Matthew Bernstein, 1994 A portrait of the trailblazing film producer whose career spanned five decades Bernstein packs an astonishing amount of solid film history into his lucid chronicle of Wangers whirlwind corporate liaisons A fully realized A line biopic of a fascinating life in the movies Tom Doherty Film Quarterly *Transactions of the Institution of Naval Architects* Institution of Naval Architects, 1875 List of members in each volume [The Age of Wars of Religion, 1000-1650](#) Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In

India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

*The Greatest Naval War Ever Fought* Vincent O'Hara, 2025-10-14 The greatest naval conflict in history occurred during World War II from 1939 to 1945 Most people are familiar with the famous Battle of the Atlantic and epic naval engagements in the Pacific like Midway and Leyte Gulf all of which receive ample coverage in this panoramic work However author Vince O Hara offers a truly global perspective of World War II at sea that captures every aspect of a vast naval conflict that involved dozens of nations more than 15 000 ships and 43 7 million tons of shipping Approximately 570 000 lives were lost at sea in those six years Here the naval action begins in the Baltic Sea before dawn on September 1 1939 when a German battleship opened fire on Polish troops barricaded in a fortress in the port city of Danzig Poland Over the ensuing nine months the conflict spread into Great Britain's home waters of the North Sea the English Channel and the eastern Atlantic One of the most remarkable naval achievements of the war occurred in 1940 during the German invasion of Norway The Kriegsmarine's successful attack in the face of immensely superior Allied naval forces was the war's first large scale amphibious operation As naval activities in Europe expanded into the Mediterranean the war in the Pacific exploded with the Japanese attack on Pearl Harbor in December 1941 That assault led to a series of critical naval battles between Japan and the United States including Wake Island Coral Sea Midway and Guadalcanal O Hara not only deftly examines all the major naval contests in the European and Pacific theaters but also offers detailed analysis of secondary navies such as France Italy and the Soviet Union He explores little known smaller engagements such as the campaigns between Thailand and France or Peru and Ecuador O Hara connects this broad range of naval action by focusing on recurring themes of technological innovation command and control logistics and intelligence He demonstrates that there was more than one path to winning sea power and that the most important naval platforms to emerge from the war were the oiler the Landing Ship Tank LST and the Liberty ship not the aircraft carrier the submarine or the battleship O Hara makes clear to readers that the impact of the naval battles won by the Allies still reverberates today
