Philip Sidney and the Poetics of Renaissance Cosmopolitanism Robert E. Stillman, 2016-04-22 Celebrations of literary fictions as autonomous worlds appeared first in the Renaissance and were occasioned paradoxically by their power to remedy the ills of history Robert E Stillman explores this paradox in relation to Philip Sidney's Defence of Poesy the first Renaissance text to argue for the preeminence of poetry as an autonomous form of knowledge in the public domain Offering a fresh interpretation of Sidney's celebration of fiction making Stillman locates the origins of his poetics inside a neglected historical community the intellectual elite associated with Philip Melanchthon leader of the German Reformation after Luther the so called Philippists As a challenge to traditional Anglo-centric scholarship his study demonstrates how Sidney's education by Continental Philippists enabled him to dignify fiction making as a compelling form of public discourse compelling because of its promotion of powerful new concepts about reading and writing its ecumenical piety and its political ambition to secure through natural law from universal Ideas freedom from the tyranny of confessional warfare Intellectually ambitious and wide ranging this study draws together various elements of contemporary scholarship in literary religious and political history in order to afford a broader understanding of the Defence and the cultural context inside which Sidney produced both his poetry and his poetics

Fair Copies Matthew Zarnowiecki, 2014-01-01 In the latter half of the sixteenth century English poets and printers experimented widely with a new literary format the printed collection of lyric poetry They not only investigated the possibilities of working with a new medium but also wrote metaphors of human reproduction directly into their works In Fair Copies Matthew Zarnowiecki argues that poetic production was re envisioned during this period which was rife with models of copying and imitation to include reproduction as one of its inherent attributes Tracing the development of the English lyric during this crucial period Fair Copies incorporates a diverse range of cultural productions and reproductions from key poetic texts by Shakespeare Sidney Spenser Gascoigne and Tottel to legal breviaries visual representations of song midwives manuals and commonplace books Also included are fifteen facsimile reproductions of poems in early printed books with explanations and discussions of their importance Calling upon these diverse sources and examining lyric poems in their earliest manuscript and printed contexts Zarnowiecki develops a new reproductively centred method of reading early modern English lyric poetry

Intricate Movements Bradley Tuggle, 2019-03-07 Renaissance humanism takes as one of its subjects for inquiry the category of the human itself As Intricate Movements Experimental Thinking and Human Analogies in Sidney and Spenser shows late sixteenth century English poets found some remarkably radical ways to interrogate and redefine the status of humans The recent vogue for posthumanist theory encourages a view of non human objects and animals in Renaissance literature as pathways to essentially anti humanist thought On the contrary this book argues that Sidney Spenser and their contemporaries employ animals earth buildings and fictions as analogies employed toward a better understanding of what makes humans a special category both ontologically and ethically Horses and riders are studied by Sidney as a way to understand readers and writers the 1580 Dover Straits Earthquake provides Spenser and Gabriel Harvey an opportunity to explore human emotion liturgical

spaces are represented by Sidney and Spenser in order to reassess human community and fictional persons are interrogated by Spenser as models for human interpersonal epistemology This volume seeks to return critical assessments of the period's engagement with the non-human back to human concerns Focusing on several early modern analogies between human and non-human entities Intricate Movements argues Sidney's and Spenser's thinking about the human is both radically experimental and ultimately humane

Beyond Secular Order John Milbank, 2014-01-28 Beyond Secular Order is the first of a two-volume work that expands upon renowned theologian John Milbank's innovative attempt to understand both theology and modern thought begun in his previously published classic text *Theology and Social Theory* Continues Milbank's innovative attempt to understand both theology and modern thought begun in *Theology and Social Theory* considered a classic work in the development of systematic theology Authored by one of the world's most influential and highly regarded contemporary theologians Draws on a sweep of ideas and thinkers to argue that modern secularism is a form of Christian heresy that developed from the Middle Ages and can only be overcome by a renewed account of Christendom Shows how this heresy can be transformed into a richer blend of religion modernity and politics Reveals how there is a fundamental homology between modern ideas about ontology and knowledge and modern ideas about political action expressed in both theory and practice

