Shrines Of Power:

Power and Place Gregory Stevenson, 2012-08-06 Archaeological epigraphic numismatic and historical research is used to illuminate the meaning and function of temples in both Jewish and Greco Roman cultures This evidence is then brought into a dialogue with a literary analysis of how the temple functions as a symbol in Revelation

The Gates of Power Mikael S. Adolphson, 2000-07-01 The political influence of temples in premodern Japan most clearly manifested in divine demonstrations where rowdy monks and shrine servants brought holy symbols to the capital to exert pressure on courtiers has traditionally been condemned and is poorly understood In an impressive examination of this intriguing aspect of medieval Japan the author employs a wide range of previously neglected sources to argue that religious protest was a symptom of political factionalism in the capital rather than its cause It is his contention that religious violence can be traced primarily to attempts by secular leaders to rearrange religious and political hierarchies to their own advantage thereby leaving disfavored religious institutions to fend for their accustomed rights and status In this context divine demonstrations became the preferred negotiating tool for monastic complexes For almost three centuries such strategies allowed a handful of elite temples to maintain enough of an equilibrium to sustain and defend the old style of rulership even against the efforts of the Ashikaga Shogunate in the mid fourteenth century By acknowledging temples and monks as legitimate co rulers The Gates of Power provides a new synthesis of Japanese rulership from the late Heian 794 1185 to the early Muromachi 1336 1573 eras offering a unique and comprehensive analysis that brings together the spheres of art religion ideas and politics in medieval Japan

Religion, Power, and the Rise of Shinto in Early Modern Japan Stefan Köck, Brigitte Pickl-Kolaczia, Bernhard Scheid, 2021-04-08 This book sheds new light on the relationship between religion and state in early modern Japan and demonstrates the growing awareness of Shinto in both the political and the intellectual elite of Tokugawa Japan even though Buddhism remained the privileged means of stately religious control The first part analyses how the Tokugawa government aimed to control the populace via Buddhism and at the same time submitted Buddhism to the sacralization of the Tokugawa dynasty The second part focuses on the religious protests throughout the entire period with chapters on the suppression of Christians heterodox Buddhist sects and unwanted folk practitioners The third part tackles the question of why early Tokugawa Confucianism was particularly interested in Shinto as an alternative to Buddhism and what Shinto actually meant from a Confucian stance The final part of the book explores attempts to curtail the institutional power of Buddhism by reforming Shinto shrines an important step in the so called Shintoization of shrines including the development of a self contained Shinto clergy

Missiology with Power Charles H. Kraft, 2024-12-31 Healing the sick bringing freedom from evil spirits proclaiming the good news of the kingdom of God these instructions are the core of what Jesus commanded the Twelve and seventy to do as he sent them out on mission Missiology the study of mission explores how the good news of the kingdom of God and of Jesus is communicated across cultures Many involved in mission have found that this communication

requires more than words it also entails visible demonstrations of God's power to heal set people free from spiritual oppression and challenge unbiblical adherence to harmful animistic and folk practices This book by renowned missiologist Charles H Kraft explores what missiology informed by and infused with Jesus centered spiritual power looks like It is packed with insights based on a lifetime of practical experience field research and biblical reflection In *Missiology with Power* Kraft addresses topics such as spiritual power and authority ways cultures see invisible spiritual realities and how Jesus can be followed in culturally relevant ways that also challenge and change unbiblical traditional beliefs in magic divination cursing worship of spirits and other related practices Exceedingly practical and challenging this short work Kraft's final book does not disappoint

Architecture, Power, and Religion David Warburton, 2012 This book explores the fundamental question of the origins and nature of monumental religious architecture The principal argument is that the origins of monumental religious architecture were basically aspatial and that the gradual incorporation of functional space into religious architecture can be related to transformations in religious thought Although the discussion ranges across the Old World the argument centers on Egypt and the Egyptian female king Hatshepsut she set the tone for the New Kingdom by tying her legitimacy to Amun and the monuments she built for him This leads into the issues of power and political legitimacy and their relevance to myths The basic contention is that the political ideologies of the Near Eastern Bronze Age contributed fundamentally to what later became the phenomenon we know as religion and that the history of the architecture must be understood in order to understand both religion and architectural space Series Articles on Archaeology *Beitrage zur Archäologie* Vol 7

