Longing To Be Free:

Free Will, Moral Responsibility, and the Desire to Be a God Bruce N. Waller, 2020-09-04 Free Will Moral Responsibility and the Desire to be a God explores the hidden corridors of the moral responsibility system to discover why that system is so widely accepted and passionately defended The moral responsibility system has obvious charms it provides justification for our powerful strike back motives transforms selfishness into the virtuous defense of our justly deserved special benefits draws a radical distinction between humans and the other species we exploit and protects our nonconscious belief in a just world Those charms notwithstanding the resilience and endurance of the moral responsibility system indicates a hidden force that not only binds together the pieces of the system but also motivates our stubborn devotion to that system That hidden force is a nonconscious desire to be a god a desire that afflicts both believers and atheists and that is almost universally denied Nietzsche being a special exception That desire can be found throughout the history of philosophy from Aristotle to the present It is also manifested in myths and a variety of religious practices and teachings The breadth power and harm of nonconscious apotheosis aspiration is the focus of this study

Fichte on Free Will and Predestination Kienhow Goh, 2024-02-01 The book explains Fichte's position on free will and predestination including its rationale and significance. It argues that Fichte affirms both free will and predestination and explains how he purports to do so without contradiction. The book presents Fichte's position as a form of compatibilism that has not yet been explored in the literature. Due to early rationalist convictions, Fichte is as much concerned with reconciling freedom with a logical and a theological determinism as he is with a causal determinism. He sees in Kant's novel concept of a pure practical reason a new form of rationalism, one consisting of a system of moral rather than natural necessitating grounds. At the same time, he adopts a more radically libertarian stance on free will than Kant. Every member in a sequence of free actions is a first and absolute member and could be other than it is given the same antecedent natural events and natural laws. The interest of Fichte as a theorist of freedom lies in how he brings together freedom and predetermination in a way that challenges our assumption about their mutual exclusivity. The book provides an overview of Fichte's philosophical system, the so-called Doctrine of Science from 1793 to 1800, with the aim of contextualizing his theory of free agency and destiny. In doing so, it sheds light on how consideration of these issues in turn shapes the system. Fichte on Free Will and Predestination will be of interest to scholars and advanced students working on Fichte's philosophy, the history of modern philosophy, German Idealism, and the history of the philosophical issue of free will.

The Sacred Writings of St. John of Damascus John of Damascus, Concerning the Orthodox Faith the third book of the Fountain of Wisdom is the most important of John Damascene s writings and one of the most notable works of Christian antiquity Its authority has always been great among the theologians of the East and West Here again the author modestly disavows any claim of originality any purpose to essay a new exposition of doctrinal truth He assigns himself the less pretentious task of collecting in a single work the opinions of the ancient writers scattered through many volumes and of systematizing and connecting them in a logical whole It is no small credit to John of Damascus that he was able to give to the Church in the eighth century its first summary of connected theological opinions At the command of Eugenius III it was rendered into Latin by Burgundio of Pisa in 1150 shortly before Peter Lombard s Book of Sentences appeared This

translation was used by Peter Lombard and St Thomas Aquinas as well as by other theologians till the Humanists rejected it for a more elegant one The author follows the same order as does Theodoret of Cyrus in his Epitome of Christian Doctrine But while he imitates the general plan of Theodoret he does not make use of his method He quotes not only from the pages of Holy Writ but also from the writings of the Fathers As a result his work is an inexhaustible thesaurus of tradition which became the standard for the great Scholastics who followed In particular he draws generously from Gregory of Nazianzus whose works he seems to have absorbed from Basil Gregory of Nyssa Cyril of Alexandria Leo the Great Athanasius John Chrysostom and Epiphanius The work is divided into four books
