

Introduction

Peptic stress ulcers are said to be caused by an increase in stress among other factors. Primarily, ulceration of the stomach lining is caused by the *Helicobacter Pylori* infection or the use of Nonsteroidal anti-inflammatory drugs. Some studies have shown that psychological stress is one of the causes of stomach ulcers while some refute these claims by stating that stomach ulcers are caused by the bacteria and that stress aggravates as opposed to being the root cause. To be able to answer these questions, the paper is an annotated bibliography that will provide insight into the occurrence of stomach ulcers in individuals and the causes of this ulceration. Psychological stress can, however, be perceived as one of the causes of stomach ulceration in individuals.

The sources of the following studies are from credible databases, and they have been peer reviewed which helps in validating the information provided in the studies. Some of the problems encountered in the writing of the paper was being able to select the studies that relate to the topic, and thus the use of an inclusion criterion was helpful.

Levenstein, S., Rosenstock, S., Jorgensen, T., & Kart, R. (2015). Psychological Stress Increases Risk for Peptic Ulcer, Regardless of *Helicobacter Pylori* Infection or Use of Nonsteroidal Anti-inflammatory Drugs. *Clinical Gastroenterology and Hepatology*, 13(3), 498-506.

Refugees Gender And Human Security A Theoretical Introduction And Annotated Bibliography:

Refugees, Gender and Human Security Ellen Lammers, 1999 The concept of gender **Human Security and International Law** Barbara von Tigerstrom, 2007-12-12 The concept of human security has influenced discourse and practice and has been the subject of vigorous debate Despite its relevance to central questions of international law human security has until recently received little attention from international lawyers This book has two related goals to evaluate human security as a concept that could be used in the analysis of international law and to determine what insights about a human security approach might be gained by considering it from the perspective of international law The first part of the book examines the evolution and meanings of the concept and its links with existing theories and principles of international law The second part explores the ways in which human security has been and could be used in relation to the diverse topics of humanitarian intervention internally displaced persons small arms control and global public health The analysis sheds new light on debates about the concept s potential and limitations **Gender, Movement and Safety** Jasmin Lilian Diab, 2019-02-18 This book looks into the sexual assault of irregular illegal immigrant women and girls throughout their arrival to the European Union borders and borderlands between the period of 2011 and 2018 through an Intersectional lens It intends to analyze this sensitive human rights issue through grasping the cultural obstacles and procedures at European borders which have fueled the violation of this fragile migrant group s human rights while also supporting this argument with academic research statistical data and reports on irregular migration from international and regional organizations security mechanisms at borders and statistics on sexual abuse and exploitation during the aforementioned period It intends to explore the manner in which several factors and developments at European borders and in the borderlands have resulted in a more dangerous migration journey for these women and girls as well as the manner in which these developments further perpetuate the likelihood of sexual violence of migrants and female migrants in particular This book aims to comprehend the linkages between academic research and the supporting statistical information through the lens of Intersectionality Theory a theory which will allow for the issue to be tackled across its different layers and across all the intersections and overlaps these layers create This book highlights multiple instances of sexual violence throughout the journey and upon arrival of these migrant women and girls to the European borders and borderlands and subsequently emphasizes that these events further perpetuate the vulnerability to sexual assault for irregular migrant women due to the very illegal nature of their journeys Through this lens this process is examined across power dynamics security legal status and gender Through examining these realities and power systems it becomes evident that this particularly vulnerable group of women and girls from developing countries escaping war economic burdens and conflict are ostracized and subordinated in a number of interconnected patterns This book highlights a need for more gender sensitive policies because the group of women in question has close to no viable resource for justice within a system that currently acts against them and views them as

