American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography, 1978

Roosevelt and World War II Robert A. Divine, 1969 American Book Publishing Record, 1985 **Appeasement in International Politics** Stephen R. Rock, 2021-03-17 Since the 1930s appeasement has been labeled as a futile and possibly dangerous policy In this landmark study Stephen Rock seeks to restore appeasement to its proper place as a legitimate and potentially successful diplomatic strategy Appeasement was discredited by Neville Chamberlain's disastrous attempt to satisfy Adolf Hitler's territorial ambitions and avoid war in 1938 Rock argues however that there is very little evidence to support the belief that dissatisfied states and their leaders cannot be appeased or that appeasement undermines a state's credibility in later attempts at deterrence Rock looks at five case studies from the past 100 years revealing under what conditions appeasement can achieve its goals From British appeasement of the United States near the beginning of the twentieth century to American conciliation of North Korea in the early 1990s Rock concludes that appeasement succeeds or fails depending on the nature of the adversary the nature of the inducements used on the antagonist and the existence of other incentives for the adversary to acquiesce Appeasement in International Politics suggests the type of appeasement strategy most appropriate for various situations The options range from pure inducements reciprocity to a mixture of inducements and threats In addition to this theoretical framework Rock's explicit comparison of appeasement and deterrence offers important guidelines for policymakers on when and how to implement a strategy of appeasement At a time when the strategy of engagement plays an increasingly central and controversial role in U S foreign policy Appeasement in International Politics reestablishes the long discredited use of inducements as an effective means of preventing conflict

Hitler's Ambivalent Attaché Alfred M. Beck, 2014-05-27 Friedrich von Boetticher was Germany's only military attaché accredited to the United States between the world wars As such he was Germany's official military observer in the capital of the nation whose potential as an ally of those powers arrayed against Adolf Hitler in the 1930s might have given the dictator pause in any predatory plans he harbored against his neighbors Though von Boetticher produced a rich and detailed commentary on military and political affairs in Washington in the eight years prior to the outbreak of war between Germany and the United States in 1941 he was nonetheless accused after the war of misjudging America's productive potential and misleading Hitler with overly optimistic reports As Alfred M Beck points out what he actually told German authorities in Berlin is strikingly different from what his detractors later claimed Von Boetticher permits a glimpse into the sociology of a conservative officer caste at once assailed by the politics of a regime and the impossibilities imposed on it its weaknesses in resisting its evils and its eventual failure to present an alternative to National Socialism's illusory attractions A loyal German von Boetticher had strong ties to America His mother was American born he spoke English fluently and he was enamored of American military history He was also anti-Semitic and believed that Jewish wire pullers had undue influence over the U S

government and its policies His professional ties to U S Army officers in the War Department were so strong supplying them for example with details on German air strength and operations during the Battle of Britain in 1940 that they survived until August 1941 and long after the German ambassador himself had been recalled Torn between his duty to Germany though the Nazi regime had attempted to harm his son and his deep affection for America von Boetticher stood among the broad middle range of German officials who were neither perpetrator nor victim *Reader's Guide to American History* Peter J. Parish,1997 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company The Publishers Weekly ,1908 **Biographical Books, 1950-1980** R.R. Bowker Company. Department of Bibliography,1980 Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office,1949 Writings on American History ,1910
