Part one of the book discusses the link between cognition and the lexicon. Mainstream theories of lexical semantics are critically reviewed. Furthermore, this part provides an extensive description of the relevant data in German, including agentivity, causation, psychological predicates, and different types of diathesis alternations. Part two is devoted to the link between the lexicon and syntax. It develops a parallel model of grammatical derivation which allows the formulation of robust generalizations over thematic role assignment but at the same time acknowledges the relevance of other components in particular morpho-phonology and narrow syntax. The theory is applied to a wide range of German constructions, including modal infinitives, the present and gerundive participle, the past passive adjectival participle, verbal particles, auxiliary selection, and unaccusatives/reflexives. The book is of interest for students and scholars of lexical semantics for descriptive German linguistics and for linguists concerned with the development of the Minimalist Program.

Esoterik - die Suche nach dem Selbst Claudia Barth, 2014-03-15. Esoterische Angebote bieten Lebenshilfe. Sie dienen den Einzelnen dazu, in der flexiblen, hybriden Moderne zurechtzukommen. Sie fördern das Gefühl der Authentizität, liefern Erklärungen und Entlastung für Erfahrungen des Scheiterns und verschaffen scheinbare Erleichterung angesichts des Gefühls von Entfremdung und Selbstentfremdung. Neben einer Einführung in religionspsychologische Theorien stellt Claudia Barth auch eine Genealogie moderner Identitätsvorstellungen vor und macht anhand der Analyse von Gesprächen mit Esoterikern deutlich, welche Anstrengungen Menschen unternehmen, um unter diesen Anforderungen an das Subjekt zu bestehen.

European Romanticism Stephen Prickett, 2014-04-14 Romanticism was always culturally diverse Though English language anthologies have previously tended to see Romanticism as predominantly British the term itself actually originated in Germany where it became the banner of a Europe wide movement involving the profound intellectual and aesthetic changes which we now associate with modernity This anthology is the first to place British Romanticism within a comprehensive and multi lingual European context showing how ideas and writers interconnected across national and linguistic boundaries By reprinting everything in the original languages together with an English translation of all non English material in parallel on the opposite page it offers a new intellectual map of Romanticism Material is thematically arranged as follows Art Aesthetics The Self History Language Hermeneutics Theology Nature The Exotic Science While focusing on European texts the inclusion of essays on their North American and Japanese reception means that Romanticism can be seen as a global phenomenon influencing a surprising number of the ways in which the modern world sees itself
