Shuffleboard Pilots The History Of The Womens Air Raid Defense In Hawaii 1941 1945:

Shuffleboard Pilots Candace A. Chenoweth, A. Kam Napier, 1991-11-01 Events surrounding the December 7th attack have been detailed in more than one hundred books countless articles Few of these resources however have touched upon the part played by Hawaii s civilian population none has detailed the work of the Women s Air Raid Defense an organization organized in the difficult early days of the war on what was literally the front line of battle Young local women military wives volunteered to replace soldiers who were needed for duty on other Pacific Islands Simply to have made the decision to remain in Hawaii in late December 1941 was an act of courage Defenseless: The Political Sabotage of Pearl Harbor Jack Lambert Norman Polmar, When these two authors combine their considerable experience the reader has to pay attention Naval Aviation News In 1999 by a vote of 52 to 47 the U S Senate cleared the names of Admiral Husband Kimmel and Lieutenant General Walter Short of blame for leaving Pearl Harbor vulnerable to attack According to the declaration Kimmel and Short had performed their duties competently and professionally and that America s losses at Pearl were not the result of dereliction of duty Revisionist historians have been trying for years to portray Short and Kimmel as innocent scapegoats However Major General Kenneth Bergquist is among the many witnesses who went to their graves crying foul but not before telling their stories to historians Jack Lambert and Norman Polmar This book combines the evidence of never before seen photos and documents Lambert s taped interviews with some of the last surviving witnesses exhaustive research of all remaining evidence Polmar s perspective as naval warfare commentator for the History Channel and Barry Levenson s legal experience trying cases before the U S Supreme Court to finally put the case of the tragic failure of command and dereliction of duty leading up to December 7 1941 to rest Senator Strom Thurmond called Kimmel and Short the final two victims of Pearl Harbor In reality was the last victim the truth The Hawaiian Journal of History ,1992 **The Written Record of Hawai'i's Women** ,2001 **Hawaii's War Years** Gwenfread Allen, 2021-05-25 When war struck December 7 1941 the people of Hawaii were not unprepared Within minutes after bombs fell on Pearl Harbor a well rehearsed disaster relief plan went into full operation Thousands of volunteers of all ages and races toiled selflessly to bring order out of chaos Even before the pall of smoke had died away air raid trenches had begun to crisscross lawns By nightfall windows were blacked out curfew stilled the darkness and citizen soldiers stood girded for a last ditch fight During the following tension ridden days the entire populace was fingerprinted and inoculated gas masks were issued and evacuation kits prepared Barbed wire entanglements taped windows sandbag barricades camouflaged buildings gas alarms everywhere were constant grim reminders of total war No other American community felt the tensions and shapeless fears the Islands knew during those first months after Pearl Harbor And as the Pacific war progressed no other American community felt its impact so much as Hawaii Headquarters area training staging and supply area repair base Hawaii served as the springboard of the Pacific offensive Hordes of troops and war workers deluged the Islands land and buildings were taken over by the armed forces

Controls of every type plagued businesses and individuals No phase of Island living was left untouched by the war Hawaii's War Years 1941-1945 the official history of Hawaii's dramatic part in World War II is a comprehensive unbiased account based on material collected over a six year period by the Hawaii War Records Depository Written by an Island newspaperwoman with the proper perspective for a subject of such scope the book does not attempt to render judgments It is primarily a book of record a straightforward presentation of facts **The Journal of Pacific History Bibliography** ,1988

