shape places and the possibilities and limits of regional action Bruce J Katz director of the Brookings Institution Center on Urban and Metropolitan Policy was formerly chief of staff at the U S Department of Housing and Urban Development *Critical Reflections on Regional Competitiveness* Gillian Bristow, 2010-04-05 Since the early 1990s governments and development agencies have become increasingly preoccupied with the pursuit of regional competitiveness However there is considerable confusion around what exactly regional competitiveness means how it might be achieved whether and how it can be measured and whether it is a meaningful and appropriate goal for regional economies The central aim of this book is to provide a comprehensive and critical account of these debates with reference to theory policy and practice and thus to explore the meaning and value of the concept of regional competitiveness The book is structured into three parts Part one introduces the concept of regional competitiveness by tracing its origins and exploring its different meanings in regional economic development This will critically engage with political economy approaches to understanding the nature and dominance of the competitiveness discourse Part two interrogates the pursuit of regional competitiveness in policy and practice This critically evaluates the degree to which the pursuit of competitiveness is encouraging convergence in policy agendas in regions through an examination of key determinants of policy sameness and difference notably benchmarking and devolved governance Part three explores the limitations to regional competitiveness and explores whether and how its predominance in the policy discourse might be challenged by alternative agendas such as sustainable development and wellbeing This focuses on the developing qualitative character of regional development This volume critically engages with the theory and policy of regional competitiveness thus providing the first integrated critique of the concept for undergraduate and postgraduate students as well as academics interested in regional development and policy It will unpack the concept of regional competitiveness and explain its usefulness limitations and policy appeal as well as examining its sustainability in the light of evolving governance structures and the imperatives of broadening regional development agendas *Reflections on Regionalism* Charles J. Calrow, 1936

Chinese Foreign Relations: Reflections On Knowledge Production Ming Wan, 2024-11-12 With China's global ascendancy Chinese foreign policy has become a popular area of study for scholars around the world Rather than simply contributing to this subject this book sets out to reflect on the field itself using as samples some of the author's previous work both published and unpublished covering different areas of Chinese foreign policy and adopting different approaches In doing so it examines how knowledge about Chinese foreign policy has developed focusing on areas such as traditions values perspectives and regionalism The field of Chinese foreign policy has evolved along with international relations and foreign policy analysis Studies on specific topics have generally been of high quality thanks to the competitive and extensive nature of academic research and exchange despite a perceived failure to predict Beijing's current assertive foreign policy orientation Looking

forward this book reflects on how certain current tendencies excessive focus on national security narrowing of academic exchange and access between China and the West and a shift to rivalry driven analysis threaten to lower the quality of future Chinese foreign policy studies in Western countries *Reflections on Regionalism* Margaret Kingsland, Montana State University--Bozeman, 1992 **The New Politics of Regionalism** Ulf Engel, Heidrun Zinecker, Frank Mattheis, Antje Dietze, Thomas Plötze, 2016-10-04 This edited volume approaches regionalism as one potential pattern in a changing global order Since the end of the Cold War different forms of territorialization have emerged and we are confronted with an increasing number and variety of actors that are establishing regional projects This volume offers an innovative contribution to the study of this new complexity by exploring constellations of regional actors spatial scales and imaginations beyond state centred perspectives as well as on multiple often overlapping levels The chapters analyse the emergence trajectories and outcomes of regionalisms from the perspective of the Global South specifically concentrating on regional projects in Latin America and Africa but also in the Asia Pacific They attempt to identify the specific conditions and junctures of different forms of region making in their external global and internal local national dimensions The volume also places special emphasis on interactions spatial entanglements and comparisons between regionalisms in different parts of the world By expanding beyond the perspective of North South transfers this book seeks to better understand the dynamics and diversity of interregional interactions This volume will appeal to scholars of global studies international political economy international relations human geography and development studies as well as area studies specialists who focus on Latin America and Africa **Asean Matters! Reflecting On The Association Of Southeast Asian Nations** Yoong Yoong Lee, 2011-04-26 The initiative to establish the Association of Southeast Asian Nations ASEAN Community was adopted by the ten leaders at the 2003 Bali Summit in Indonesia Since then the concept of a community building process in ASEAN has become an issue that attracts a great deal of attention from scholars and experts around the world ASEAN Matters Reflecting on the Association of Southeast Asian Nations carries essays with different perspectives on critical issues relating to the three pillars in building the ASEAN Community namely the ASEAN Political and Security Community the ASEAN Economic Community and the ASEAN Socio Cultural Community In a nutshell this book provides broad and invaluable insights into the role ASEAN plays in enhancing peace prosperity and stability in the Southeast Asian region Written in a highly accessible style the contents include both a thorough review of current issues and a succinct overview of the past and future direction of ASEAN The book reiterates the continued and strengthening relevance of ASEAN 43 years after its founding Unlike most other books on ASEAN a majority of the essays are written by former professional staff at the ASEAN Secretariat as well as from current office holders This gives the volume a high degree of authenticity and unique insights More interestingly it also includes viewpoints from experts scholars diplomats and officials who either have extensive research knowledge or had been involved in ASEAN s external and economic relations with the dialogue partners such as China India Japan the Republic of

Korea Australia New Zealand and the European Union EU among others *Reflections on Architecture, Society and Politics*
Graham Cairns, 2016-10-04 *Reflections on Architecture Society and Politics* brings together a series of thirteen interview
articles by Graham Cairns in collaboration with some of the most prominent polemic thinkers and critical practitioners from
the fields of architecture and the social sciences including Noam Chomsky Peggy Deamer Robert A M Stern Daniel Libeskind
and Kenneth Frampton Each chapter explores the relationship between architecture and socio political issues through
discussion of architectural theories and projects citing specific issues and themes that have led to and will shape the various
aspects of the current and future built environment Ranging from Chomsky s examination of the US Mexico border as the
architecture of oppression to Robert A M Stern s defence of projects for the Disney corporation and George W Bush this book
places politics at the center of issues within contemporary architecture **Liquid Regionalism in the Americas** Karina L.
Pasquariello Mariano, Regiane Nitsch Bressan, Bruno Theodoro Luciano, 2025-02-25 This book develops a comprehensive
analysis of contemporary regionalism in the Americas which the authors characterise as Liquid Regionalism given its
unstable flexible and loose characteristics It innovates by introducing a new concept to assess regional initiatives in the
American continents contributing to Latin American and comparative regionalism research agendas The book analyses major
regional projects in the Americas and develops these into a novel typology of consultation cooperation and integration This
typology helps explain the level of commitments and institutional depth of regional initiatives across the continent The book
is for scholars postgraduate and undergraduate students interested in the regional and political dynamics of the Americas
across the social sciences including international relations political science sociology international political economy
international trade and history
