Psychoanalysis Thomas Dalzell, 2018-03-29 This book investigates what was distinctive about the predisposition to psychosis Freud posited in Daniel Paul Schreber a presiding judge in Saxony's highest court It argues that Freud's 1911 Schreber text reversed the order of priority in late nineteenth century conceptions of the disposing causes of psychosis the objective biological and subjective biographical to privilege subjective disposition to psychosis but without returning to the paradigms of early nineteenth century Romantic psychiatry and without obviating the legitimate claims of biological psychiatry in relation to hereditary disposition While Schreber is the book's reference point this is not a general treatment of Schreber or of Freud's reading of the Schreber case It focuses rather on what was new in Freud's thinking on the disposition to psychosis what he learned from his psychiatrist contemporaries and what he did not and whether or not psychoanalysts have fully received his aetiology Dispatches from the Freud Wars John Forrester, 1997 In this challenging collection of essays the

noted historian and philosopher of science John Forrester delves into the disputes over Freud's dead body With wit and erudition he tackles questions central to our psychoanalytic century's ways of thinking and living including the following Can one speak of a morality of the psychoanalytic life Are the lives of both analysts and patients doomed to repeat the incestuous patterns they uncover What and why did Freud collect Is a history of psychoanalysis possible By taking nothing for granted

and leaving no cliché of psychobabble theoretical or popular unturned Forrester gives us a sense of the ethical surprises and epistemological riddles that a century of tumultuous psychoanalytical debate has often obscured In these pages we explore dreams history ethics political theory and the motor of psychoanalysis as a scientific movement Forrester makes us feel that the Freud Wars are not merely a vicious quarrel or a fashionable journalistic talking point for the late twentieth century This hundred years war is an index of the cultural and scientific climate of modern times Freud is indeed a barometer for understanding how we conduct our different lives **Isis Cumulative Bibliography 1986-1995** John Neu,1997
