Sicungana Runa The Other Side Of Development In Amazonian Ecuador:

Sicungana Runa Norman Earl Whitten (Jr.),1985 **The Napo Runa of Amazonian Ecuador** Michael

Uzendoski,2010-10-01 Michael Uzendoski's theoretically informed work analyzes value from the perspective of the Napo Runa people of the Amazonian Ecuador Based upon historical and archival research as well as the author's years of fieldwork in indigenous communities The Napo Runa of Amazonian Ecuador presents theoretical issues of value poetics and kinship as linked to the author's intersubjective experiences in Napo Runa culture Drawing on insights from the theory of gift and value Uzendoski argues that Napo Runa culture personifies value by transforming things into people through a process of subordinating them to human relationships While many traditional exchange models treat the production of things as inconsequential the Napo Runa understand production to involve a relationship with natural beings plants animals and spirits of the forest that they believe share spiritual substance or samai Value is the outcome of a complicated poetics of transformation by which things and persons are woven into kinship forms that define daily social and ritual life

Playing with Things Mary Weismantel,2021-08-17 Winner Association for Latin American Art Arvey Foundation Book Award 2022 More than a thousand years ago on the north coast of Peru Indigenous Moche artists created a large and significant corpus of sexually explicit ceramic works of art They depicted a diversity of sex organs and sex acts and an array of solitary and interconnected human and nonhuman bodies To the modern eye these Moche sex pots as Mary Weismantel calls them are lively and provocative but also enigmatic creations whose import to their original owners seems impossible to grasp In Playing with Things Weismantel shows that there is much to be learned from these ancient artifacts not merely as inert objects from a long dead past but as vibrant Indigenous things alive in their own inhuman temporality From a new materialist perspective she fills the gaps left by other analyses of the sex pots in pre Columbian studies where sexuality remains marginalized and in sexuality studies where non Western art is largely absent Taking a decolonial approach toward an archaeology of sexuality and breaking with long dominant iconographic traditions this book explores how the pots play jokes make babies give power and hold water considering the sex pots as actual ceramic bodies that interact with fleshly bodies now and in the ancient past A beautifully written study that will be welcomed by students as well as specialists Playing with Things is a model for archaeological and art historical engagement with the liberating power of queer theory and Indigenous studies

Images of Public Wealth or the Anatomy of Well-Being in Indigenous Amazonia Fernando

Santos-Granero,2015-11-26 What is considered a good life in contemporary societies Can we measure well being and happiness Reflecting a global interest on the topics of well being happiness and the good life in the face of the multiple failures of millennial capitalism Images of Public Wealth or the Anatomy of Well Being in Indigenous Amazonia deliberately appropriates a concept developed by classical economists to understand wealth accumulation in capitalist societies in order to denaturalize it and assess its applicability in non capitalist kin based societies Mindful of the widespread discontent

generated by the ongoing economic crisis in postindustrial societies as well as the renewed attempts by social scientists to measure more effectively what we consider to be development and economic success the contributors to this volume contend that the study of public wealth in indigenous Amazonia provides not only an exceptional opportunity to apprehend native notions of wealth poverty and the good life but also to engage in a critical revision of capitalist constructions of living well Through ethnographic analysis and thought provoking new approaches to contemporary and historical cases the book s contributors reveal how indigenous views of wealth based on the abundance of intangibles such as vitality good health biopower and convivial relations are linked to the creation of strong productive and moral individuals and collectivities differing substantially from those in capitalist societies more inclined toward the avid accumulation and consumption of material goods

