

To Enter Row Titles

The next step in developing the worksheet for this project is to enter the row titles in column A. For the Personal Budget Worksheet data, the row titles contain a list of income types and expense types. Each income or expense item should be placed in its own row. *Why? Entering one item per row allows for maximum flexibility, in case more income or expense items are added in the future.* The following steps enter the row titles in the worksheet.

1

- Click cell A4 to select it.
- Type **Wages** and then click cell A5 or press the **Down Arrow** key to enter a row title (Figure 1-12).

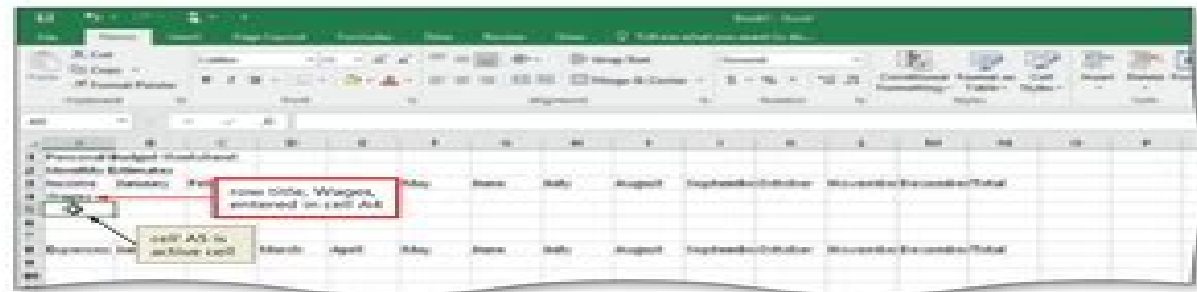

Figure 1-12

2

- Repeat Step 1 to enter the remaining row titles in column A; that is, enter **Dividends** in cell A5, **Total** in cell A6, **Rent** in cell A9, **Food** in cell A10, **Tuition** in cell A11, **Books** in cell A12, **Entertainment** in cell A13, **Car Payment** in cell A14, **Gas** in cell A15, **Miscellaneous** in cell A16, **Total** in cell A17, and **Net** in cell A19 (Figure 1-13).

Q&A

Why is the text left-aligned in the cells? Excel automatically left-aligns the text in the cell. Excel treats any combination of numbers, spaces, and nonnumeric characters as text. For example, Excel would recognize the following entries as text: 401AX21, 921-231, 619-321, 883XTY. How to change the text alignment in a cell is discussed later in this module.

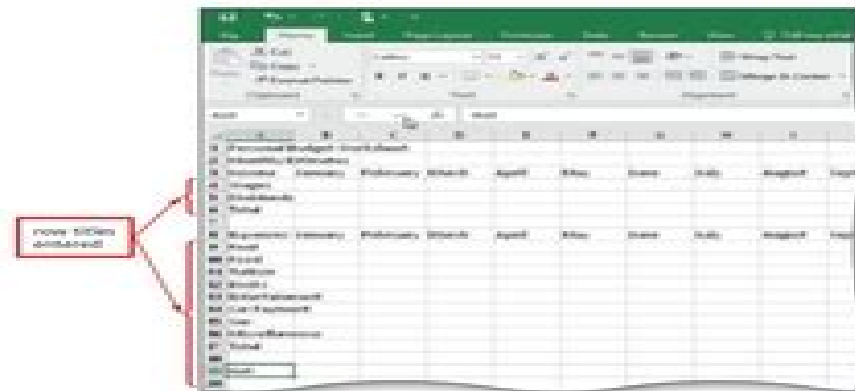

Figure 1-13

Entering Numbers

In Excel, you enter a **number** into a cell to represent an amount or value. A number can contain only the following characters:

0 1 2 3 4 5 6 7 8 9 + - () , / . \$ % E e

If a cell entry contains any other keyboard character (including spaces), Excel interprets the entry as text and treats it accordingly. The use of special characters is explained when they are used in this book.