Concepts of Creativity in Seventeenth-century England Rebecca Herissone, Alan Howard, 2013 The first genuinely interdisciplinary study of creativity in early modern England In the seventeenth century the concept of creativity was far removed from most of the fundamental ideas about the creative act notions of human imagination inspiration originality and genius that developed in the eighteenth and nineteenth centuries Instead in this period students learned their crafts by copying and imitating past masters and did not consciously seek to break away from tradition Most new material was made on the instructions of a patron and had to conform to external expectations and basic tenets that we tend to take for granted such as the primacy and individuality of the author were apparently considered irrelevant in some contexts The aim of this interdisciplinary collection of essays is to explore what it meant to create buildings and works of art music and literature in seventeenth-century England and to investigate the processes by which such creations came into existence Through a series of specific case studies the book highlights a wide range of ideas beliefs and approaches to creativity that existed in seventeenth-century England and places them in the

context of the prevailing intellectual social and cultural trends of the period In so doing it draws into focus the profound changes that were emerging in the understanding of human creativity in early modern society transformations that would eventually lead to the development of a more recognisably modern conception of the notion of creativity The contributors work in and across the fields of literary studies history musicology history of art and history of architecture and their work collectively explores many of the most fundamental questions about creativity posed by the early modern English creative arts REBECCA HERISSONE is Head of Music and Senior Lecturer in Musicology at the University of Manchester ALAN HOWARD is Lecturer in Music at the University of East Anglia and Reviews Editor for Eighteenth Century Music Contributors Linda Phyllis Austern Stephanie Carter John Cunningham Marina Daiman Kirsten Gibson Raphael Hallett Rebecca Herissone Anne Hultzsch Freyja Cox Jensen Stephen Rose Andrew R Walkling Amanda Eubanks Winkler James A Winn Elizabethan Translation and Literary Culture Gabriela Schmidt, 2013-04-30 Reversing F O Matthiessen's famous description of translation as an Elizabethan art Elizabethan literature may well be considered an art of translation Amidst a climate of intense intercultural and intertextual exchange the cultural figure of translatio studii had become a formative concept in most European vernacular writing of the period However due to the comparatively marginal status of English in European literary culture it was above all translation in the literal sense that became the dominant mode of applying this concept in late 16th century England Translations into English were not only produced on an unprecedented scale they also became a key site for critical debate where contemporary discussions about authorship style and the development of a specifically English literary identity converged The essays in this volume set out to explore Elizabethan translation as a literary practice and as a crucial influence on English literature They analyse the competitive balancing of voices and authorities found in these texts and examine the ways in which both translated models and English literary culture were creatively transformed in the process of appropriation **The Mind Is a Collection** Sean Silver, 2015-10-28 John Locke described the mind as a cabinet Robert Hooke called it a repository Joseph Addison imagined a drawer of medals Each of these philosophers was an avid collector and curator of books coins and cultural artifacts It is therefore no coincidence that when they wrote about the mental work of reason and imagination they modeled their powers of intellect in terms of collecting cataloging and classification The Mind Is a Collection approaches seventeenth and eighteenth century metaphors of the mind from a material point of view Each of the book's six chapters is organized as a series of linked exhibits that speak to a single aspect of Enlightenment philosophies of mind From his first chapter on metaphor to the last one on dispossession Sean Silver looks at ways that abstract theories referred to cognitive ecologies systems crafted to enable certain kinds of thinking such as libraries workshops notebooks collections and gardens In doing so he demonstrates the crossings over of material into ideal ideal into material and the ways in which an idea might repeatedly turn up in an object or a range of objects might repeatedly stand for an idea A brief conclusion examines the afterlife of the metaphor of mind as collection as

it turns up in present day cognitive studies Modern cognitive theory has been applied to the microcomputer and while the object is new the habit is as old as the Enlightenment By examining lived environments and embodied habits from 1660 to 1800 Silver demonstrates that the philosophical dualism that separated mind from body and idea from thing was inextricably established through active engagement with crafted ecologies *Seneca and the Idea of Tragedy* Gregory A.

Staley, 2010-01-14 The question of why Seneca wrote tragedy has been debated since at least the 13th century Since Seneca was a Stoic critics assumed he wrote with the standard Stoic theory of literature as education in philosophy in mind This book argues that Seneca was influenced by Aristotle's famous defense of tragedy against Plato's critique **Literary**

