Not yet Who wants to sit with it And see it for what it is Who wants to know they re not alone That their pain is at once unique and universal Belonging to them and everyone When we re thrown into the chaos of heartsickness we focus so much on the end The fact we are now unloved seems so much more important than the reality that we once were This book was born in the hours I ve waited for men to message me back and who never did In the years full of almost relationships I thought I cannot handle another rejection and then found myself turned down by someone I wasn t even sure I liked I wrote this book because I know what it is to feel fundamentally unlovable I knew when I was looking for Ana Patrick and Claire that their stories had to be true because within them would be nuances I d never noticed before and realities I couldn t have invented I didn t want to be limited by what I happened to know about love and loss I wanted to learn from people as I wrote injecting wisdom from different places and genders and ages into this book Weaving together these three true stories Jessie Stephens captures the painful but wholeheartedly universal experience of heartbreak Deeply relatable addictive to the very last page and powerfully human Heartsick reminds us that emotional pain can make us as it breaks us and that storytelling has the ultimate healing power In the solitude that reading a book demands one is forced to reflect on one s own life After all every time we explore others we re mostly just exploring ourselves These are their stories Ana s and Patrick s and Claire s But it is also my story and our story I trust within it you will find echoes of yourself *From Transplant to Transformation*

Louise Camilleri, 2014-08-14 From Transplant to Transformation is the personal journey that I took from 2 weeks after my son was born to the day I created a program to help myself deal with the stress of that overwhelming situation and eventually save my life I was well enough to donate part of my liver to my son but the stress of going through that process set me a little bit off balance mentally physically and spiritually The body is an amazing machine and like any machine you ve got to put the right stuff into it to get the most efficiency out of it When you treat it properly you get the results that were intended It s usually after it breaks down due to some form of stress that we finally take a peek inside or get someone else to do so and begin asking questions The body like a machine works at its best when everything is in balance It knows what to do and how to operate at the highest level in a stress free environment this balanced physical state is what I consider to be an individuals perfect state of health and wellness The place I needed to get back to and the reason for the creation of my program The body is superbly equipped to expel stresses that are anti body on the inside with the aid of our fabulous liver and on the outside with the aid of our remarkable skin Both of these organs are greatly affected by the toxins we expose them to daily and both when not functioning at their highest potential give us signs that the organism our being is at risk for an illness due to this dis ease My son Andrew is now a thriving young man entering his teens You will learn quite a bit from his story and from my journey along side him The 9 Principles of The Conscious Living Lifestyle are the end result of a blessing received by a mother and her little boy This inspired the desire to help others learn how to create balance in the body by de stressing it and maintaining that state of wellbeing with love and joy This leads to an individually unique yet perfect state of health

wellness and beauty that I wish you to have at all times especially if you are going through a very stressful time in hospital yourself or with someone you are caring for For more information about The Conscious Living Lifestyle program or Louise Camilleri Natural Health Beauty visit www.lcnatural.com and www.louisecamilleri.com New York Supreme Court ,
