Long Term Projections of Power: Political, Economic, and Military Forecasting Oskar Morgenstern, Klaus Knorr, Klaus P. Heiss, 1973 Monograph presenting a critique of long term forecasting techniques operationally useful for predicting the shape of political power and technological capacity in the future comprises a literature survey of major projections to the year 2000 and examines their relevance to armed forces power economic systems environmental problems research and development efforts etc Bibliography pp 217 to 224 references and statistical tables

Defence Policy of Nigeria: Capability and Context Charles Quarker Dokubo, Celestine Oyom Bassey, 2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of our security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria's military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970

China's Military Potential Larry M. Wortzel, 1998 This monograph provides an appraisal of the ability of the People's Republic of China PRC to build a credible military force in the 21st century The author examines a complicated set of factors which when taken together equates to potential military power in China's case Perhaps foremost among these factors is the PRC's current economic success and whether Beijing can transfer it to the military sphere Colonel Wortzel concludes that China could become a military power in every sense but the greater likelihood is that the PRC will be

overcome by internal problems Nonetheless the growth in China s military potential bears careful watching by U S military planners *Solar Energy Research and Development* United States. Congress. Joint Committee on Atomic Energy,1975

Military planning in the twentieth century , Hegemony and Democracy Bruce Russett,2011-03-10 Hegemony and Democracy is constructed around the question of whether hegemony is sustainable especially when the hegemon is a democratic state The book draws on earlier publications over Bruce Russett s long career and features new chapters that show the continuing relevance of his scholarship In examining hegemony during and after the Cold War it addresses The importance of domestic politics in the formulation of foreign policy The benefits and costs of seeking security through military power at the expense of expanding networks of shared national and transnational institutions The incentives of other states to bandwagon with a strong but unthreatening hegemon and free ride on benefits it may provide rather than to balance against a powerful hegemon The degree to which hegemony and democracy undermine or support each other By applying theories of collective action and foreign policy Russett explores the development of American hegemony and the prospects for a democratic hegemon to retain its influence during the coming decades This collection is an essential volume for students and scholars of International Relations American Politics and US Foreign Policy **Mathematical Economics and Game Theory** R. Henn,O. Moeschlin,2012-12-06 **The Future of Aviation** United States. Congress. House. Committee on Science and Technology. Subcommittee on Aviation and Transportation R. & D.,1976 **The Power-Conflict Story** Kelly Kadera,2010-07-23 The Power Conflict Story explains patterns of behavior in major world rivalries since 1816 Kelly M Kadera carefully lays out the dynamic connections between two rival nations power relationship and their conflictual interactions with one another Rivals accumulate power and use conflict as a method of reducing their opponent s power level But conflict is costly because it invites reciprocation from the opponent who has similar motives Applying the formal model that she has developed Kadera makes some interesting and novel predictions about which types of rivals win and what strategies they use The empirical record on national power levels and interstate conflict convincingly support these predictions Examples include the rise of the United States as a world power and the corresponding fall of British hegemony near the turn of the last century Germany s unsuccessful attempt to overtake Britain during the Second World War and Russia s rivalry with China during the early 1900s One of the central contributions of the book s explanation of interstate rivalry is the integration of two opposing schools of thought balance of power theory and power transition theory This integration is accomplished by the author s dynamic formal model that emphasizes fluctuations in conflict behavior under different power relationships as well as shifts in power levels resulting from natural growth and resource depletion The formal model and its analysis are presented in a conversational manner making it accessible to the reader ThePower Conflict Story will appeal to students and scholars of international relations world history formal modeling applied mathematics numerical methods and research methodology Kelly M Kadera is Assistant Professor of Political Science University of Iowa

Political Impact of the Sino-U.S. Oil Competition in Africa Didier T. Djoumessi,2009-01-15 The Political Impact of the Sino U S Oil Competition in Africa is an important contribution to the current discussions about the development and security implications of the US Sino competition for oil in Africa s petro states The book focuses on the impact of the growing role of China on these countries acceptance of Western policies in general and those of the U S in particular It uses recent U S attempts to promote democratic governance in countries like Chad Angola and Sudan to show how China s competing presence in these African petro states gradually reduced America s leverage over them It demonstrates that the level of these African countries vulnerability to Washington s policies depends on the intensity of the Sino U S competition within their oil sector The book also contributes to the corpus of theories on resource curse and interdependence through a rigorous review of existing literature which exposes the inadequacies of existing analyses and proffers new theoretical insights and methods of measuring inter state relations

Naval Expeditionary Forces and Power Projection ,1992 Review of Current Information in the Treasury Department Library United States. Department of the Treasury. Library,1975

Africa Projected Timothy M. Shaw,Olajide Aluko,1985-06-18 This book presents an original and critical overview of Africa s diverse political economies which takes into account contemporary crises current analyses historical insights and projected problems In addition to treating new data it proposes a novel framework for analysis which includes class coalitions as well as contradictions and emphasizes division as well as co operation within the bourgeoisie and proletariat

The Tragedy of Great Power Politics John J. Mearsheimer,2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States

determined to remain the world's sole regional hegemon will go to great lengths to prevent that from happening. The tragedy of great power politics is inescapable.
