Looking Back At Francis Bacon:

Looking Back at Francis Bacon David Sylvester, Francis Bacon, 2000 In Looking back at Francis Bacon eminent writer and curator David Sylvester provides the definitive account of the career of an artist whose friend and collaborator he was for more than forty years Drawing on his unparalleled personal knowledge of Bacon s inspirations and intentions he first offers a critical overview of the work s development from 1933 to the early 1990s and then addresses its crucial aspects He also reproduces previously unpublished extracts from his celebrated conversations with Bacon in which the artist speaks about himself modern painters and the art of the past Finally Sylvester gives a brief account of Bacon s life correcting errors that elsewhere have been presented as facts BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Interviews with Francis Bacon* David Sylvester, 2016-11-22 Nine interviews with Francis Bacon spanning over twenty years from 1962 to 1986 which give invaluable insight into the creative mind of one of the twentieth century s greatest artists Since its first publication this book with its subsequent revised and augmented editions has been considered a classic of its kind As a discussion of the problems of making art it has been widely influential not only among artists but among writers and musicians It has also been seen as the most revealing portrait that exists of one of the most singular artistic personalities of our time Bacon s obsessive thinking about how to remake the human form in paint finds unique expression in his encounters with the distinguished art writer David Sylvester over a period of twenty five years In these masterfully and creatively reconstructed interviews Sylvester provided unparalleled access to the thought work and life of one of the creative geniuses of the twentieth century **ART AND MASCULINITY IN POST-WAR BRITAIN** Gregory Salter (Art historian), 2019 *Francis Bacon* Mark Stevens, Annalyn Swan, 2021-03-23 THE TIMES BEST ART BOOK OF THE YEAR FINALIST FOR THE PLUTARCH AWARD AND THE APOLLO AWARD There are not many biographical masterpieces but Mark Stevens and Annalyn Swan have produced one wrote the novelist John Banville of Francis Bacon Revelations By the Pulitzer prize winning authors of de Kooning An American Master this acclaimed biography contains a wealth of never before known details about one of the iconic artists of the 20th century a singularly private darkly funny eruptive man and his extraordinary art whose iconoclastic charm keeps the pages turning The Washington Post Francis Bacon created an indelible image of mankind in modern times and played an outsized role in both twentieth century art and life from his public emergence with his legendary Triptych 1944 its images so unrelievedly awful that people fled the gallery to his death in Madrid in 1992 Bacon was a witty free spirit and unabashed homosexual at a time when many others remained closeted and his exploits were as unforgettable as his images He moved among the worlds of London s Soho and East End the literary salons of London and Paris and the homosexual life of Tangier Through hundreds of interviews and extensive new research the authors probe Bacon s childhood in Ireland he earned his father s lasting disdain because his asthma prevented him from hunting his increasingly open homosexuality his early design career never before explored in detail the formation of his

vision his early failure as an artist his uneasy relationship with American abstract art and his improbable late emergence onto the international stage as one of the great visionaries of the twentieth century In all Francis Bacon Revelations gives us a more complete and nuanced and more international portrait than ever before of this singularly private darkly funny eruptive man and his equally eruptive extraordinary art Bacon was not just an influential artist he helped remake the twentieth century figure

A Course of Severe and Arduous Trials Lynn Brunet, 2009 The artist Francis Bacon 1909 1992 and the writer Samuel Beckett 1906 1989 both convey in their work a sense of foreboding and confinement in bleak ritualistic spaces This book identifies many similarities between the spaces and activities they evoke and the initiatory practices of fraternal orders and secret societies that were an integral part of the social landscape of the Ireland experienced by both men during childhood Many of these Irish societies modelled their ritual structures and symbolism on the Masonic Order Freemasons use the term spurious Freemasonry to designate those rituals not sanctioned by the Grand Lodge The Masonic author Albert Mackey argues that the spurious forms were those derived from the various cult practices of the classical world and describes these initiatory practices as a course of severe and arduous trials This reading of Bacon's and Beckett's work draws on theories of trauma to suggest that there may be a disturbing link between Bacon's stark imagery Beckett's obscure performances and the unofficial use of Masonic rites

Ecce Homo Kent Brintnall, 2011 Drawing on perspectives from a range of disciplines including religious studies gender and queer studies psychoanalysis art history and film theory Ecce Homo explores the complex ambiguous meanings of the enduring figure of the male body in pain

Marshall McLuhan's

Mosaic Elena Lamberti, 2012-02-28 One hundred years after Marshall McLuhan's birth Elena Lamberti explores a fundamental yet neglected aspect of his work the solid humanistic roots of his original mosaic form of writing In this investigation of how his famous communication theories were influenced by literature and the arts Lamberti proposes a new approach to McLuhan's thought Lamberti delves into McLuhan's humanism in light of his work on media and culture exploring how he began to perceive literature not just as a subject but a function inseparable from communal existence Lamberti pays particular attention to the central role played by Modernism in the making of his theories including the writings of Ford Madox Ford James Joyce Ezra Pound and Wyndham Lewis Reconnecting McLuhan with his literary past Marshall McLuhan's Mosaic is a demonstration of one of his greatest ideas that literature not only matters but can help us understand the hidden patterns that rule our environment

Bacon and Essex Edwin Abbott Abbott, 1877

The Truth Is Always Grey Frances Guerin, 2018-01-30 Changing how we look at and think about the color grey Why did many of the twentieth century's best known abstract painters often choose grey frequently considered a noncolor and devoid of meaning Frances Guerin argues that painters including Jasper Johns Cy Twombly Agnes Martin Brice Marden Mark Rothko and Gerhard Richter select grey to respond to a key question of modernist art What is painting By analyzing an array of modernist paintings Guerin demonstrates that grey has a unique

history and a legitimate identity as a color She traces its use by painters as far back as medieval and Renaissance art through Romanticism to nineteenth and twentieth century modernism to show how grey is the perfect color to address the questions asked by painting within art history and to articulate the relationship between painting and the historical world of industrial modernity A work of exceptional erudition breadth and clarity presenting an impressive range of canonical paintings across centuries as examples *The Truth Is Always Grey* is a treatise on color that allows us to see something entirely new in familiar paintings and encourages our appreciation for the innovation and dynamism of the color grey **Love in a Dark Time**

Colm Toibin, 2004-06-02 Colm Toibin knows the languages of the outsider the secret keeper the gay man or woman He knows the covert and overt language of homosexuality in literature In *Love in a Dark Time* he also describes the solace of finding like minded companions through reading Colm Toibin examines the life and work of some of the greatest and most influential writers of the past two centuries figures whose homosexuality remained hidden or oblique for much of their lives either by choice or necessity The larger world couldn't know about their sexuality but in their private lives and in the spirit of their work the laws of desire defined their expression This is an intimate encounter with Mann Baldwin Bishop and with the contemporary poets Thom Gunn and Mark Doty Through their work Toibin is able to come to terms with his own inner desires his interest in secret erotic energy his admiration for courageous figures and his abiding fascination with sadness and tragedy Toibin looks both at writers forced to disguise their true experience on the page and at readers who find solace and sexual identity by reading between the lines Journal of Early Modern Studies: Volume 4, Issue 2 (Fall 2015) Sorana
