America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton,2021-05-18 Not since Angela Davis s 2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system Ronald S Sullivan Jr Washington Post From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post civil rights era What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement Millions of mostly young people defiantly flooded into the nation s streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color To many observers the protests appeared to be without precedent in their scale and persistence Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire* the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past Even in the aftermath of Donald Trump many Americans consider the decades since the civil rights movement in the mid 1960s as a story of progress toward greater inclusiveness and equality Hinton s sweeping narrative uncovers an altogether different history taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences the so called urban riot Hinton offers a critical corrective the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions explosions of collective resistance to an unequal and violent order As she suggests if rebellion and the conditions that precipitated it never disappeared the optimistic story of a post Jim Crow United

States no longer holds Black rebellion America on Fire powerfully illustrates was born in response to poverty and exclusion but most immediately in reaction to police violence In 1968 President Lyndon Johnson launched the War on Crime sending militarized police forces into impoverished Black neighborhoods Facing increasing surveillance and brutality residents threw rocks and Molotov cocktails at officers plundered local businesses and vandalized exploitative institutions Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities from York Pennsylvania to Cairo Illinois to Stockton California The central lesson from these eruptions that police violence invariably leads to community violence continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today Presenting a new framework for understanding our nation s enduring strife America on Fire is also a warning rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality

Sierra Vista Planned Community Mortgage Insurance ,1982 **This Is Where You Belong** Melody Warnick,2017-07-04 In the spirit of Gretchen Rubin s megaseller *The Happiness Project* and Eric Weiner s *The Geography of Bliss* a journalist embarks on a project to discover what it takes to love where you live The average restless American will move 11 7 times in a lifetime For Melody Warnick it was move 6 from Austin Texas to Blacksburg Virginia that threatened to unhinge her In the lonely aftermath of unpacking she wondered Aren t we supposed to put down roots at some point How does the place we live become the place we want to stay This time she had an epiphany Rather than hold her breath and hope this new town would be her family s perfect fit she would figure out how to fall in love with it no matter what How we come to feel at home in our towns and cities is what Warnick sets out to discover in *This Is Where You Belong* She dives into the body of research around place attachment the deep sense of connection that binds some of us to our cities and increases our physical and emotional well being then travels to towns across America to see it in action Inspired by a growing movement of placemaking she examines what its practitioners are doing to create likeable locales She also speaks with frequent movers and loyal stayers around the country to learn what draws highly mobile Americans to a new city and what makes us stay The best ideas she imports to her adopted hometown of Blacksburg for a series of Love Where You Live experiments designed to make her feel more locally connected Dining with her neighbors Shopping Small Business Saturday Marching in the town Christmas parade Can these efforts make a halfhearted resident happier Will Blacksburg be the place she finally stays What Warnick learns will inspire you to embrace your own community and perhaps discover that the place where you live right now is home
