**Surrealism and Architecture** Thomas Mical, 2005 Twenty one essays examining the relationship of

surrealist thought to architectural theory and practice      *Racing the Sunset* Scott Tinley, 2015-04-21 A seventh generation Californian Scott Tinley led the quintessential Golden State dream As he grew from beach rat to lifeguard to a recreational administration major it seemed only natural to him that he would try to parlay the athletic skills gleaned from this idyllic lifestyle into a profession as one of the best triathletes in the world For twenty years his skill tenacity and devil may care attitude guided him along the path But when age took hold of his legs and no amount of training would help his athletic gold rush went bust Cracks in his psyche began to show as if beneath it all like much of California itself his athletic life had been built on a fault Always introspective and inquiring Tinley threw himself headlong into athlete retirement and the larger issues of life transition and change His new journey driven by his quest for personal growth and healing was filled with pain false starts and heartrending intimacies It led him to hundreds of other retired professional athletes who would openly discuss their own triumphs and tragedies With much discipline Tinley completed one of the most thorough athlete research projects ever attempted and befriended such superstars as Bill Walton Eric Heiden Greg LeMond Jerry Sherk Steve Scott and Rick Sutcliffe Along the way he uncovered secrets about himself and the process of change turmoil and final acceptance all shared openly and eloquently in *Racing the Sunset* This book will do for athletes of every level what *Passages* did for an entire generation Skyhorse Publishing as well as our Sports Publishing imprint is proud to publish a broad range of books for readers interested in sports books about baseball pro football college football pro and college basketball hockey or soccer we have a book about your sport or your team In addition to books on popular team sports we also publish books for a wide variety of athletes and sports enthusiasts including books on running cycling horseback riding swimming tennis martial arts golf camping hiking aviation boating and so much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home      *Invasion of the Mind Snatchers* Eric Burns, 2010-06-17 When the first television was demonstrated in 1927 a headline in The New York Times read Like a Photo Come to Life It was a momentous occasion But the power of television wasn't fully harnessed until the 1950s when the medium was as Eric Burns says At its most preoccupying its most life altering And Burns a former NBC News correspondent who is an Emmy winner for his broadcast writing knows about the impact of television *Invasion of the Mind Snatchers* chronicles the influence of television that was watched daily by the baby boomer generation As kids became spellbound by *Howdy Doody* and *The Ed Sullivan Show* Burns reveals they often acted out their favorite programs Likewise they purchased the merchandise being promoted by performers and became fascinated by the personalities they saw on screen often emulating their behavior It was the first generation raised by TV and Burns looks at both the promise of broadcasting as espoused by the inventors and how that promise was both redefined and lost by the corporations who helped to spread the technology Yet Burns also contextualizes the social cultural and political events that helped shape the Fifties from Sputnik

and the Rosenberg trial to Senator Joseph McCarthy's Red Scare. In doing so he charts the effect of television on politics, religion, race, and sex, and how the medium provided a persuasive message to the young impressionable viewers. The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06. In both the literal and metaphorical senses it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis caused in part by U.S. dependence on Arab oil characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution in which women, gays, and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements, as well as the issue of abortion, introduced a new facet into American political life. The rise of powerful politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film, as well as the birth of the Hollywood blockbuster. He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a reflection of and an escape from the problems gripping the country. **Handbook of**

**Twentieth-Century Literatures of India** Nalini Natarajan, 1996-09-09. India has a rich literary assemblage produced by its many different regional traditions, religious faiths, ethnic subcultures, and linguistic groups. The published literature of the 20th century is a particularly interesting subject and is the focus of this book, as it represents the provocative conjuncture of the transitions of Indian modernity. This reference book surveys the major regional literatures of contemporary India in the context of the country's diversity and heterogeneity. Chapters are devoted to particular regions, and the arrangement of the work invites comparisons of literary traditions. Chapters provide extensive bibliographies of primary works, thus documenting the creative achievement of numerous contemporary Indian authors. Some chapters cite secondary works as well, and the volume concludes with a list of general works providing further information. An introductory essay overviews theoretical concerns, ideological and aesthetic considerations, developments in various genres, and the history of publishing in regional literatures. The introduction provides a context for approaching the chapters that follow, each of which is devoted to the

literature of a particular region Each chapter begins with a concise introductory section The body of each chapter is structured according to social and historical events literary forms or broad descriptive or analytic trends depending on the particular subject matter Each chapter then closes with an extensive bibliography of primary works thus documenting the rich literary tradition of the region Some chapters also cite secondary sources as an aid to the reader The final chapters of the book address special topics such as sub cultural literatures or the interplay between literature and film A list of additional sources of general information concludes the volume