Hawaii's War Years, 1941-1945 Gwenfread Elaine Allen,1950 Forthcoming Books Rose Arny,1992 **The Women's Air Raid Defense, 1941-1945** ,1986 Gracie and the Radar Girls Karen J. Moore,2022-09-10 Within weeks of the bombing at Pearl Harbor on December 7 1941 the military began a clandestine recruitment of intelligent brave and loyal women They were quickly and meticulously trained to take over a vital and top secret program that would be instrumental in winning the war They became known as the Women's Air Raid Defense WARD Grace Hudlow Gracie was just sixteen years old when World War II upturned life in America She struggled to understand the devastating loss of life The day before her eighteenth birthday her fiancé became a casualty of the war Not one to sit on the sidelines Gracie packed up her adventurous spirit and heart for service She left everything behind and boarded a Liberty ship to join an elite group of women serving on the island of Oahu in a covert underground tunnel code named LIZARD The Women with Silver Wings Katherine Sharp Landdeck,2020 The thrilling true story of the daring female aviators who helped the United States win World War II only to be forgotten by the country they served When Japanese planes executed a sneak attack on Pearl Harbor in December 1941 Cornelia Fort was already in the air At twenty two Cornelia had escaped Nashville's debutante scene for a fresh start as a flight instructor in Hawaii She and her student were in the middle of their lesson when the bombs began to fall and they barely made it back to ground that morning Still when the U S Army Air Forces put out a call for women pilots to aid the war effort Cornelia was one of the first to respond She became one of just over 1 100 women from across the nation to make it through the Army's rigorous selection process and earn her silver wings In *The Women with Silver Wings* historian Katherine Sharp Landdeck introduces us to these young women as they meet even tempered methodical Nancy Love and demanding visionary Jacqueline Cochran the trailblazing pilots who first envisioned sending American women into the air and whose rivalry would define the Women Airforce Service Pilots For women like Cornelia it was a chance to serve their country and to prove that women aviators were just as skilled and able as men While not authorized to serve in combat the WASP helped train male pilots for service abroad and ferried bombers and pursuits across the country Thirty eight of them would not survive the war But even taking into account these tragic losses Love and Cochran's social experiment seemed to be a resounding success until with the tides of war turning and fewer male pilots needed in Europe Congress clipped the women's wings The program was disbanded the women sent home But the bonds they'd forged never failed and over the next few decades they came together to fight for recognition as the military veterans they were and for their place in history

Hawaii's War Years, 1941-1945 ... Gwenfread Allen, 1949 7 December 1941 Leatrice R. Arakaki, John R. Kuborn, Pacific Air Force Office of History, 2011-01-01 An almost exhaustive volume of literature has described and analyzed the Japanese attack on the United States fleet at Pearl Harbor on December 7 1941 Yet despite the key role played by Japanese dominance of the air space over Oahu little has been published on the role of the Army Air Forces and its unpreparedness to accomplish its air defense mission In addition too few are aware of the nature and extent of the damage the Hawaiian Air Force sustained that day 7 December 1941 The Air Force Story recounts the tale of this valiant but outgunned and outmanned unit even as it attempts to explain why all of its available aircraft were unarmed and lined up like sitting ducks on the flight line at each base why all radar stations shut down on the morning of the attack and above all why the American air arm including ground observers and anti-aircraft units proved unable to protect the fleet The book begins with a look at the overall position of the Hawaiian Air Force before December 7 its leadership assigned personnel and aircraft and air defense system Next it examines in detail the three main air fields on Oahu Hickam Wheeler and Bellows and their duty training equipment and morale It then describes the actual attack from the perspective of each of the bases and concludes with a post mortem of the aftermath Stirring personal accounts of the attack and the courageous reaction of Army Air Forces personnel in the face of overwhelming odds bring home the terrible reality of total war In one case a witness describes pausing to lace in the lining of his World War I vintage helmet a stark example of how unprepared American forces were that day In another vignette this time of a rare victory an anti-aircraft unit shoots down two Japanese planes and almost downs an American B 17 7 December 1941 The Air Force Story is an indispensable account of a forgotten aspect of one of America's greatest military defeats and a significant contribution to the continuing debate on military preparedness prior to Pearl Harbor As such it is a must read for scholars and World War II buffs **7 December 1941** Leatrice R. Arakaki, 1991 Published by Superintendent of Documents US Government Printing Office Washington DC 20402 9328 for the Pacific Air Forces Office of History Hickam Air Force Base Hawaii Annotation copyrighted by Book News Inc Portland OR **Notes and References to Hawaii's War Years, 1941-1945** Gwenfread Elaine Allen, 1952 **Before and Beyond the Niihau Zero** Syd Jones, 2014 On the day of the attack on Pearl Harbor a battle damaged Japanese Zero landed on a remote privately owned Hawaiian island The Zero pilot survived for almost a week on what locals call the Forbidden Island assisted by a local worker while terrorizing the island's population before being killed by a native Hawaiian Though the air raid on December 7 1941 caught many by surprise the island's owner had actually begun preparations against the attack years earlier inspired by a remarkably accurate prophecy The wreckage of the Japanese plane was abandoned on the island but its legacy was not forgotten Sixty five years later the Zero and the story surrounding it became part of a new aviation museum in Hawaii The Zero display brought to the forefront what happened the day of the attack the conflict that ensued on the island in the days that followed while unexpectedly generating a modern controversy in the process In researching the existence of the Niihau

