**Introduction to the Talmud and Midrash** Hermann Leberecht Strack, 1996 Gunter Stemberger's revision of H L Strack's classic introduction to rabbinic literature which appeared in its first English edition in 1991 was widely acclaimed Gunter Stemberger and Markus Bockmuehl have now produced this updated edition which is a significant revision completed in 1996 of the 1991 volume Following Strack's original outline Stemberger discusses first the historical framework the basic principles of rabbinic literature and hermeneutics and the most important Rabbis The main part of the book is devoted to the Talmudic and Midrashic literature in the light of contemporary rabbinic research The appendix includes a new section on electronic resources for the study of the Talmud and Midrash The result is a comprehensive work of reference that no student of rabbinics can afford to be without

*The Transformation of Judaism* Jacob Neusner, 2011-03-31 Jacob Neusner describes analyzes and interprets the transformation of one system of the Israelite social order by a connected but autonomous successor system He characterizes the successive systems classifying the one as philosophical and the other as religious He explains the categorical account of each and sets forth the outcome of a number of topical studies on the category formations of Rabbinic Judaism with special attention to the social order politics philosophy and economics These systems emerged as 1 autonomous when viewed synchronically 2 connected when seen diachronically and 3 as a continuous construction when seen at the end of their formative age In their successive stages of categorical autonomy connection and finally continuity the three distinct systems may be classified respectively as philosophical religious and theological each one taking over and revising the definitive categories of the former and framing its own fresh generative categories as well The formative history of Judaism is the story of the presentations and re presentations of categorical structures In method it is the exegesis of taxonomy and taxic systems Now after more than two decades Neusner has decided to review the initial statement Since the book summarizes ten years of work from 1980 to 1990 on the Rabbinic category formations of social science politics philosophy and economics in the setting of the law and theology of Rabbinic Judaism from the Mishnah through the Bavli 200 600 C E it seemed well worth the effort to recapitulate the original work The revised introduction explains the omission of theology in his category formation philosophy religion theology Neusner's account of the Bavli produced the decade after this title was completed did not make possible the continuous description of the unfolding of the Rabbinic system The pattern that appealed to Neusner from philosophy to religion to theology has not yet come to a satisfactory account In the twenty years

### **Rabbinic Perspectives: Rabbinic Literature and the Dead Sea Scrolls**

Steven Fraade, Aharon Shemesh, Ruth Clements, 2018-11-01 The studies in this volume examine the intersection of the Dead Sea Scrolls with early rabbinic literature This is a particularly rich area for comparative study which has not heretofore received sufficient scholarly attention While some of the contributions in this volume focus on specific comparative case studies others address far reaching issues of historical and comparative methodology Particular attention is paid to questions of the nature of sectarian and rabbinic law and how each may elucidate the other These studies model the directions that need to be pursued in future scholarship on the lines of continuity and discontinuity that connect and differentiate these two literary corpora and their respective religious cultures and social structures Judaism II Michael Tilly, Burton L.

Visotzky, 2021-02-10 Judaism the oldest of the Abrahamic religions is one of the pillars of modern civilization A collective of internationally renowned experts cooperated in a singular academic enterprise to portray Judaism from its transformation as a Temple cult to its broad contemporary varieties In three volumes the long running book series Die Religionen der Menschheit Religions of Humanity presents for the first time a complete and compelling view on Jewish life now and then a fascinating portrait of the Jewish people with its ability to adapt itself to most different cultural settings always maintaining its strong and unique identity Volume II presents Jewish literature and thinking the Jewish Bible Hellenistic Tannaitic Amoraic and Gaonic literature to medieval and modern genres Chapters on mysticism Piyyut Liturgy and Prayer complete the volume *The Studia Philonica Annual* David T. Neusner, 1994-10-01 The Midrash An Introduction sets forth the way in which Judaism reads the Hebrew Bible In this masterful presentation the reader is introduced to the classics of Jewish Bible interpretation with special attention to the way in which the rabbis of Talmudic times read the Pentateuch the Book of Ruth and Song of Songs The seven Midrash compilations are introduced with a lucid account of their main points accompanied by selections that give the reader a direct encounter in English with the Bible as Judaism understands it The word midrash based on the Hebrew root DaRaSH search means interpretation or exegesis Midrash also more formally refers to the compilations of such interpretations of Scripture As Dr Jacob Neusner explains these compilations reached closure and conclusion in the formative stage of Judaism that is the first seven centuries of the Common Era the time in which the Mishnah ca 200 Talmud of the Land of Israel ca 400 and Talmud of Babylonia ca 600 were written Midrash is not so much about Scripture as it is a subordinate part of Scripture They did not write about Scripture Dr Neusner says They wrote with Scripture much as painters paint with a palette of colors The Midrash An Introduction is the second volume in Dr Jacob Neusner's series of introductory volumes on classical rabbinic literature As with the first volume The Mishnah An Introduction this book offers the layperson a concise description of the religious literature and drawing on Dr Neusner's own translations of the texts walks readers through the selections providing them with firsthand experience with the document itself As Dr Neusner says in his preface to The Midrash An Introduction In