Schulte Nordholt,2010-01-01 Note This title was out of print Re issued in its original form in 2010 The first comprehensive history of Balinese politics from the middle of the 17th century till the end of Dutch colonial rule in 1942 Based on extensive research in colonial archives in the Netherlands and Indonesia a variety of Balinese historical narratives interviews with former colonial officials as well as many Balinese and fieldwork data concerning temples rituals and oral histories Schulte Nordholt traces Balinese history by means of a collective biography of the Mengwi dynasty describing the rise to power the formation and expansion of a negara the subsequent crises and its fall in 1891 Between 1906 and 1942 Bali became part of the Dutch colonial state and experienced bureaucratic rule and processes that resulted in a traditionalization of Balinese kingship and culture The story of the Mengwi dynasty under colonial rule ended in a conflict between two factions This conflict had an unexpected but devastating outcome

Itineraries of Power Terry Kawashima,2020-05-11 Movements of people and groups through travel migration exile and diaspora are central to understanding both local and global power relationships But what of more literary moves textual techniques such as distinct patterns of narrative flow abrupt leaps between genres and poetic figures that flatten geographical distance This book examines what happens when both types of tropes literal traversals and literary shifts coexist Itineraries of Power examines prose narratives and poetry of the mid Heian to medieval eras 900 1400 that conspicuously feature tropes of movement Terry Kawashima argues that the appearance of a character's physical motion alongside literary techniques identified with motion is a textual signpost in a story urging readers to focus on how the work conceptualizes relations of power and claims to authority From the gendered intersection of register shifts in narrative and physical displacement in the Heian period to a dizzying tale of travel retold multiple times in a single medieval text the motion in these works gestures toward internal conflicts and alternatives to existing structures of power The book concludes that texts crucially concerned with such tropes of movement suggest that power is always simultaneously manufactured and dismantled from within **The Power of the Buddhas** sem Versmeersch,2020-03-17 Buddhism in medieval Korea is characterized as State Protection Buddhism a religion whose primary purpose was to rally support supernatural and popular for and legitimate the state In this view the state used Buddhism to engender compliance with its goals A closer look however reveals that Buddhism was a canvas on which people projected many religious and secular concerns and desires This study is an attempt to specify Buddhism's place in Koryo and to ascertain to what extent and in what areas Buddhism functioned as a state religion Was state support the main reason for Buddhism's dominance in Koryo How actively did the state seek to promote religious ideals What was the strength of Buddhism as an institution and the nature of its relationship to the state What role did Confucianism the other state ideology play in Koryo This study argues that Buddhism provided most of the symbols and rituals and some of the beliefs that constructed an aura of legitimacy but that there was no single ideological system underlying the Koryo dynasty's legitimating strategies *The Power of Religion in Late Antiquity* Andrew Cain,Noel

Emmanuel Lenski, 2009-01-01 Late Antiquity witnessed a dramatic recalibration in the economy of power and nowhere was this more pronounced than in the realm of religion The transformations that occurred in this pivotal era moved the ancient world into the Middle Ages and forever changed the way that religion was practiced The twenty eight studies in this volume explore this shift using evidence ranging from Latin poetic texts to Syriac letter collections to the iconography of Roman churches and Merovingian mortuary goods The kaleidoscope of perspectives they provide creates a richly illuminating volume that add a new social and political dimension to current debates about religion in Late Antiquity **History and**

Magical Power in a Chinese Community P. Sangren, 1987-09-01 This book is a case study of history and culture in the Taiwanese town of Ta ch i and the group of rural villages that constitute its standard marketing community However its scope exceeds that of most community studies The author attempts to construct a holistic view of Chinese culture from an analysis of the relationship between history and ritual in a particular locality The author argues that social institutions and collective representations are dialectically connected in the process of social and cultural reproduction He describes this dialectical process through an analysis of the key cultural concept of ling the magical power attributed to ghosts gods and ancestors In analyzing the symbolic logic of ling he asserts that it can be fully understood only as a product of the reproduction of social institutions and as a manifestation of a native historical consciousness Structuralist and Marxist insights are combined to explain how ling is best understood as both a cultural logic of symbolic relations and a material logic of social relations The book is in three parts Part I is a social and economic history that outlines what one might call an objectivist or positivist view of Ta ch i s history describing events as they were regardless of the perceptions of local participants This material is a background to the synchronic sociological analysis of local territorial cults that constitutes Part II In Part III the author unsettles the objectivist assumptions of Part I by showing how the idiom of ling underlies Taiwanese constructions of history and identity and how the cultural construction of history dialectically reproduces society and creates history The book is illustrated with 8 pages of photographs 17 line drawings and 9 maps **Land, Power, and**