Knowing in Neoclassical France Ann T. Delehanty, 2013 *Literary Knowing in Neoclassical France* analyzes the work of several literary critics in France and England at the end of the seventeenth and beginning of the eighteenth centuries who were inspired by the idea that literature especially the literary sublime might offer us the deepest kind of knowledge Dominique Bouhours Nicolas Boileau Ren Rapin John Dennis and the abb Dubos believed that literature could deliver truths that transcend our world and were analogous or even equal to the truths of divine revelation Ann Delehanty argues that this shift towards the transcendental realm pushed the definition of the literary work away from describing its objective properties and towards its effects on the mind of the reader After placing these ideas about literature in the context of the religious and philosophical thinking of Blaise Pascal Delehanty traces the evolution of a debate about literature in the writings of the critics in question They embraced theories of sentiment and the passions as the epistemological means of identifying and knowing the transcendental aspects of a literary work that eventually came to be known as aesthetics By tracing the historical evolution of the relationship between transcendentalism and aesthetics in French and English neoclassical thought *Literary Knowing in Neoclassical France* provides new and engaging insights into an important moment in our literary history *The Oxford Handbook of Philip Sidney*, 2024-11-13 *The Oxford Handbook of Philip Sidney* is the most comprehensive collection of essays on Sidney published to date Written by an expert team of international specialists its fifty chapters cover every aspect of Sidney's life works and the times in which he lived It provides fresh interpretations of Sidney's career texts and legacy drawing on the most recent historical and archival research and showcasing the range of critical approaches historicist formalist postcolonial post humanist presentist materialist economic ecological affective queer and zoocritical which has opened up so many new perspectives in the study of Renaissance literature in recent years Part I Contexts re-examines Sidney's life family relations and friendship groups his roles as courtier and patron and the Sidney legend which largely shaped these narratives round the political agendas of his day Part II Works offers new in depth readings of Sidney's writings including his poetry prose letters and psalms Part III Literary Contexts explores the pedagogic and practical contexts within which these writings were produced including Sidney's own education the humanist emphasis that literature teach and delight newly evolving ideas of authorship and the potentials presented by the circulation of his

Inventing the Critic in Renaissance England William M. Russell, 2020-09-21 The turn of the seventeenth century was an important moment in the history of English criticism In a series of pioneering works of rhetoric and poetics writers such as Philip Sidney George Puttenham and Ben Jonson laid the foundations of critical discourse in English and the English word critic began for the first time to suggest expertise in literary judgment Yet the conspicuously ambivalent attitude of these critics toward criticism and the persistent fear that they would be misunderstood marginalized scapegoated or otherwise branded with the dignity of a critic suggests that the position of the critic in this period was uncertain In Inventing the Critic in Renaissance England William Russell reveals that the critics of the English Renaissance did not passively absorb their practice from Continental and classical sources but actively invented it in response to a confluence of social and intellectual factors Distributed for UNIVERSITY OF DELAWARE PRESS

Medieval and Early Modern Authorship Guillemette Erne, Lukas Bolens, 2014-10-16 The Persian Empire in English Renaissance Writing, 1549-1622 J. Grogan, 2014-02-18 The Persian Empire in English Renaissance Writing 1549-1622 studies the conception of Persia in the literary political and pedagogic writings of Renaissance England and Britain It argues that writers of all kinds debated the means and merits of English empire through their intellectual engagement with the ancient Persian empire

James Anthony Froude Ciaran Brady, 2014 James Anthony Froude remains one of the most commonly referenced and frequently cited of Victorian public intellectuals Known to intellectual historians as the author of a monumental History of England in the sixteenth century and as a key exponent of Victorian religious doubt he is also frequently referenced as the author of a series of scandalously provocative novels and of a hugely controversial biography of Thomas Carlyle Historians of the British Empire and of Ireland have frequently been compelled to address his sometimes outrageous but often representative historical writings Scholars of mid-Victorian politics have no less often turned to Froude as a typical representative of Victorian fears of democracy while more recently students of political thought have identified him as an early representative of a new form of Commonwealth civic republicanism Yet for all that Froude remains a strangely marginalised fragmented and neglected figure Ciaran Brady now addresses this remarkable gap Based on a

thorough critical examination of all of Froude's published works many of which have been discovered and identified here for the first time and supplemented by intensive research into Froude's private and widely scattered manuscript materials he offers the first sustained study of Froude's life and thought Against the common assumption that Froude's life can be divided along simple lines the sometime enfant terrible who aged into a respectable man of letters he argues that there was a deeper coherence underlying everything he wrote from the scandalous productions of the 1840s to the authoritative university lectures of the 1890s In addition to providing a study of a major but neglected nineteenth century intellectual Brady offers a critical analysis of the impulses the aspirations and the unquestioned assumptions underlying the Romantic project of personal renovation and an alternative view of that unique phenomenon known as the Victorian sage **Toronto Journal of Theology**, 2006
