Drawing Lines in the Forest Kevin R. Marsh,2009-11-23 Drawing boundaries around wilderness areas often serves a double purpose protection of the land within the boundary and release of the land outside the boundary to resource extraction and other development In *Drawing Lines in the Forest* Kevin R Marsh discusses the roles played by various groups the Forest Service the timber industry recreationists and environmentalists in arriving at these

boundaries He shows that pragmatic rather than ideological goals were often paramount with all sides benefiting After World War II representatives of both logging and recreation use sought to draw boundaries that would serve to guarantee access to specific areas of public lands The logging industry wanted to secure a guaranteed supply of timber as an era of stewardship of the nation's public forests gave way to an emphasis on rapid extraction of timber resources This spawned a grassroots preservationist movement that ultimately challenged the managerial power of the Forest Service The Wilderness Act of 1964 provided an opportunity for groups on all sides to participate openly and effectively in the political process of defining wilderness boundaries The often contentious debates over the creation of wilderness areas in the Cascade Mountains in Oregon and Washington represent the most significant stages in the national history of wilderness conservation since World War II Three Sisters North Cascades and Glacier Peak Mount Jefferson Alpine Lakes French Pete and the state wide wilderness acts of 1984 **Sierra Club** Tom Turner,1993-09 A book which celebrates America's foremost environmental organization Images by America's leading nature photographers depict the national parks forests and wildernesses saved by the Sierra Club's grass roots activism and accompanying text tells the story of the organization **Encyclopedia of American Folklife** Simon J Bronner,2015-03-04 American folklife is steeped in world cultures or invented as new culture always evolving yet often practiced as it was created many years or even centuries ago This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America from barn raisings to the Internet tattoos and Zydeco through expressions that include ritual custom crafts architecture food clothing and art Featuring more than 350 A Z entries Encyclopedia of American Folklife is wide ranging and inclusive Entries cover major cities and urban centers new and established immigrant groups as well as native Americans American territories such as Guam and Samoa major issues such as education and intellectual property and expressions of material culture such as homes dress food and crafts This encyclopedia covers notable folklife areas as well as general regional categories It addresses religious groups reflecting diversity within groups such as the Amish and the Jews age groups both old age and youth gangs and contemporary folk groups skateboarders and psychobillies placing all of them in the vivid tapestry of folklife in America In addition this resource offers useful insights on folklife concepts through entries such as community and group and tradition and culture The set also features complete indexes in each volume as well as a bibliography for further research **On Foot** Joseph Amato,2004-11 In this lively social history Amato author of *Dust* tells the large scale and small scale stories of what was man's first mode of travel walking *The Man Who Built the Sierra Club* Robert Wyss,2016-06-07 David Brower 1912 2000 was a central figure in the modern environmental movement His leadership vision and elegant conception of the wilderness forever changed how we approach nature In many ways he was a twentieth century Thoreau Brower transformed the Sierra Club into a national force that challenged and stopped federally sponsored projects that would have dammed the Grand Canyon and destroyed hundreds of millions of acres of our nation's wilderness To admirers he was tireless passionate visionary and unyielding To

opponents and even some supporters he was contentious and polarizing As a young man growing up in Berkeley California Brower proved himself a fearless climber of the Sierra Nevada s dangerous peaks After serving in the Tenth Mountain Division during World War II he became executive director of the Sierra Club This uncompromising biography explores Brower s role as steward of the modern environmental movement His passionate advocacy destroyed lifelong friendships and at times threatened his goals Yet his achievements remain some of the most important triumphs of the conservation movement What emerges from this unique portrait is a rich and robust profile of a leader who took up the work of John Muir and along with Rachel Carson made environmentalism the cause of our time *Africa's Environment* United States.
