Sierra Club Bulletin December 1967:

The Man Who Built the Sierra Club Robert Wyss, 2016-06-07 David Brower 1912 2000 was a central figure in the modern environmental movement His leadership vision and elegant conception of the wilderness forever changed how we approach nature In many ways he was a twentieth century Thoreau Brower transformed the Sierra Club into a national force that challenged and stopped federally sponsored projects that would have dammed the Grand Canyon and destroyed hundreds of millions of acres of our nation s wilderness To admirers he was tireless passionate visionary and unyielding To opponents and even some supporters he was contentious and polarizing As a young man growing up in Berkeley California Brower proved himself a fearless climber of the Sierra Nevada s dangerous peaks After serving in the Tenth Mountain Division during World War II he became executive director of the Sierra Club This uncompromising biography explores Brower s role as steward of the modern environmental movement His passionate advocacy destroyed lifelong friendships and at times threatened his goals Yet his achievements remain some of the most important triumphs of the conservation movement What emerges from this unique portrait is a rich and robust profile of a leader who took up the work of John Muir and along with Rachel Carson made environmentalism the cause of our time **Sierra Club Bulletin** Sierra Club, 1919 Includes section Book reviews

Greene, 1987 *Yosemite, the Park and Its Resources: Historical narrative* Linda W. Greene, 1987 *The Genius of Earth Day* Adam Rome, 2013-04-16 The first Earth Day is the most famous little known event in modern American history Because we still pay ritual homage to the planet every April 22 everyone knows something about Earth Day Some people may also know that Earth Day 1970 made the environmental movement a major force in American political life But no one has told the whole story before The story of the first Earth Day is inspiring it had a power a freshness and a seriousness of purpose that are difficult to imagine today Earth Day 1970 created an entire green generation Thousands of Earth Day organizers and participants decided to devote their lives to the environmental cause Earth Day 1970 helped to build a lasting eco infrastructure lobbying organizations environmental beats at newspapers environmental studies programs ecology sections in bookstores community ecology centers In *The Genius of Earth Day* the prizewinning historian Adam Rome offers a compelling account of the rise of the environmental movement Drawing on his experience as a journalist as well as his expertise as a scholar he explains why the first Earth Day was so powerful bringing one of the greatest political events of the

twentieth century to life Sierra Club Bulletin ,1919 The National Union Catalogs, 1963- ,1964 Still the Wild River Runs Byron E. Pearson,2002 Between 1963 and 1968 environmentalists were outraged when western water interests sought to construct two dams in Grand Canyon as part of the Central Arizona Project The Sierra Club led a national campaign opposed to the project which most environmental historians credit with defeating the dams In the wake of its victory the Sierra Club has been lauded as the savior of Grand Canyon Byron Pearson now takes a closer look at history to show that the Sierra Club s ability to mobilize public opinion did not appreciably influence Congress where the issue was actually decided When Arizona congressman Stewart Udall became Interior Secretary in 1960 he promoted a plan to import water from the Pacific Northwest to California in order to placate that state s opposition to the CAP with its proposed dams When this support dissolved in the face of resistance from Washington senator Henry Jackson who chaired the Senate Interior Committee the pragmatic Udall sought passage of a bare bones CAP bill without the dams before he and Arizona senator Carl Hayden retired Despite this congressional deal making the Sierra Club received credit for blocking the dams and was propelled to the undisputed leadership of the environmental movement Using the myth that it had saved the Canyon the club transformed its image of power into real political influence after Congress passed the National Environmental Policy Act in 1970 giving environmental advocates access to the policy making process for the first time In revealing how the Sierra Club played a much lesser role in blocking the dams than they would have had the public believe Pearson contrasts the ways in which the controversy unfolded in the court of public opinion versus the actual political process He takes readers into congressional chambers and conference rooms reconstructing the legislative process to convey the full flavor of this political give and take Based on research in archives from all over the country Still the Wild River Runs will itself be a subject of controversy as it challenges long standing notions about the power of environmental lobbies By putting this chain of historical events in clearer perspective it can give citizens concerned with future causes a better understanding of the political process and what really moves it Green Republican Thomas G. Smith,2006-06-25 Green Republican chronicles the life of Congressman John Saylor and his personal legacy as an environmental champion Saylor believed the wilderness was intrinsic to the American experience that our concepts of democracy love of country conservation and independence were shaped by our wilderness experiences Through his ardent protection of national parks and diligent work to add new areas to the parks system Saylor helped propel the American environmental movement in the three decades following World War II At the height of the federal dam building program in the 1950s and 1960s Saylor blocked efforts to erect hydroelectric dams whose impounded waters would have invaded Dinosaur National Monument and the Grand Canyon During the energy crisis of the early 1970s Saylor denounced attempts to open the Alaska National Wildlife Refuge to oil drilling He was the House architect of the Wilderness Act of 1964 and the Wild and Scenic Rivers Act of 1968 Because Saylor represented a coal mining district he doggedly promoted the use of coal instead of atomic or hydropower to generate electricity and repeatedly

won the support of his constituents over thirteen terms between 1949 and 1973 But he also fervently supported legislation to purify the air and water and redeem stripped lands Considered both a maverick and a pioneer John Saylor won respect on both sides of the aisle because he was direct hardworking and passionate about conservation at a time when the cause was not popular Environmental leaders dubbed him St John because he tenaciously advocated their proposals and battled resistance by resource use proponents Based on extensive research and numerous interviews with Saylor s colleagues and members of the conservationist community Thomas G Smith assembles the remarkable story of John Saylor arguably the leading congressional conservationist of the twentieth century and a major force in the preservation of America s wilderness

