Superintendent of Documents, 1896 Sustainable Urban Transport Financing from the Sidewalk to the Subway Arturo Ardila-Gomez, Adriana Ortega-Añez, 2015-12-31 Urban transport systems are essential for economic development and improving citizens quality of life To establish high quality and affordable transport systems cities must ensure their financial sustainability to fund new investments in infrastructure while also funding maintenance and operation of existing facilities and services However many cities in developing countries are stuck in an underfunding trap for urban transport in which large up front investments are needed for new transport infrastructure that will improve the still small scale and perhaps poor quality systems but revenue is insufficient to cover maintenance and operation expenses let alone new investment projects The urban transport financing gap in these cities is further widened by the implicit subsidies for the use of private cars which represent a minority of trips but contribute huge costs in terms of congestion sprawl accidents and pollution Using an analytical framework based on the concept of Who Benefits Pays 24 types of financing instruments are assessed in terms of their social economic and environmental impacts and their ability to fund urban transport capital investments operational expenses and maintenance Urban transport financing needs to be based on an appropriate mix of complementary financing instruments In particular for capital investments a combination of grants from multiple levels of government and loans together with investments through public private partnerships could finance large projects that benefit society Moreover the property tax emerges as a key financing instrument for capital operation and maintenance expenses By choosing the most appropriate mix of financing instruments and focusing on wise investments cities can design comprehensive financing for all types of urban transport projects using multi level innovative revenue

sources that promote efficient pricing schemes increase overall revenue strengthen sustainable transport and cover capital investments operation and maintenance for all parts of a public transport system from the sidewalk to the subway *Transit Street Design Guide* National Association of City Transportation Officials,2016-04-14 The Transit Street Design Guide sets a new vision for how cities can harness the immense potential of transit to create active and efficient streets in neighborhoods and downtowns alike Building on the Urban Street Design Guide and Urban Bikeway Design Guide the Transit Street Design Guide details how reliable public transportation depends on a commitment to transit at every level of design Developed through a new peer network of NACTO members and transit agency partners the Guide provides street transportation departments transit operating agencies leaders and practitioners with the tools to actively prioritize transit on the street Site Web de NACTO

Owners of the Sidewalk Daniel M. Goldstein,2016-01-22 Many of Bolivia s poorest and most vulnerable citizens work as vendors in the Cancha mega market in the city of Cochabamba where they must navigate systems of informality and illegality in order to survive In *Owners of the Sidewalk* Daniel M Goldstein examines the ways these systems correlate in the marginal spaces of the Latin American city Collaborating with the Cancha s legal and permanent stall vendors fijos and its illegal and itinerant street and sidewalk vendors ambulantes Goldstein shows how the state s deliberate neglect and criminalization of the Cancha s poor a practice common to neoliberal modern cities makes the poor exploitable governable and consigns them to an insecure existence Goldstein s collaborative and engaged approach to ethnographic field research also opens up critical questions about what ethical scholarship entails *Planning and Urban Design Standards* American Planning Association,Frederick R.
