Sight and Sound, 2006 **The Films of Fred Schepisi** Brian McFarlane, 2021-11-15 Fred Schepisi is one of the crucial names associated with the revival of the Australian film industry in the 1970s The Films of Fred Schepisi traces the lead up to his critical successes in feature filmmaking via his earlier award winning success as a producer in advertising commercials in the 1960s and the setting up of his own company Unlike some directors he derived from this experience a sure sense of the commercial aspects of filmmaking as well as its aesthetic considerations The volume also considers stories of his early education in a Catholic seminary which he drew on in his semiautobiographical film The Devil s Playground the success of which launched him as an exciting new feature director The volume expands on Schepisi s success story to chart his development as a director in demand in other countries notably in the US and the UK as well as continuing to make major films in Australia Brian McFarlane argues that Schepisi s career is symptomatic of Australian directors who have made their presences felt on the international stage Whereas other key directors of the Australian film revival such as Peter Weir and Bruce Beresford have been the subject of book length critical studies Schepisi s career has not to date been so explored McFarlane takes a critical account of Schepisi s film output including such standouts as The Chant of Jimmie Blacksmith Plenty Roxanne Six Degrees of Separation Mr Baseball and Last Orders and he augments analysis with interviews with the director By discussing the production histories and both critical and popular receptions McFarlane s study shines a new light on Schepisi s work and his rise to prominence in the global film industry **Introduction to Film** Nick Lacey, 2016-04-28 This core textbook offers a concise yet complete introduction to film responding to shifts in the medium while addressing all of the main approaches that inform film studies The rise of on demand internet based video has transformed the way films are distributed and exhibited with many previously unobtainable and obscure films becoming available for global audiences to view instantly Interweaving historical and current theoretical approaches Nick Lacey presents a tightly focused and coherent overview of a discipline in transition which can be read cover to cover or in distinct chapters With its original narrative line and student oriented philosophy the text greatly enriches student s appreciation of cinema while equipping them with the essential skills and vocabulary to succeed in film studies This is an ideal foundational text for all lecturers undergraduate or A level students of film and cinema studies as well as enthusiasts of film and cinema looking for a comprehensive guide New to this Edition Content reflecting the increasing importance of production contexts in chapters focusing exclusively on the film business distribution and exhibition A more detailed chapter on representation and greater emphasis on audience Updated content addressing the significance of transnational cinema drawing on a more global non Hollywood range of film examples and case studies from Europe Asia and Latin America Text is broken up by a wider variety of film stills representing world cinema from the classics to the latest in contemporary cinema Child Development Laura Berk, 2015-05-20 Child Development **Sight, Sound and Text in the History of Education** Jody Crutchley, Stephen

Parker, Siân Roberts, 2020-06-29 This volume contributes to the study of new sonic and visual sources and their intertextual relationship with the documentary as well as traditional understandings of text in the history of education It both presents case studies of research and points to new avenues of further research This volume arose from a joint conference of the History of Education Society UK and the Australian and New Zealand History of Education Society held in 2016 on the theme sight sound and text in the history of education The conference drew together educational and media historians as well as archivists and museum professionals to examine methodological issues and a range of examples of sensory and textual histories The event from which this book arose showed that there is so much more to consider in this area This book was originally published as a special issue of History of Education Shakespeare's Auditory Worlds Walter W. Cannon, Laury Magnus, 2020-10-27 Inspired by the verbal exuberance and richness of all that can be heard by audiences both on and off Shakespeare's stages Shakespeare's Auditory Worlds examines such special listening situations as overhearing eavesdropping and asides It breaks new ground by exploring the complex relationships between sound and sight dialogue and blocking dialects and other languages re voicings and finally nonverbal or metaverbal relationships inherent in noise sounds and music staging interstices that have been largely overlooked in the critical literature on aurality in Shakespeare Its contributors include David Bevington Ralph Alan Cohen Steve Urkowitz and Leslie Dunn and in a concluding Virtual Roundtable section six seasoned repertory actors of the American Shakespeare Center as well who discuss their nuanced hearing experiences on stage Their hearing invites us to understand the multiple dimensions of Shakespeare's auditory world from the vantage point of actors who are listening in the round to what they hear from their onstage interlocutors from offstage and backstage cues from the musicians galleries and often most interestingly from their audiences
