J. Waldron

Reformation Of The Image:

The Reformation of the Image Joseph Leo Koerner, 2004-05-03 With his 95 Theses Martin Luther advanced the radical notion that all Christians could enjoy a direct personal relationship with God shattering years of Catholic tradition and obviating the need for intermediaries like priests and saints between the individual believer and God The text of the Bible the Word of God itself Luther argued revealed the only true path to salvation not priestly ritual and saintly iconography But if words not iconic images showed the way to salvation why didn't religious imagery during the Reformation disappear along with indulgences The answer according to Joseph Leo Koerner lies in the paradoxical nature of Protestant religious imagery itself which is at once both iconic and iconoclastic Koerner masterfully demonstrates this point not only with a multitude of Lutheran images many never before published but also with a close reading of a single pivotal work Lucas Cranach the Elder's altarpiece for the City Church in Wittenberg Luther's parish As Koerner shows Cranach breaking all the conventions of traditional Catholic iconography created an entirely new aesthetic for the new Protestant ethos In the Crucifixion scene of the altarpiece for instance Christ is alone and stripped of all his usual attendants no Virgin Mary no John the Baptist no Mary Magdalene with nothing separating him from Luther preaching the Word and his parishioners And while the Holy Spirit is nowhere to be seen representation of the divine being impossible it is nonetheless dramatically present as the force animating Christ's drapery According to Koerner it is this iconoclasm that animates the best Reformation art Insightful and breathtakingly original *The Reformation of the Image* compellingly shows how visual art became indispensable to a religious movement built on words

The Reformation of the Image Joseph Leo Koerner, 2004-02-27 In *The Reformation of the Image* Joseph Leo Koerner examines the images used in Protestant church services during the period of their definition by Martin Luther

Reformations of the Body J. Waldron, 2013-02-12 This project takes the human body and the bodily senses as joints that articulate new kinds of connections between church and theatre and overturns a longstanding notion about theatrical phenomenology in this period

Seeing Faith, Printing Pictures: Religious Identity During the English Reformation David J. Davis, 2013-02-15 This book offers a unique analysis of visual religion in Reformation England as seen in its religious printed images Challenging traditional notions of an iconoclastic Reformation it offers a thorough analysis of the widespread body of printed images and the ways the images gave shape to the religious culture

In the Beginning Was the Image David H. Price, 2020-11-20 A visual transformation of the Bible took place in the Renaissance and Reformation Initially this occurred as a result of technological advances for the printing press proliferated biblical texts and images on a previously unimaginable scale Equally important Reformation theology though also a threat to art served as a catalyst for the creation of innovative biblical iconography In *In the Beginning Was the Image* demonstrates the pivotal role that the defining artists of the Northern Renaissance Albrecht Dürer Lucas Cranach and Hans Holbein played in the reformation of the Bible and the biblical transformation of Protestant art

"The Netherlandish Image after Iconoclasm, 1566-1672" Mia M.

Mochizuki,2017-07-05 Debunking the myth of the stark white Protestant church interior this study explores the very objects and architectural additions that were in fact added to Netherlandish church interiors in the first century after iconoclasm In charting these additions Mia Mochizuki helps explain the impact of iconoclasm on the cultural topography of the Dutch Golden Age and by extension permits careful scrutiny of a decisive moment in the history of the image Focusing on the Great or St Bavo Church in Haarlem this interdisciplinary book draws on art history history and theology to look at the impact of iconoclasm and reformation on the process of image making in the early modern Netherlands The new objects that began to appear in the early Dutch Reformed Church signaled a dramatic change in the form function and patronage of church art and testified to new roles for church government guild and resident Each chapter in the book introduces a major theme of the nascent Protestant church interior the Word made material the Word made memorial and the Word made manifest which is then explored through the painting sculpture and architecture of the early Dutch Reformed Church The text is heavily illustrated with images of the objects under discussion many of them never before published A large number of these images are from the camera of prize winning photographer Tjeerd Frederikse with additional photography courtesy of E A van Voorden This book unveils defines and reproduces a host of images previously unaddressed by scholarship and links them to more familiar and long studied Dutch paintings It provides a religious art companion to general studies of Dutch Golden Age art and lends greater depth to our understanding of iconoclasm as well as the way in which cultural artifacts and religious material culture reflect and help to shape the values of a community Taking up the challenge of an unusual category of objects for visual analysis this *Forgery, Replica, Fiction* Christopher S. Wood,2008-08-15 Credulity Reference by artifact Germany and Renaissance Forgery Replica Fiction Re enactment **Images, Idolatry, and Iconoclasm in Late Medieval England** Jeremy Dimmick,James Simpson,Nicolette Zeeman,2002-02-14 This book capitalizes on brilliant recent work on sixteenth century iconoclasm to extend the study of images both their making and their breaking into an earlier period and wider discursive territories Pressures towards iconoclasm are powerfully registered in fourteenth and fifteenth century writings both heterodox and orthodox just as the use of images is central to the practice of both politics and religion The governance of images turns out indeed to be central to governance itself It is also of critical concern in any moment of historical change when new cultural forms must incorporate or destroy the images of the old order The iconoclast redescribes images as pure matter objects of idolatry worthy only of the hammer Issues of historical memory no less than of social ethics are then inherent to the making love and destruction of images These issues are the consistent concern of the essays of this volume essays commissioned from a range of outstanding late medievalists in a variety of disciplines literature art history Biblical studies and intellectual history A Magnificent Faith Bridget Heal,2017-08-04 A Magnificent Faith explains how and why Lutheranism a confession that derived its significance from the promulgation of God s Word became a visually magnificent faith a faith whose adherents sought to captivate Christians hearts and minds through seeing as well as

through hearing Although Protestantism is no longer understood as an exclusively word based religion the paradigm of evangelical ambivalence towards images retains its power This is the first study to offer an account of the Reformation origins and subsequent flourishing of the Lutheran baroque of the rich visual culture that developed in parts of the Holy Roman Empire during the later seventeenth and early eighteenth centuries The volume opens with a discussion of the legacy of the Wittenberg Reformation Three sections then focus on the confessional devotional and magnificent image exploring turning points in Lutherans attitudes towards religious art Drawing on a wide variety of archival printed and visual sources from two of the Empire s most important Protestant territories Saxony the heartland of the Reformation and Brandenburg A Magnificent Faith shows the extent to which Lutheran culture was shaped by territorial divisions It traces the development of a theologically grounded aesthetic and argues that images became prominent vehicles for the articulation of Lutheran identity not only amongst theologians but also amongst laymen and women By examining the role of images in the Lutheran tradition as it developed over the course of two centuries A Magnificent Faith offers a new understanding of the relationship between Protestantism and the visual arts

Between the Image and the Word Trevor Hart, 2016-04-15 The central contention of Christian faith is that in the incarnation the eternal Word or Logos of God himself has taken flesh so becoming for us the image of the invisible God Our humanity itself is lived out in a constant toing and froing between materiality and immateriality Imagination language and literature each have a vital part to play in brokering this hypostatic union of matter and meaning within the human creature Approaching different aspects of two distinct movements between the image and the word in the incarnation and in the dynamics of human existence itself Trevor Hart presents a clearer understanding of each and explores the juxtapositions with the other Hart concludes that within the Trinitarian economy of creation and redemption these two occasions of flesh taking are inseparable and indivisible
