

Reflexology

AND CHARTS

Reflexology is an alternative health therapy that uses pressure of reflex points to stimulate the body's healing processes. It is based on the principle that there are numerous energy pathways that travel to every angle of the body and have endings or points to allow just below the skin surface (primarily in the hands and feet). The reflexology touches manipulating these endings for relief points to improve energy flow in order to treat disease and alleviate pain or organs affected on the pathway.