criminal or illegal *The Search for Lasting Peace* Rosalind Boyd, 2016-02-17 Presenting the human security agenda as a policy response to the changing nature of violent conflicts and war this collection traces its evolution in relation to conflicts in different contexts Burma India Palestine Canada East Timor Guatemala Peru and African countries and from the perspective of gender addresses initiatives for peace with justice Cases are analysed when the human security agenda including UNSC resolution 1325 was in its initial phase and point to both the weakness of the concept and the unexpected direction it has taken These discussions always relevant are more urgent than ever as gender based violence against women has increased resulting in new UNSC resolutions Some chapters suggest that militarism and economic globalization must be directly confronted Many of the contributors to the volume bridge the gap between academic research and activism as scholar activists with an engaged connection to the situations they are describing Human security remains an active component of policy and academic debates in security studies women s and gender studies development studies history and political economy as well as within NGO communities This rich collection fills a needed gap in the literature and it does so in a language and style that is clear accessible and reader friendly *Refugees and the Transformation of Societies* Philomena Essed, Georg Frerks, Joke Schrijvers, 2004-06-01 The refusal or reception of refugees has had serious implications for the social policies and social realities of numerous countries in east and west Exploring experiences interpretations and practices of refugees the internally displaced and returnees in or emerging from societies in violent conflict this volume challenges prevailing orthodoxies and encourages new developments in refugee studies It also addresses the ethics and politics of interventions by professionals and policy makers using case studies of refugees from or in South Asia the Middle East North Africa Europe and the Americas These illustrate the dynamic nature of situations where refugees policy makers and practitioners interact in trying to construct new livelihoods in transforming societies Without a proper understanding of this dynamic nature so the volume argues overall it is not possible to develop successful strategies for the accommodation and integration of refugees *A Reflexive Inquiry into Gender Research* Samantha Van Schalkwyk, 2016-01-14 Questions that concern gender and violence against women have been placed firmly on the agenda of interdisciplinary research within the humanities in recent years Gender based violence against women has increased exponentially in South Africa and in other countries on the African continent particularly those with a history of political conflict Researchers who explore such gender issues have paid limited attention to the intersection between the social contexts of the researched the positionality of the researcher and the research product This book brings together an interdisciplinary group of scholars and scholar activists to explore new terrains of knowledge production interrogating the connection between the intellectual project of this kind of research and the process of its production Some chapters draw on theoretical insights and provide new ways of thinking about the kinds of questions that should be asked when conducting research in the field of gender Other authors grapple with an acknowledgement of their multiple social positions in the world the ways in which they experience these ever shifting

boundaries and how this influences their theoretical and practical work Some contributions go further discussing the ways in which the researcher and the researched influence each other and the link between feminist research and social change These chapters contribute to an understanding of how social movement activism can be developed Overall this book represents an important combination of scholarly insights and provides multiple reflections about practical aspects of conducting gender research in the African context The work of the contributors to the volume is situated within a post structural feminist agenda and collectively the chapters link scholarship and activism in a way that pursues a social change agenda in research on gender and gender based violence Handbook of New Security Studies J. Peter Burgess,2010-01-22 This new Handbook gathers together state of the art theoretical reflection and empirical research by a group of leading international scholars relating to recent transformations in the field of security studies **The Rise and Decline of a Global Security Actor** Anne Hammerstad,2014-02-20 The Rise and Decline of a Global Security Actor investigates the rise of the United Nations High Commissioner for Refugees UNHCR as a global security actor It follows the refugee agency through some of the past two decades major conflict induced humanitarian emergencies in northern Iraq 1991 Bosnia 1991 95 eastern Zaire 1994 96 Kosovo 1998 99 Afghanistan 2001 and Iraq 2003 It analyses UNHCR s momentous transformation from a small timid legal protection agency to the world s foremost humanitarian actor playing a central role in the international response to the many wars of the tumultuous last decade of the 20th century Then as the 21st century set in the agency s political prominence waned It remains a major humanitarian actor whose budgets and staffing levels continue to rise But the polarised post 9 11 period and a worsening protection climate for refugees and asylum seekers spurred UNHCR to abandon its claim to be a global security actor and return to a more modest quietly diplomatic role The rise of UNHCR as a global security actor is placed within the context of the dramatic shift in perceptions of national and international security after the end of the Cold War The Cold War superpower struggle encouraged a narrow strategic military understanding of security In the more fluid and unpredictable post Cold War environment a range of new issues were introduced to states security agendas Prominent among these were the perceived threats posed by refugees and asylum seekers to international security state stability and societal cohesion This book investigates UNHCR s response to this new international environment adopting adapting and finally abandoning a security discourse on the refugee problem Transnational America Inderpal Grewal,2005-06-28 A study of South Asian Americans which views both their identity and that of America as constructed transnationally between the U S and India **Green Harms and Crimes** R. Sollund,2016-01-12 The book presents discussions of the application of Stan Cohen s theories alongside empirical contributions in the fields of critical and green criminology Taken together the authors critically address harms and crimes against the environment as well as against human and nonhuman victims
