liberalism did not operate to advance freedom or equality for Indigenous people or protect their property. In reality it had a markedly debilitating effect on virtually every aspect of their lives. This book explores the operation of exclusionary liberalism between 1877 and 1927 in southern Alberta and the southern interior of British Columbia. In order to facilitate and justify liberal colonial expansion, Canada relied extensively on surveillance which operated to exclude and reform Indigenous people. By persisting in Anglo-Canadian liberal capitalist values, structures and interests as normal, natural and beyond reproach, it worked to exclude or restructure the economic, political, social and spiritual tenets of Indigenous cultures. Further surveillance identified which previously reserved lands established on fragments of First Nations territory could be further reduced by a variety of dubious means. While none of this preceded unchallenged surveillance, it served as well to mitigate against even if it could never completely neutralize opposition.

*The Burden of History* Elizabeth Furniss, 2011-11-01. This book is an ethnography of the cultural politics of Native/non-Native relations in a small interior BC city, Williams Lake, at the height of land claims conflicts and tensions. Furniss analyses contemporary colonial relations in settler societies, arguing that ordinary rural Euro-Canadians exercise power in maintaining the subordination of aboriginal people through common sense assumptions and assertions about history, society and identity, and that these cultural activities are forces in an ongoing contemporary system of colonial domination. She traces the main features of the regional Euro-Canadian culture and shows how this cultural complex is thematically integrated through the idea of the frontier. Key facets of this frontier complex are expressed in diverse settings: casual conversations among Euro-Canadians, popular histories, museum displays, political discourse, public debates about aboriginal land claims and ritual celebrations of the city's heritage. In each setting, Furniss shows how these cultural practices contribute to the marginalization of area Shuswap, Secwepemc, Tsilhqot'in, Chilcotin and Carrier peoples, and how area Native people are continually engaging in diverse and innovative modes of resistance to the dominant regional culture.

**A Time Before Deception** Thomas William Cooper, 1998 What was the real significance of war paint of the rituals of shamans of the mysterious communion with animals plants mountains and wild waters Looking beneath the surface of tribal communication this book is the first to focus on the myriad forms of traditional expression that were the outward manifestation of a sophisticated ethical and spiritual ecology that existed for millennia before contact with European culture Cooper describes practices of tribal cultures world wide and examines the communication ethic of the Dine Navajo of northern Arizona and the Shuswap people of British Columbia As this world of indigenous meaning opens to us so does the possibility that these groups may have originated from higher not more primitive cultures In an age when we find advertising deceptive entertainment violent and meaningless and politics laced with corruption we can learn rules for living from the deeper ethically grounded communication of Indigenous Peoples

**Copying People** Daniel Francis, 1996 Before the west was widely settled photographs provided the first glimpse white society had of the aboriginal people who occupied the hinterlands of the continent *Copying People* a phrase borrowed from the Haida of the Queen Charlotte Islands that means camera is a collection of historical photographs chosen from the vast number of images in museums and archives across North America Taken by professional photographers surveyors anthropologists civil servants and tourists these fascinating images show how early non Native photographers pictured First Nations people and influenced the outside world's perceptions of them Many of these photographs attempt to document the traditional Indian with their subjects dressed up in wigs costumes and other props provided by the photographer In an effort to record for posterity what they viewed as a doomed race the photographers helped construct the idea of the Indian in the collective mind of white society Other photographers used images of Native people for commercial purposes or pictured their subjects in suits and dresses hoping to appeal to an audience eager for evidence that Natives were becoming civilized Depicting Native societies under a great deal of stress at a time of tremendous change in their way of life and their environment the photographs also

reveal societies struggling to preserve their cultures and successfully adapting to new economic opportunities And despite what we might think of their motives many photographers produced images of remarkable power and enduring beauty Covering all of British Columbia the book represents the work of every important photographer dealing with aboriginal people in the province before World war II With 140 archival images Copying People offers a privileged glimpse of British Columbia s original inhabitants     Handbook of North American Indians: Plateau William C.