Zero the author was allowed unprecedented access to the Forbidden Island was able to interview its owners and inhabitants and arrange for the Zero artifacts to be placed on public display This book contains original reports as well as documents never before published that give unique perspectives into one of the most curious and thought provoking events of WWII

Kuborn, 2014-08-15 Includes 3 charts 7 tables and 137 photos December 7 1941 was by any assessment a devastating day The Hawaiian Air Force suffered a crippling blow but the genesis of recovery and final victory over the enemy emerged in the valor of those who weathered the onslaught and fought back with everything they had In the 50 years since then the attack has become a faded memory for some and to many members of the younger generation just another moment in history It deserves better understanding and commemoration however for this sudden damaging strike on our forces marked the beginning of America's involvement in a terrible global war that was massive in scope and destruction At Hickam Air Force Base reminders of the attack are still visible The tattered flag that flew over the base that fateful morning is encased and on display in the lobby of the Pacific Air Forces Headquarters building where bullet scarred walls serve as a constant reminder to never again be caught unprepared Memorial tablets surrounding the base flagpole pay tribute to those who sacrificed their lives for our country Our predecessors with their blood and sweat boldly wrote a major chapter of our military history We must never forget their story and the legacy of their experience that the price of freedom is eternal vigilance and readiness *Nancy Love and the WASP Ferry Pilots of World War II* Sarah Byrn Rickman, 2008 When the United States entered World War II the Army needed pilots to transport or ferry its combat bound aircraft across the United States for overseas deployment and its trainer airplanes to flight training bases Male pilots were in short supply so into this vacuum stepped Nancy Love and her Women's Auxiliary Ferrying Squadron WAFS Initially the Army implemented both the WAFS program and Jacqueline Cochran's more ambitious plan to train women to do many of the military's flight related jobs stateside By 1943 General Hap Arnold decided to combine the women's programs and formed the Women Airforce Service Pilots WASP with Cochran as the Director of Women Pilots Love was named the Executive for WASP *The Role of Female Pilots in World War II* Hallie Murray, 2019-12-15 When the United States became involved in World War II in 1941 only men were allowed to join the Air Force to fly planes in combat Two intrepid female pilots named Nancy Harkness Love and Jacqueline Cochran told the Air Force they believed that women aviators could help in other ways In 1943 through their efforts the Women Airforce Service Pilots was founded This exciting book highlights a few of the more than one thousand female aviators who created and went through this program including Love Cochran and Ann Baumgartner Carl the first woman to fly an Air Force fighter jet Women Pilots of World War II, Jean Hascall Cole, 1992 Collected by one of the forty nine members of class 44 W 2 Jean Hascall Cole's interviews with her former classmates document their valuable contribution to the history of women aviation and the military Women Pilots of World War II presents a rare look at the personal experiences of the Women Air Force

Service Pilots WASPs by recording the adventures from one of eighteen classes of women to graduate from the Army Air Forces flight training school during World War II This unique oral history verifies the flying accomplishments of these women pilots from as early as 1943 The women pilots of class 44 W 2 flew every type of aircraft including heavy bombers transports and pursuits Their experiences include crashes on takeoff midair collisions forced landings parachute jumps from sabotaged aircraft and many other exciting tales Women Pilots of World War II starts with their training at Avenger Field in Sweetwater Texas follows them to their bases and documents what happened once the WASP program was deactivated in December 1944 In conclusion the pilots speculate on the changing roles of women in our society the value of their service to their country and their contribution to the women s movement and society in general
