Rethinking Catholicism in Reformation England Lucy E. C. Wooding, 2000-10-19 This book considers the ideological development of English Catholicism in the sixteenth century from the complementary perspectives of history theology and literature Lucy Wooding argues that Erasmian humanism had laid the foundations for Catholic reformation in England but that it was Henry VIII who turned an intellectual trend into an actual reform programme reshaping English Catholicism in the process The reformist strand within Catholic thought remained influential during the reign of Mary I and in the early Elizabethan period but was then reconfigured by the experience of exile and the onset of the drive for Counter Reformation uniformity Dr Wooding shows that Catholicism in this period was neither a defunct tradition nor one merely reacting to Protestantism but a vigorous intellectual movement responding to the reformist impulse of the age Its development illustrates the English Reformation in microcosm scholarly humanist didactic and preserving its own peculiarities independent of European trends Rethinking Catholicism in Reformation England makes an important contribution to the intellectual history of the Reformation

Reformation in Britain and Ireland Felicity Heal, 2003-03-20 The study of the Reformation in England and Wales Ireland and Scotland has usually been treated by historians as a series of discrete national stories Reformation in Britain and Ireland draws upon the growing genre of writing about British History to construct an innovative narrative of religious change in the four countries three kingdoms The text uses a broadly chronological framework to consider the strengths and weaknesses of the pre Reformation churches the political crises of the break with Rome the development of Protestantism and changes in popular religious culture The tools of conversion the Bible preaching and catechising are accorded specific attention as is doctrinal change It is argued that political calculations did most to determine the success or failure of reformation though the ideological commitment of a clerical elite was also of central significance

Henry VIII and the English Reformation Richard Rex, 2006-03-29 Abandoning the traditional narrative approach to the subject Richard Rex presents an analytical account which sets out the logic of Henry VIII's shortlived Reformation Starting with the fundamental matter of the royal supremacy

Rex goes on to investigate the application of this principle to the English ecclesiastical establishment and to the traditional religion of the people. He then examines the extra impetus and the new direction which Henry's regime gave to the development of a vernacular and literate devotional culture and shows how despite Henry's best intentions serious religious divisions had emerged in England by the end of his reign. The study emphasises the personal role of Henry VIII in driving the Reformation process and how this process in turn considerably reinforced the monarch's power. This updated edition of a powerful interpretation of Henry VIII's Reformation retains the analytical edge and stylish lucidity of the original text while taking full account of the latest research. An important new chapter elucidates the way in which politics and religion interacted in early Tudor England.

Catholic Renewal and Protestant Resistance in Marian England Vivienne Westbrook, Elizabeth Evenden, 2016-03-03 Mary Tudor's reign is regarded as a period where within a short space of time an early modern European state attempted to reverse the religious policy of preceding governments. This required the use of persuasion and coercion of propaganda and censorship as well as the controversial decision to revive an old statute against heresy. The efforts to renew Catholic worship and to revive Catholic education and spirituality were fiercely opposed by a small but determined group of Protestants who sought ways of thwarting the return of Catholicism. The battle between those seeking to renew Catholicism and those determined to resist it raged for the full five years of Mary's reign. This volume brings together eleven authors from different disciplines: English Literature, History, Divinity and the History of the Book, who explore the different policies undertaken to ensure that Catholicism could flourish once more in England. The safety of the clergy and of the public at the Mass was of paramount importance since sporadic unrest took place early on. Steps were taken to ensure that reformist worship was stopped and that the country re-embraced Catholic practices. This involved a number of short and long term plans to be enacted by the regime. These included purging the universities of reformist ideas and ensuring the re-education of both the laity and the clergy. On a wider scale this was undertaken via the pulpit and the printing press. Those who opposed the return to Catholicism did so by various means. Some retreated into exile while others chose the press to voice their objections as this volume details. The regime's responses to the actions of individuals and to the clandestine texts produced by their opposition come under scrutiny throughout this volume. The work presented here also offers new insight into the role of King Philip and his Spanish advisers. These essays therefore present a detailed assessment of the role of the Spanish who came with to England as a result of the marriage of Philip and Mary. They also move away from the ongoing discussions of persecution seeking rather to present a more nuanced understanding of the regime's attempts to renew and revive a nation of worshippers and to eradicate the disease of heresy. They also look at the ways those attempts were opposed by individuals at home and abroad thereby providing a broad ranging but detailed assessment of both Catholic renewal and Protestant resistance during the years 1553-1558.

Humanism and the Reform of Sacred Music in Early Modern England Hyun-Ah Kim, 2016-05-13 John Merbecke c. 1505 c. 1585 is most famous as the composer of the first

musical setting of the English liturgy The Booke of Common Praier Noted BCPN published in 1550 Not only was Merbecke a pioneer in setting English prose to music but also the compiler of the first Concordance of the whole English Bible 1550 and of the first English encyclopaedia of biblical and theological studies A Booke of Notes and Common Places 1581 By situating Merbecke and his work within a broader intellectual and religio cultural context of Tudor England this book challenges the existing studies of Merbecke based on the narrow theological approach to the Reformation Furthermore it suggests a re thinking of the prevailing interpretative framework of Reformation musical history On the basis of the new contextual study of Merbecke this book seeks to re interpret his work particularly BCPN in the light of humanist rhetoric It sees Merbecke as embodying the ideal of the Christian musical orator demonstrating that BCPN is an Anglican epitome of the Erasmian synthesis of eloquence theology and music The book thus depicts Merbecke as a humanist reformer through re evaluation of his contributions to the developments of vernacular music and literature in early modern England As such it will be of interest not only to church musicians but also to historians of the Reformation and students of wider Tudor culture The Debate on the English Reformation Rosemary O'Day, 2003-10-03 First published in 2003 The Debate on the English Reformation combines a discussion of the successive historical approaches to the English Reformation from 1525 to the present with a critical review of recent debates in the area offering a major contribution to modern political social and religious historiography as well as to Reformation studies