On the Trail Silas Chamberlin,2016-01-01 The first history of the American hiking community and its contributions to the nation s vast network of trails In the mid nineteenth century urban walking clubs emerged in the United States A little more than a century later tens of millions of Americans were hiking on trails blazed in every region of the country This groundbreaking book is the first full account of the unique history of the American hiking community and its rich nationwide culture Delving into unexplored archives including those of the Appalachian Mountain Club Sierra Club Green Mountain Club and many others Silas Chamberlin recounts the activities of hikers who over many decades formed clubs built trails and advocated for environmental protection He also discusses the shifting attitudes of the late 1960s and early 1970s when ideas about traditional volunteerism shifted and new hikers came to see trail blazing and maintenance as government responsibilities Chamberlin explores the implications for hiking groups future club leaders and the millions of others who find happiness inspiration and better health on America s trails *Ansel Adams* Mary Street Alinder,Ansel Adams,2017-02-21

Park Builders Thomas R. Cox,2011-04-21 Among the greatest attractions of the Pacific Northwest are its state parks campgrounds and tree lined highways From Idaho hot springs to the Oregon coast millions of people enjoy this priceless legacy every year but few stop to think about the source of this bounty The Park Builders profiles the men who provided the parks and the times that shaped them From its beginnings as part of the progressive crusades to its evolution into an expected function of state government the state parks movement in the Northwest is a window onto the political and social developments of the twentieth century The states of Washington Idaho and Oregon were generally in the mainstream of the

parks movement but each of their histories is unique Taken together they help to define the nature and limitations of regionalism in the Northwest Especially in the early years the story of state parks was largely the story of individuals Drawing extensively from interviews and personal papers Thomas Cox creates memorable pictures of parks activists in each state Robert Moran creator of the battleship Nebraska spent a decade lobbying the state of Washington to accept his magnificent acreage on Orcas Island Sam Boardman went from a road crew to the head of Oregon s park system and took up his mission with a zeal that was literally religious To me a park is a pulpit he wrote The more you keep it as He made it the closer you are to Him In Idaho Senator Weldon Heyburn no proponent of state expenditures set out to create a national park and ended up with a premier state park named for him State parks serve more people at far less expense than do those in the National Park System Since their fates are determined largely at the state level they are an ideal venue for the study of grassroots activism and regional trends This book is the first to collect these themes into a coherent whole It will serve as a model for further regional studies of its kind Cascade Alpine Guide; Stevens Pass to Rainy Pass Fred Beckey, 2003-06-09 Cascades climbing routes the guidebooks relied on for more than 25 years Northwest climbing legend Fred Beckey has summited and explored hundreds of Cascade peaks Hand drawn maps and photos with route overlays as well as approach information Volume II in the classic Cascade Alpine Guide series features expert information on more than 300 climbing and high routes in the Cascades This volume covers the middle of the Cascade Range from the foothills east of Puget Sound to Lake Chelan You ll find geographical historical and geological overviews of the majestic mid Cascade region plus important tips on safety and backcountry usage Legendary author climber Fred Beckey includes technical and grade information for each route to make clear exactly what type of climb you are embarking upon Mono Lake Abraham Hoffman, 2014-04-01 Mono Lake is one of the largest lakes in California and Californians have been using it enjoying it and abusing it since nomadic northern Paiutes began hunting the lake s vast bird populations Controversy between environmentalists and the City of Los Angeles brought so much attention to Mono Lake in the late twentieth century that it became best known for its appearance on Save Mono Lake bumper stickers This thoughtful study is the first book to explore the lake s environmental and cultural history Hoffman writes about gold mining in the Mono Basin the taking of birds and their eggs to supply food for miners and townspeople a failed oil boom efforts to develop recreational activities such as a state operated marina which also failed catastrophes including plane crashes and the testing of bombs underwater and litigation over the diversion of creeks flowing into the lake and the resulting decline in the lake level A variety of photographs some never before published ranging from mining to motor boat races in the 1930s are also included **Saving Grand Canyon** Byron E Pearson, 2019-09-25 2020 Winner of the Southwest Book Awards 2020 Spur Awards Finalist Contemporary Nonfiction Western Writers of America The Grand Canyon has been saved from dams three times in the last century Unthinkable as it may seem today many people promoted damming the Colorado River in the canyon during the early twentieth century as the most feasible solution to the

water and power needs of the Pacific Southwest These efforts reached their climax during the 1960s when the federal government tried to build two massive hydroelectric dams in the Grand Canyon Although not located within the Grand Canyon National Park or Monument they would have flooded lengthy unprotected reaches of the canyon and along thirteen miles of the park boundary Saving Grand Canyon tells the remarkable true story of the attempts to build dams in one of America s most spectacular natural wonders Based on twenty five years of research this fascinating ride through history chronicles a hundred years of Colorado River water development demonstrates how the National Environmental Policy Act came to be and challenges the myth that the Sierra Club saved the Grand Canyon It also shows how the Sierra Club parlayed public perception as the canyon s savior into the leadership of the modern environmental movement after the National Environmental Policy Act became law The tale of the Sierra Club stopping the dams has become so entrenched and so embellished that many historians popular writers and filmmakers have ignored the documented historical record This epic story puts the events from 1963 1968 into the broader context of Colorado River water development and debunks fifty years of Colorado River and Grand Canyon myths *National Union Catalog* ,1978 **The Nation's Estuaries: San Francisco Bay and Delta, Calif** United States. Congress. House. Committee on Government Operations. Conservation and Natural Resources Subcommittee,1969
