The Dream Assassin Volume (1) Roman Harambura, 2019-02-20 Humanity's Greatest Gift Imagination Roman expresses that we as humans have the ability to think by thought power as humans on this most precious Earth we each have the power within us to create through manifestation anything we choose simply by the power of our own thoughts Roman believes we are all thinking beings that every thought we each have has the possibilities of becoming our own reality be it negative thoughts or positive thoughts which in turn creates our personal existence either in a negative way or a positive way he says we are not in reality physical it only appears to be that way because we are so highly conditioned by our own beliefs systems we are in fact Living Energy in the making of becoming Living Consciousness The main reason he wrote and created his new book The

Dream Assassin was to show all of humanity that Imagination is real and at the same time create magnificent imaginative magic that would not only bring awareness but ignite the true inner passion of every individual that reads this book but also to see the movie when it is created in the future to come As Albert Einstein the great Theoretical Physicist said on many occasions Reality is merely an Illusion all be it a very persistent one It s like saying just because you cannot touch something doesn t mean it is not real because it may be vibrating simply at another level of consciousness

Thinking about Things Mark Sainsbury,2018-05-03 In the blink of an eye I can redirect my thought from London to Austin from apples to unicorns from former president Obama to the mythical flying horse Pegasus How is this possible How can we think about things that do not exist like unicorns and Pegasus They are not there to be thought about yet we think about them just as easily as we think about things that do exist Thinking About Things addresses these and related questions taking as its framework a representational theory of mind It explains how mental states are attributed what their aboutness consists in whether or not they are relational and whether any of them involve nonexistent things The explanation centers on a new theory of what is involved in attributing attitudes like thinking hoping and wanting These attributions are intensional some of them seem to involve nonexistent things and they typically have semantic and logical peculiarities like the fact that one cannot always substitute one expression for another that refers to the same thing without affecting truth Mark Sainsbury's new theory display theory explains these anomalies For example substituting coreferring expressions does not always

preserve truth because the correctness of an attribution depends on what concepts it displays not on what the concepts refer to And a concept that refers to nothing may be used in an accurate display of what someone is thinking *Unicorn Valley (Secret Kingdom #2)* Rosie Banks,2014-01-28 Enter a magical world full of friendship and fun Ellie Summer and Jasmine are excited to visit the Secret Kingdom once again And this time they are traveling as Very Important Friends of King Merry who needs their help His wicked sister Queen Malice has hidden a thunderbolt in Unicorn Valley Can the girls help their new unicorn friends save the magical land and earn their golden horns **The DeKalb Literary Arts Journal** ,1969 *The Wonder of Unicorns* Diana Cooper,2012-06-01 Ancient myths and legends are explained from a higher spiritual perspective in this guide to the amazing energetic beings known as unicorns Whether aspiring to help the world at large or simply improve a small corner of it enlightenment seekers can use the meditations rituals and ceremonies featured in the book to unleash the great abilities of these elusive spirit guides Supported by the author s personal connection experiences unicorns are revealed not as mere fantasy but rather similar in presence and power to angels