speciosa Mescal Bean Sophora secundiflora Morning Glory Ipomoea Rivea spp Peyote Psilocybe Teonanacatl San Pedro Cactus Tropane alkaloids Peganum harmala Pharmako Gnosis offers more than a mere historical or pharmacological background of these substances Pendell delves into the nuances of each substance's effect on consciousness with a poetic finesse bringing to life our profound and intricate relationship with these potent compounds He approaches the topic with genuine curiosity acknowledging the transformative power these substances wield over individuals societies and cultures The narrative enriched by a wealth of quotations from acclaimed writers is as intoxicating as the substances it explores brewing a unique literary concoction Taking the reader beyond the confines of traditional scientific discourse Pendell's distinctive narrative style weaves in personal experiences anecdotal evidence and a profound sense of the sacred resulting in a reading experience that is as deeply engaging as it is informative Shamanism, Colonialism, and the Wild Man Michael Taussig, 2008-06-20 Working with the image of the Indian shaman as Wild Man Taussig reveals not the magic of the shaman but that of the politicizing fictions creating the effect of the real This extraordinary book will encourage ever more critical and creative explorations Fernando Coronil I American Journal of Sociology I Taussig has brought a formidable collection of data from arcane literary journalistic and biographical sources to bear on questions of evil torture and politically institutionalized hatred and terror His intent is laudable and much of the book is brilliant both in its discovery of how particular people perpetrated evil and others interpreted it Stehen G Bunker Social Science Quarterly Cultural Diversity in the Armed Forces Joseph L. Soeters, Jan Van der Meulen, 2007-01-24 This book addresses the different ways in which armed forces around the world respond to the cultural diversity of their parent societies ethnicity and gender in particular in order to enhance their quality and legitimacy The Ecotourism-Extraction Nexus Bram Büscher, Veronica Davidov, 2013-08-15 Ecotourism and natural resource extraction may be seen as contradictory pursuits yet in reality they often take place side by side sometimes even supported by the same institutions Existing academic and policy literatures generally overlook the phenomenon of ecotourism in areas concurrently affected by extraction industries but such a scenario is in fact increasingly common in resource rich developing nations This edited volume conceptualises and empirically analyses the ecotourism extraction nexus within the context of broader rural and livelihood changes in the places where these activities occur The volume's central premise is that these seemingly contradictory activities are empirically and conceptually more alike than often imagined and that they share common ground in ethnographic lived experiences in rural settings and broader political economic structures of power and control The book offers theoretical reflections on why ecotourism and natural resource extraction are systematically decoupled and epistemologically and analytically re links them through ethnographic case studies drawing on research from around the world It should be of interest to students and professionals engaged in the disciplines of geography anthropology and development studies Ethnicity and the State Judith D. Toland, 2017-07-28 Modern states have evolved as complex political structures in which unitary forms of

government maintain an uncertain equilibrium with ethnically plural societies Historically ruling elites have tried with little success to eradicate ethnicity through genocide bury it under accusations of tribalism discredit it with the mind frame of modernization or confine it to local rather than national political arenas This broad ranging volume examines the dynamics of ethnic manipulation and accommodation by dominant and subordinate groups in the state building process Ethnicity and the State reflects the widely varying political contexts and cultures in which reasons of state contend with unyielding ethnic allegiances European South American Asian and Middle Eastern examples reveal a consistent set of themes and attitudes The authors find that while the state must realize its authority and stability through a strictly defined charter of rights and values ethnic identity exercises its power more freely and flexibly The sense of peoplehood may be artificially constructed in response to immediate need or it may be ancient and organic growing over time It has the potential to cut across race class and gender Its central tenets and myths may be reinterpreted recreated enlarged upon or modified as the political situation warrants Flexibility of belief and the need to identify with a larger group account both for the durability of ethnic loyalty and its vulnerability to manipulation This volume is particularly timely at a moment when national governments in many parts of the world must face the adoption of more equitable forms of rule to hold their ethnically diverse societies together Taken together the analyses presented here warn against institutionalizing ethnic strife and offer a vision of how the state may foster expectations and policies that serve the interests of all ethnic groups within their borders Political scientists historians and anthropologists will find this book valuable for its interpretations of forces that continue to reshape the social and political fabric of the world