the Sacred Janet R. Goodwin, Joan R. Piggott, 2018-07-31 Landed estates sh en produced much of the material wealth supporting all levels of late classical and medieval Japanese society During the tenth through sixteenth centuries estates served as sites of de facto government trade network nodes developing agricultural technology and centers of religious practice and ritual Although mostly farmland many yielded nonagricultural products including lumber salt fish and silk and provided livelihoods for craftsmen seafarers peddlers and performers as well as for cultivators By the twelfth century an estate system permeated much of the Japanese archipelago This volume examines the system from three perspectives the land itself the power derived from and exerted over the land and the religion institutions and individuals that were involved in landholding practices Chapters by Japanese and Western scholars explore how the estate system arose developed and eventually collapsed Several investigate a single estate or focus on agricultural techniques while others survey estates in

broad contexts such as economic change and maritime trade Other chapters look at how we learn about estates by inspecting documents landscape features archaeological remains and extant buildings and images how representatives of every social stratum worked together to make the land productive and conversely how cooperative arrangements failed and rivals battled one another making conflict as well as collaboration a hallmark of the system On a more personal level we follow the monk Ch gen s restoration of be Estate and his installation of a famous Amida triad in a temple he built on the premises the strategies of royal ladies J saimon in Hachij in and K kamon in as they strove to keep their landholdings viable and the murder of estate official Gor zaemon whose own neighbors killed him as a result of a much larger dispute between two powerful warrior families Land Power and the Sacred represents a significant expansion and revision of our knowledge of medieval Japanese estates A range of readers will welcome the primary source research and comparative perspectives it offers those who do not specialize in Japanese medieval history but recognize the value of teaching the history of estates will find a chapter devoted to the topic invaluable Contributors and translators Kristina Buhrma Michelle Damian David Eason Sakurai Eiji translated by Ethan Segal Philip Garrett Janet R Goodwin Yoshiko Kainuma Rieko Kamei Dyche Sachiko Kawai Hirota K ji translated by Janet R Goodwin yama Ky hei translated by Janet R Goodwin Nagamura Makoto translated by Janet R Goodwin End Motoo translated by Janet R Goodwin Joan R Piggott Ethan Segal Dan Sherer Kimura Shigemitsu translated by Kristina Buhrman Noda Taiz translated by David Eason Nishida Takeshi translated by Michelle Damian

The Power of the Bull Michael Rice, 2014-02-25 Everyone has heard of the Minotaur in the labyrinth on Crete and many know that the Greek gods would adopt the guise of a bull to seduce mortal women But what lies behind these legends The Power of the Bull discusses mankind s enduring obsession with bulls The bull is an almost universal symbol throughout Indo European cultures Bull cults proliferated in the Middle East and in many parts of North Africa and one cult Mithraism was the greatest rival to Christianity in the Roman Empire The Cults are divergent yet have certain core elements in common Michael Rice argues that the ancient bulls were the supreme sacrificial animal An examination of evidence from earliest prehistory onwards reveals the bull to be a symbol of political authority sexual potency economic wealth and vast subterranean powers In some areas representations of the bull have varied little from earliest times in others it has changed vastly over centuries This volume provides a well illustrated and accessible analysis of the exceptionally rich artistic inheritance associated with the bull

Kraft, 2017-05-18 Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary activity This fact attracted the attention of Alan Tippett who served for twenty years as an Australian missionary to the Fiji Islands What he found was that the key to their conversion lay in the fact that without missionary presence the south sea islanders responded to demonstrations of what Tippett learned to call power encounters These were contests some staged some not staged in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated Kraft here discusses the fact that this power principle applies much more widely Mao's Road to Power: Revolutionary Writings, 1912-49: v. 3: From the Jinggangshan to the Establishment of the Jiangxi Soviets, July 1927-December 1930 Zedong Mao, Nancy J. Hodes, 2018-04-17 This projected ten volume edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao's centenary **Constructions of Power and Piety in Medieval Aleppo** Yasser Tabbaa, 2010-11-01 Tabbaa argues that the intense palatial and religious architectural activity of the period was intended to create a royal image of the Ayyubid state while also fostering links between it and the urban population His study is based on an entirely new evaluation of the architectural and epigraphic aspects of the standing monuments of the period It presents for the first time full photographic coverage of these monuments as well as many new plans and other renderings and pays close attention to monumental inscriptions correcting and augmenting previous studies The book utilizes the full panoply of the available literary sources including topographies chronicles travel accounts and poetry *The Ordinance Power of the Japanese Emperor* Tomio Nakano, 1923 **Formation and Transformation of Power in Rural India** V.
